**THE EVENTS HELD BY THE  
RUSSIAN HOUSE (RCSC)  
IN ULAANBAATAR**

It is not possible to come to Russia without falling in love with this wonderful country. Any international student at a Russian university will confirm this fact. You can appreciate the atmosphere of hospitality, take part in traditional Russian festivals, as well as show your talents to enter one of the Russian universities, staying outside the Russian Federation.

The Russian House (RCSC) in Ulaanbaatar holds a great number of such events that will inspire you to fulfill your big dream –to see Russia for yourself and become a Russian university student. Let's look at the most impressive informative and entertaining activities in Mongolia.

## STAR DICTATION "LET'S GO!"

The socio-cultural project of Rossotrudnichestvo **Star Dictation "Let's Go!"** is held annually in April in Mongolia and other countries. For the first time ever, this humanitarian event took place in 2021, on the 60th anniversary of Yuri Gagarin's flight to space. It brought together more than 17,000 participants from 45 countries. In 2022, the Star Dictation was written by 24,000 people in 62 countries. Since 2022, the dictation has been taken online as part of the Tsiolkovsky International Space Film Festival. This year, the author of the dictation was Anton Pervushin, Russian writer, journalist, space science historian, and the author of fascinating science fiction and popular science books about space.

Everyone, irrespective of their age, education and place of residence, can participate in the event. The main thing is to remind of the historic events related to the events from the space science history and find young talents.

Participants checkmark the correct words or word combinations in a special form. Those writing the dictation in other countries can choose an  Arabic,  Chinese,  German,  French, or  English language version on the website.

**Register, participate, and get prizes!**

## RUSSIAN LANGUAGE COURSES

The Russian House (RCSC) in Ulaanbaatar offers paid Russian language courses for everyone interested, irrespective of their age and level of education.

You can choose two-month intensive courses or year-long courses. There are also daytime courses specially designed for school leavers.

“

**Battsetseg Narmandakh, Teacher and Methodologist at the Institute of Open Education**

Most of our students are senior high school students from Mongolian schools who study Russian from scratch to study in Russia later. Working young people attend our courses to work with Russian companies.

The attendees of Russian language courses take part in the traditional spring Spartakiad. In March 2023, this sports event took place at secondary school № 49 bearing the name of Marshal and twice Hero of the Soviet Union Issa Pliev. The young men and girls competed in basketball and volleyball.

The winning teams were awarded diplomas and medals, and the mentor teachers who came to cheer their students got a Sunday boost of energy and pride in their students!

“

**Valeria Kilpyakova, Acting Director of the Russian House (RCSC) in Ulaanbaatar**

We are happy that our students are not only actively engaged in studying Russian but are also keen on sports as physical fitness is a guarantee of well-being and sound knowledge. As the saying goes, a healthy mind in a healthy body.

The Russian House (RCSC) in Ulaanbaatar has eight regular creative associations where the citizens of the two countries do painting, singing, acting and dancing. It holds Olympiads, meetings with Russian universities' representatives, competitive interviews for admission to Russian universities, and other events.

### RUSSIAN MELODY SONG CONTEST

Creative contests enjoy special popularity among Mongolian young people. The traditional Russian Melody song contest (the city of Baganur) brought together more than 100 participants this year.

The strict jury, including the staff of the Russian House (RCSC) in Ulaanbaatar, assessed the participants of different age groups in the following categories: solo performance, choir performance, and ensembles. What surprised the jury most were the vocal skills of adult competitors working in a wide variety of fields: police officers, engineers, electricians, military servants, preschool teachers, students, and, naturally, Russian language teachers.

**The contest was held in two rounds.** The first round was the qualifying round where the competitors with the highest scores made it to the finals. And then, three prize winners were identified for each age category. The Russian Melody contest winners received diplomas, money awards and advertising gifts from the event organizers and partners. The Russian House (RCSC) prepared book gifts for the smallest winners and young Russian language teachers.

### BROAD SHROVETIDE

People in Ulaanbaatar have a lot of fun celebrating Shrovetide in a big way. This year, around 1,000 people came to the Russian House (RCSC) to celebrate the traditional Russian festival.

This folk festival is traditionally celebrated in Russia at the end of winter and marks the beginning of spring. According to centuries-old traditions, it is customary to broadly celebrate farewell to winter, welcome guests with generous treats, and have fun.

At the Russian House (RCSC) in Ulaanbaatar, this festival has long become a wonderful tradition, but it was not celebrated due to the pandemic for several years in a row. This year, the event coincided with the Mongolian national holiday.

The spectators were having a great time to the accompaniment of music and dance performances, singing and dancing, taking the Shrovetide pole by storm, taking part in a wide variety of games, larks, and contests, eating pancakes, and dancing in a round.

The Broad Shrovetide lottery drawing became a long-expected peak of the festival. Thirty prizes from the Russian universities, Russian House (RCSC) in Ulaanbaatar and the partners of the Rossotrudnichestvo representative office in Mongolia – companies such as Aeroflot, Gazprombank, Monretrans, the Sezam proper nutrition factory, the FIX PRICE store – were drawn among the event participants.

## HISTORY LOVERS CLUB

In spring 2023, the Rossotrudnichestvo representative office in Mongolia opened the History Lovers Club. The classes on the common Russian-Mongolian history bring together Mongolian young people, historians from Russia and Mongolia, and members of Russian non-governmental organizations.

“

### **Davaazhav Bayartogtokh, Head of the History Lovers Club, Doctor of Sciences in History**

Studying the topics related to Russian-Mongolian cooperation will be a key area of our club's activities. Our countries are bound by decades of friendship. The history of Russian-Mongolian relations is rich in interesting facts, which, most regrettable, are unknown to many modern young people. Meanwhile, we should remember history because it is an essential part of our countries' lives.

The club welcomes everyone interested in the historic events of Mongolian-Russian cooperation. The club is open to all interested people, and it will hold monthly meetings at the Russian House (RCSC). Follow the announcements.

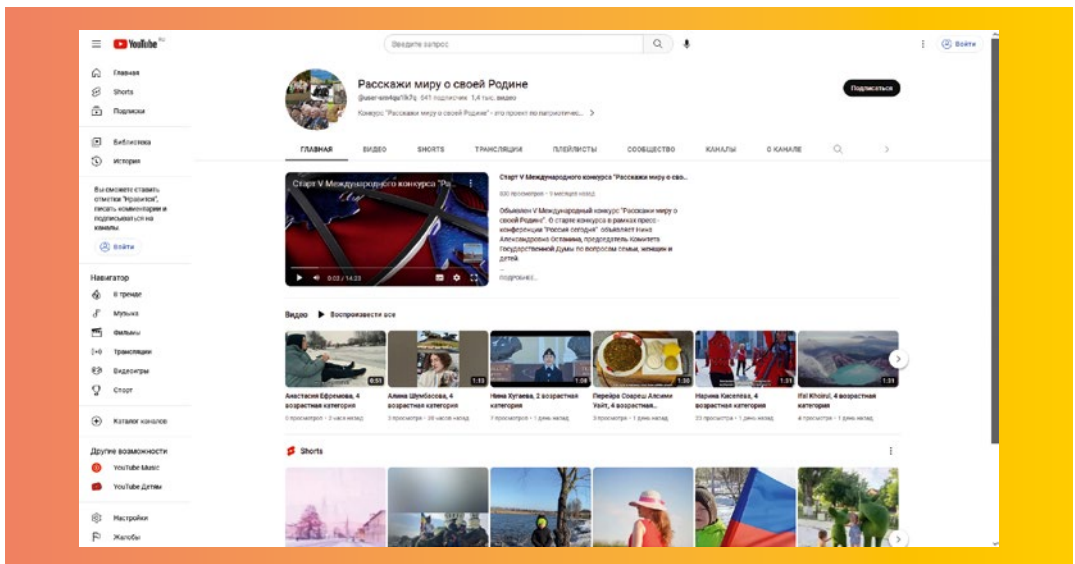

## INTERNATIONAL CONTEST "TELL THE WORLD ABOUT YOUR MOTHERLAND"

**Mongolian school students took an active part in the 5th International Contest "Tell the World About Your Motherland."** The organizers stated that 17 works dedicated to the historical landmarks, tourist attractions, and beautiful places in Mongolia became the jewels of the event.

The Innovation Center for Development and Upbringing of Children and Young People, in cooperation with the Committee of the State Duma of Russia on Family, Women and Children Affairs, with support from Rossotrudnichestvo, announced the start of the contest in spring 2023. Mongolian children quickly joined in the project.

Under the terms of the contest, children and young people from all over the world were supposed to choose the most interesting moments of their country's life and make a video or presentation about them. Every year the contest participants' works are published on the Internet, broadcast in Russian and foreign mass media as well as on major state and public platforms.

During the contest "Tell the World About Your Motherland" the participants sent around 10,000 works from 89 regions of Russia and 52 countries. The fifth season brought together the representatives of 35 countries, including **Russia, Kyrgyzstan, Belarus, Mongolia, Kazakhstan, Moldova, Uzbekistan, Lebanon, and Vietnam.**

What did the Mongolian children tell the world about their Motherland? For example, Khadbaatar Gantulga sent his work in the Video category in the age group of over 15. In his video, he told us about the national park "Mongolia 13th Century." Chinbat Erhembayar presented the Genghis Khan statue in Tsonjin Boldog and told us about its size, symbolism and location.

**Other works by the participants of the contest "Tell the World About Your Motherland"**

## ASTRONOMICAL OBSERVATIONS WITH THE IRKUTSK PLANETARIUM

In March 2023, the Irkutsk Planetarium came to Ulaanbaatar once again with an informative event for the residents of the region. The opportunity to observe the stars in the open air was provided by the Rossotrudnichestvo representative office in Mongolia and astronomers from Russia.

During the four days, everyone interested could observe the waxing crescent moon, Venus, Mars, and the binary stars as closely as possible.

### **Pavel Nikiforov, Director of the Irkutsk Planetarium (Irkutsk, Irkutsk Region, Russia)**

We participate in the international exhibition "Gateway to Asia" for the second time already, and this year we came to Mongolia again with a telescope to make astronomical star observations for everyone interested.

The sky over Ulaanbaatar is always beautiful, but it is even better in the countryside – there is no artificial street lighting and illumination, and there are always a lot of stars there. We were happy that the weather was fine this time, and the Moon, Venus, and Mars observations were particularly interesting. The most spectacular observations were definitely made in the evening on March 24 when Venus was very close to the Moon. This is a rare occurrence in astronomy, and we are happy to have managed to show it to Mongolian residents.

### INTERNATIONAL CONTEST "PEOPLE OF THE ARTEK"

The most active and inquisitive children have the opportunity to go to Artek, the dream camp for many children. To get a coveted free trip ticket, you can fill in the application with your achievements or take part in the research contest.

The international research event "Artek People" is taking place on the occasion of the centenary of Artek. School students find information about the Artek campers of the past and find out what their fate was and what they achieved in life.

The contest is intended for 12-17-year-old international school students from 29 countries, including young Russian compatriots permanently residing in Mongolia. The contest winners will get a free trip to Artek for the 8th summer shift.

#### **Konstantin Fedorenko, Director of Artek**

Artek is an international children's center with an almost century-old history. In all the years of its existence, it not only makes an indelible impression on those who were here at least once, but often dramatically influences the future of its campers.

For more events, visit the official web pages  
of the Russian House (RCSC) in Ulaanbaatar.

# The Russian Language is a Vocation and a Profession

When you make a career choice, you have to make a multiple choice of the field of study, university and country as well. As a rule, if your career choice is determined by your interests, inclinations, character traits, personality type, your university and country choice is influenced to a great extent by the people around you, primarily your family and friends and encouraging examples of your outstanding compatriots. That is why we ask the graduates of Russian universities about their experience of studying in Russia and career choice.

The HED editorial staff members believe that open-hearted and sincere stories help answer many questions and dispel doubts and fears of applicants. Today our guest is Battsetseg Narmandakh, Russian language methodologist at the Representative Office of Rossotrudnichestvo in Mongolia.

**Battsetseg  
Narmandakh**

### ABOUT PROFESSIONAL IDENTITY

My career choice was primarily influenced by my mother who was a Russian language teacher. My country choice was also obvious because my parents studied and obtained a higher education in the Soviet Union – my father in Moscow, and my mother in Sverdlovsk (Ekaterinburg). I had been preparing for the Republican Russian Language Olympiad since the 9th grade, and I placed third in it when I was in the 10th grade. This entitled me to free education at one of the Russian universities. I was assigned to study at the Faculty of Philology (the Department of Russian Language and Literature) of M. Gorky Ural State University (now UrFU).

*пена культуры  
(пенанамс - 1 курс)*

### ABOUT ADAPTATION AND STUDIES

I did not take a pre-university training course. At that time, we were enrolled in the first year directly. That is why blending into the new reality in the new country was a bit of a challenge in the beginning. I am grateful to my student friends who came into my life literally from my first day at the university. They made my adaptation as painless as possible.

*-рус. (-рус.)*

The learning process was not easy. The first year at the Faculty of Philology for foreigners whose level of Russian is elementary is an acid test of strength 😊. Literature, Russian Language, Old Slavonic, and Foreign Language, as well as some general philological subjects such as Introduction to Philology, General Linguistics, Literary Theory require utmost involvement and understanding of the material. To say that it was hard to study is an understatement 😊.

*Рагы м Аби ү*

Despite all difficulties, I am very happy to have traveled this path and obtained a decent education. I do not think I could have coped with it without support from our great teachers and friends.

### ABOUT THE PROFESSIONAL ACTIVITY

After earning my Bachelor's degree, I pursued my Master's degree. I have been working at the Russian House (RCSC) in Ulaanbaatar since December 2010 to this day.

My career started with teaching Russian as a foreign language (RFL). It must be said that the methodology of teaching Russian as a foreign language is very different from the methodology of teaching Russian as a native language. I filled this gap in my knowledge on my own, mastering the theory and practice of teaching RFL. My education and my feeling for language inculcated in me by my teachers are exactly what helped me.

I believe that any teacher should aim for continuous self-development and improvement. That is why gaining new skills and knowledge for specialists working in the sphere of education is a necessity that determines the level of their competence.

Вечерка

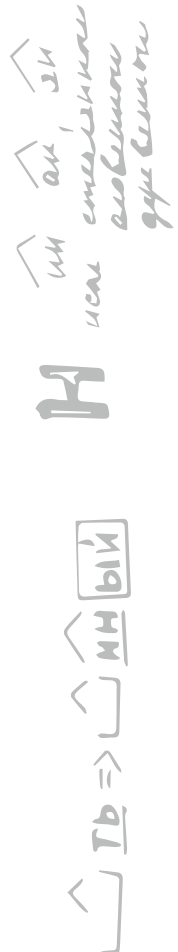

### ABOUT THE RUSSIAN LANGUAGE AND THE RUSSIAN HOUSE (RCSC)

Today the Russian House (RCSC) in Ulaanbaatar has the Russian Language Center offering a wide variety of programs for those wishing to study Russian, including one-year morning courses and one-year daytime courses for 12th graders. As a rule, one-year courses are designed for young people planning to obtain a higher education at Russian universities later. In summer we offer intensive training programs for those leaving for Russia and for those who wish to replenish their knowledge of the Russian language and get acquainted with Russian culture in their free time.

In general, the Russian House (RCSC)'s activities go beyond teaching Russian. We hold plenty of various events for different audiences. Eight creative associations such as dance, art, vocal, and theater associations work on our platforms. Please note that most heads of the associations are graduates of the Russian universities. On Thursdays, Russian movies are screened for free in the small hall of the Russian House. You can follow the Russian House (RCSC)'s activities on our official page on the Facebook\* social media platform, which is popular in Mongolia. Welcome!

\*Recognized as an extremist organization in the Russian Federation

# Follow your Dream and Never Give Up

It is interesting to keep an eye on the lives of the Russian universities' international graduates. So many people, so many chosen paths. It is worth noting that many of our guests choose to go back to their home countries and see their vocation and destination in it. Such stories are full of worldviews and aspirations to make the world a better place.

The stage director of the Opera and Ballet Theater in Ulaanbaatar Mendbayar Bayardavaa can become such an encouraging example for each next generation of applicants.

**Mendbayar  
Bayardavaa**

### ABOUT THE POWER OF THE DREAM

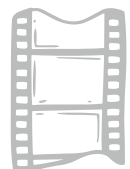

I should say that I had been dreaming of studying in Russia since childhood, and my way was not short and easy. The story of my admission to a theater university began in 2011. Then I studied at the Mongolian Conservatory, and this was my first attempt. Unfortunately, I failed it. After graduation from the conservatory, I worked for more than four years as an actress at the opera and ballet theater before my long-cherished dream came back to my memory.

In 2014, I realized that I wanted to become a stage director. I began to study the information on admission and possible study options, but... unfortunately, I was late for the admission campaign. So, the second opportunity was missed.

A year later, I went back to studying Russian at the Russian Center of Science and Culture. Then, in between learning grammar and educational dialogues, I talked about my dream with my Russian language teacher. That's when the time came for my third attempt. After I was actively engaged in mastering the language for a year, I went to Moscow to apply to GITIS.

There is a funny story about that trip to Moscow. The point is that my friend who was to meet me completely forgot about it. I found myself alone in a big city with heavy baggage. At the moment, I was completely at a loss, and, frankly speaking, I was very frightened. The surprising thing is that a complete stranger from Mongolia helped me that day.

I recall that period of time with huge gratitude and love. During the eleven days spent in the Russian capital, I got a bunch of impressions. This time, everything worked out for me. I successfully passed my exam and came back to comfortably prepare for the beginning of the academic year.

## ABOUT GITIS AND RUSSIA

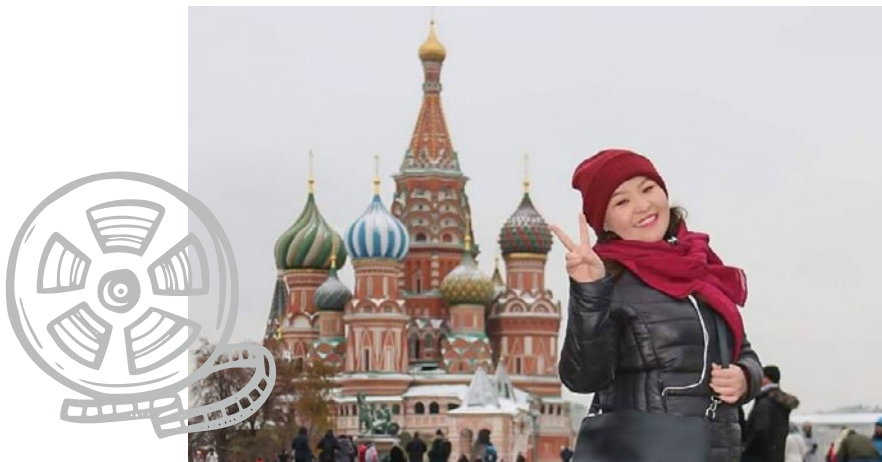

At the beginning of the academic year, I realized that it would not be easy. Despite all my efforts and preparation, it was difficult to study. In fact, our student day lasted from 9 a.m. till 11 p.m. I should also say that the Russian language remained the greatest challenge for me as a foreigner during all my university years. The Russian language, which is beautiful but incredibly difficult, tested my patience every day. I am extremely grateful to my fellow students for their patience, support and help in mastering the language. I am not sure I would have been able to cope with it without them.

Despite all the difficulties, I had a very happy time studying at GITIS.

I was eager to master my profession, and I was in the best place for this. Just so you understand, there is only one opera house and one drama theater in Mongolia. In this respect, huge theatrical Moscow was a source of eternal inspiration for a Mongolian student.

I have a wonderful memory from this period of my life. When I was a first-year student, my fellow students presented me with the return tickets to Mongolia. This was a New Year surprise. That moment was truly enchanting because that New Year's Eve was the last one spent with my father. I have been carrying this warm memory of my great fellow Isaakyan students\* through all my life. ❤️

\*Isaakyan students -the Georgiy Isaakyan workshop students

### TIPS FOR APPLICANTS

For everybody planning to study in Russia, I have the following tips:

- 1 Study Russian. Knowledge of language is your advantage and assistant.
- 2 Study the things you really want to study. A genuine desire to master a profession is a great motivator in difficult times.
- 3 Choose carefully profession/city/university.
- 4 Do not give up even if nothing works out. It will pass.
- 5 Read. Books will help you fill the gaps in your knowledge.

### ABOUT CAREER AND DESTINATION

In my first year at GITIS, I wanted to stay in Moscow and continue my career in Russia. It was not until much later that I realized that I should come back to Mongolia and develop dramatic art here. That's exactly what happened.

I came back to the Opera and Ballet Theater in Ulaanbaatar in a new position. Now I am a theater director. I am grateful to the theater administration for the opportunity to implement interesting cultural projects and to the Russian House (RCSC) for their support and strong creative connection. We already have something to be proud of, and much remains to be done.

# The university is a space of unlimited opportunities

**Davyd Mungunshagai, Managing Director, a graduate of the Institute of Economics and Management and the Institute of Oriental Studies of Banzarov Buryat State University**

We keep familiarizing our readers with the international graduates of Russian universities whose stories can become a source of useful information for those who are still planning their career. Today our guest is Davyd Mungunshagai, a graduate of the Institute of Economics and Management and the Institute of Oriental Studies of Banzarov Buryat State University.

I think that the start of my success as Managing Director at the foreign-owned company in Mongolia is directly associated with my studies at Buryat State University. **The point is that senior Bachelor's students at BSU have the opportunity to obtain a second qualification** if they are full-time students.

At a certain point, I felt I was lagging behind my peers and I had to study more and develop faster. Thinking about the opportunity to get a second qualification, I came to the conclusion that this was an excellent opportunity. Indeed, it could give me an extra edge after graduation in the future.

So said so done. Studying full time in the State and Municipal Management program at the Institute of Economics and Management, I studied by correspondence at the Faculty of Law as well. So, I managed to successfully complete two majors at once and prove myself as a bright and active student.

I am interested in Russian, Mongolian and Chinese academic literature dedicated to international relations and regional studies. I took an active part in the scientific, social and cultural and creative life of the university. I consider this stage of my student life one of the most important for my development as a specialist.

At that time, I participated in the regional and all-Russian student and research conferences and won the international and regional contests in Mongolia and the Republic of Buryatia. Besides, I helped to organize the meetings with the delegations of Mongolian universities.

**The international student support system created at Buryat State University engages students in the learning process to the fullest extent and encourages them to study better and learn more. The most successful students can pursue their Master's degree on a state-funded basis.**

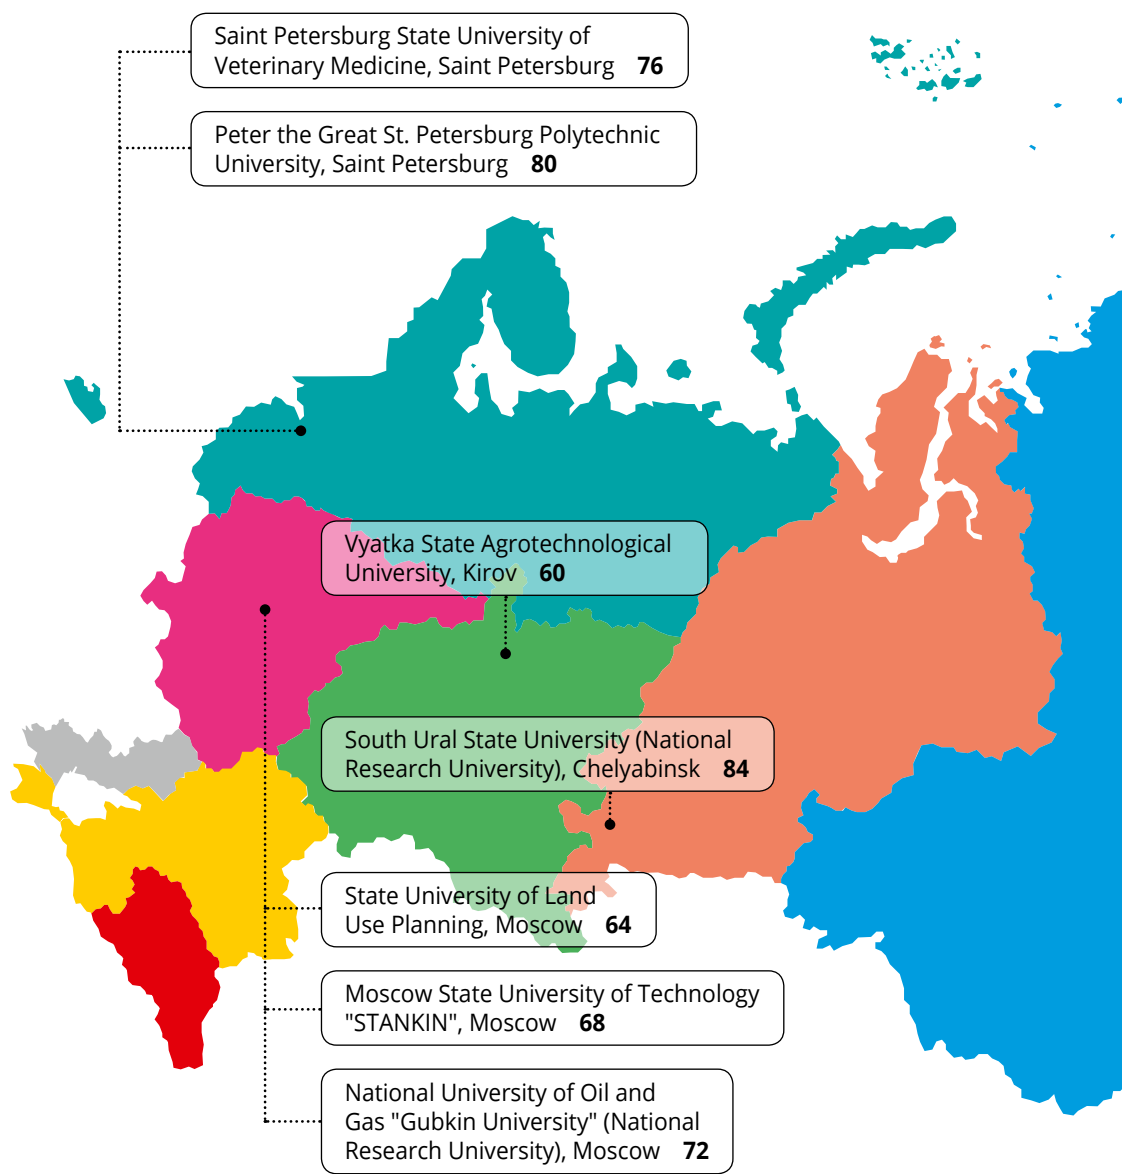

PhD degrees are also available to those who strive to pursue science. At the moment, I am a third-year PhD student specializing in Political Sciences and Regional Studies under the supervision of Associate Professor, Doctor of Political Sciences Vladimir Rodionov.

I am grateful to Banzarov Buryat State University and can call it my second home with full confidence. I can safely say to everybody who is choosing their future, profession and university now that Buryat State University **will help you become a top-notch specialist and professional!**

## REPUBLIC OF SAKHA

# YAKUTIA

Russia is the world's largest state by area. This fact alone makes this country interesting to foreigners who once ask the question, "What is Russia like?" Dear friends, Russia is diverse, and its diversity is determined not only by its geography but also by its extraordinary ethnic makeup. In each issue, we tell you about interesting locations, sights, cities, and whole regions. Today we invite our readers on a journey to Yakutia.

## GEOGRAPHY

Without exaggeration, Yakutia is amazing. The vast territory in Northeast Siberia, which is bigger than Argentina, is bounded by the Laptev Sea and the East Siberian Sea to the north.

Yakutia is a land of astonishing contrasts: boundless tundras alternate with arctic deserts, spellbinding glaciers neighbor on thermal springs, mighty rivers alternate with mirrors of lakes, and ancient cliffs frame picturesque valleys. Here, in the very heart of Siberia, you can witness nature creating genuine art. In this region, snowy mountain peaks neighbor upon green forests, preserving the amazing diversity of flora and fauna, including rare and protected animal and plant species.

Yakutia is a place where pristine nature is barely impacted by human economic activities. This happened thanks to its geographical location in combination with the sparse population, rugged relief and severe climate. And yet, this is a region with extremely high industrial, educational and scientific potential, well-developed infrastructure, and a rich culture.

## YAKUTSK

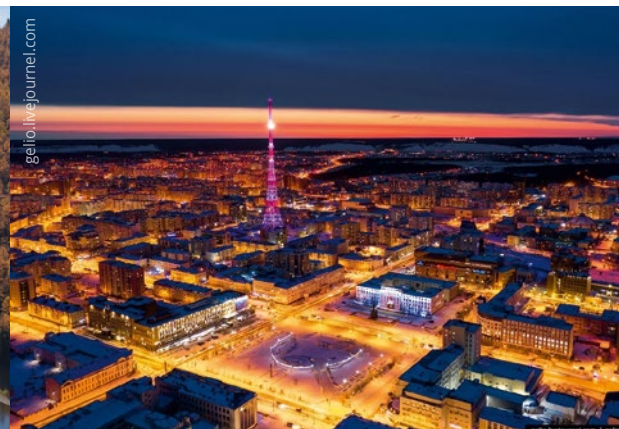

Yakutsk, the capital of the Republic of Sakha (Yakutia), is the modern center of business and cultural life, attracting people by its unique atmosphere and prospects. Located on the banks of the Lena River, it embodies dynamic development and a harmonious combination of Siberian nature and northern urban planning in rather harsh weather conditions.

The city with an extremely interesting history and cultural heritage manifesting themselves in national traditions and crafts is not only a point on the map, but the place where the old is blended with the new, creating a rich and attractive environment for life, work and development. The city develops major technological centers and boasts an excellent business environment. The eventful and cultural life: events, festivals, concerts and theatrical performances vitalize Yakutsk, and its modern parks, shopping centers and sports facilities make it a comfortable place for life and entertainment.

The biggest city located in the permafrost zone has more than 350,000 residents and is constantly growing. More than 60% of the able-bodied population are employed in trade and service, which indicates the development of the sector and availability of a wide range of goods and services and makes Yakutsk livable.

Нина Сметцова

getlo.livejournal.com

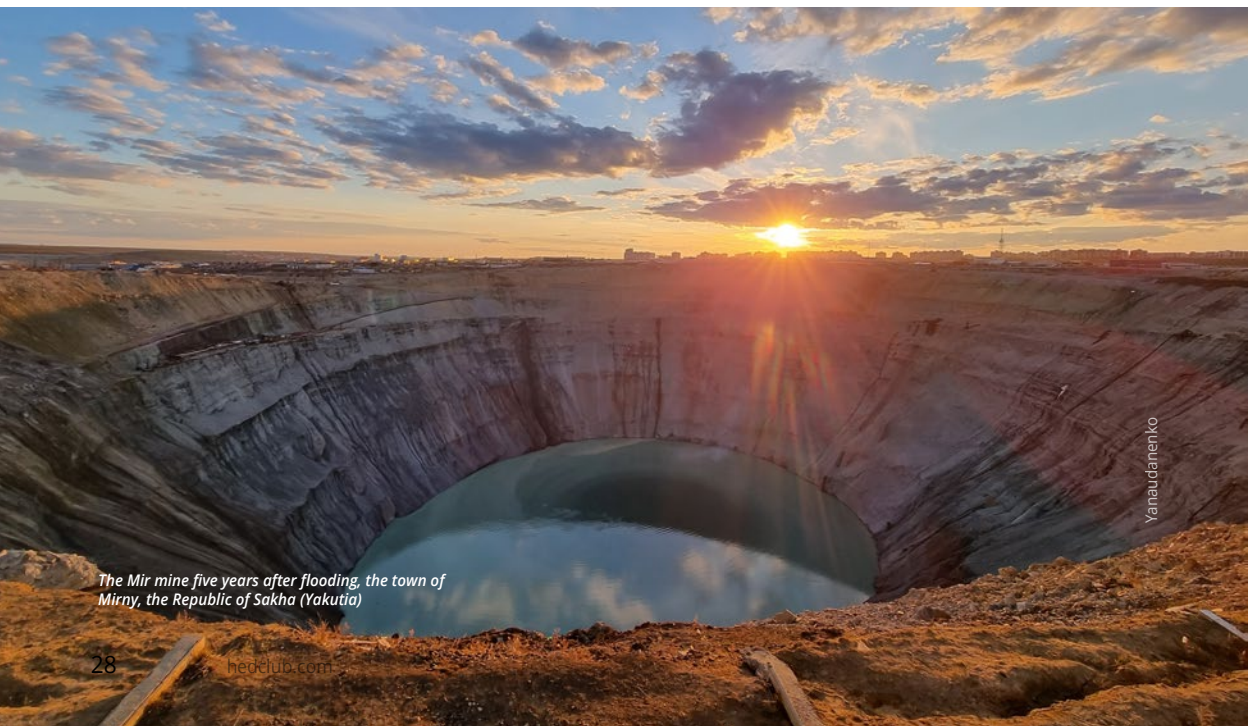

## ECONOMY

The region's economy is based on the mining and processing industry. Yakutia is rich in a wide variety of mineral raw materials. The proven reserves of diamonds, gold, uranium, stibium, iron ores, coal, tin, mercury, hydrocarbons, and rare-earth metals strike the imagination. 95% of the diamonds mined in Russia are of Yakut origin. Mineral wealth and industrial infrastructure make Yakutia attractive to investors. The Republic of Sakha is one of the country's leaders in sustainable growth of industrial manufacturing. In 2022, 616.2 billion rubles were invested in the economy of Yakutia.

The transportation system includes highways and railways, water and air transport. Most freight traffic flows are accounted for by water transport on large rivers and the Northern Sea Route. In winter, when river navigation stops, the role of air transport increases significantly. There are 23 airports in the republic.

The introduction of modern technology solutions and innovations takes the region's agriculture to the next level. The experience of successful crop farming, meat and dairy production and commercial business management in the permafrost zone is actively studied and supported at the country level. The greenhouse business volume is on the increase.

Expansion of infrastructure and transport links plays an important part in the economy of Yakutia. The implementation of major infrastructure projects, such as the railway bridge across the Lena River, promotes expansion of regional opportunities and boosts investment attractiveness.

*The Mir mine five years after flooding, the town of Mirny, the Republic of Sakha (Yakutia)*

Yanaudaneniko

Yakutia invests a lot in the development of education and science, which contributes to training of highly qualified specialists and innovation-driven growth in all sectors. The IT industry is rapidly developing- there is a whole constellation of successful companies developing software, services and applications, and games.

All these facts show that the economy of Yakutia is on the upswing. The region successfully combines its natural potential with modern innovations, creating a favorable environment for business, investment, and personal development.

## NATIONAL IDENTITY

The Republic of Sakha (Yakutia) is a multinational region where the Yakut population predominates. This fact leaves its mark on cultural life, everyday life and leisure. Telling you about Yakutia, we could not pass by local cuisine, festivals, and cinema.

Besides Russian national festivals, Yakutia celebrates a whole range of ethnic festivals such as the Ysyakh, the Republic Day, Olonkho, the Day of the Arctic, the Day of Mother Language and Alphabet. Yakut traditional summer festival, the Ysyakh, is the most prominent festival among others.

**The Ysyakh** can be called the main ethnic holiday in Yakutia and the biggest cultural event in the republic. Festivals and celebrations are held in all population centers at the end of June, on the days of summer solstice. This bright festival combines long-standing traditions of the peoples of Central Asia, South Siberia, Turkic people of the Caucasus. During the days and nights of the Ysyakh, people set up festival bonfires, make a bloodless sacrifice in honor of the Aiyy deity, participate in fortune telling, play games, and dance.

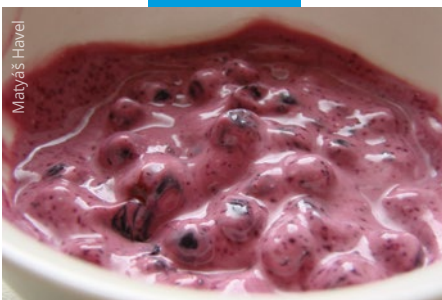

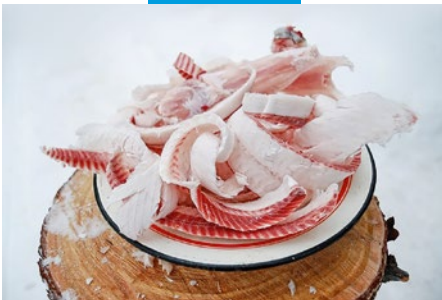

Нина Слепцова

On the Republic Day, Aysen Nikolaev laid flowers at the monument to Platon Oyunsky

ysia.ru

Not a single festival can do without a feast. Yakut national cuisine can offer a lot of foods for gourmets. Yakut traditional cuisine includes meat, fish, dairy products, berries and herbs cooked in different ways. Harsh conditions in the region do not allow for growing fruit and most vegetables, so they are not used in the traditional cuisine. Besides, the use of all components of the raw product in the cooking process is a distinguishing feature of this cuisine. So, giblets, bones, cartilages, blood are used.

#### The most popular ethnic foods are:

- **Khaan** – delicate blood sausage made from beef or foal blood
- **Oyogos** – horse or colt meat (most often, brisket), served hot (roasted), frozen after boiling or raw, like stroganina
- **Stroganina** – frozen fish, foal meat or liver cut into thin slices and served with salt and black cracked pepper
- **Is miine** – gizzards soup with potatoes and vermicelli served with fresh spring onions
- **Kyorchekh** – national dessert made from heavy cream whipped with cowberry or cranberry

## PLACES TO VISIT, TO SEE, AND TO BE SURPRISED BY

Yakutia is extremely vast, diverse, and, sometimes, quite unapproachable. It remains in the hearts of those coming here once and for all. You will not remain indifferent to a great number of unique sights and landmarks of the region and capital. We have made a small list of places the readers should visit to get an idea of the republic, its heritage, nature, history and, last but not least, people living there.

### TREASURY OF YAKUTIA

This is a unique exhibition providing a deep insight into the true natural and mineral wealth of the Yakut land. The exhibition halls are dedicated to the history of extraction and processing of precious metals, jewelry art and the amazing diversity of precious and semiprecious stones.

📍 12, Kirov str., Yakutsk

### THE MAMMOTH MUSEUM

The World Mammoth Museum was set up in 1991, and it is a structural subdivision of North-Eastern Federal University today. The exhibition and collections of the laboratory museum are fully dedicated to mammothology and, without exaggeration, are of universal importance because 75% of the world's known mammoth burial sites were discovered in Yakutia. You can see the remaining mummies of ancient animals here. Many exhibits are one of a kind in the world.

📍 48, Kulakovskogo str., Natural Sciences Faculty Building, Yakutsk

### LENA PILLARS

Lena Pillars Nature Park is a series of differently shaped magnificent cliffs stretching for more than 40 km along the banks of the Lena River. These natural formations are 400,000 years old. This is a true wonder of nature, and you can feel the invisible flow of time here.

📍 13, Krupskaya str., Yakutsk  
📍 Ordzhonikidze, 56, Pokrovsk

### PERMAFROST KINGDOM

The tourist site is a huge non-thawing glacier inside the mountain with museums and sights. The temperature in the territory of this site never rises above  $-4^{\circ}\text{C}$ . Visitors wear special warm clothes to keep warm during the tour.

📍 Chochur Muran Mountain, 7 km, 1, Yakutsk

### CHOCHUR MURAN ECOLOGICAL AND ETHNOGRAPHIC COMPLEX

The complex, discovered in the foothills of the volcano in 2005, is a vast area with a merchant house, a barn, little houses of the dog-team driver and hunter with original interiors. Visitors can get acquainted with everyday life of the first researchers of the Trans-Urals and become engrossed in history.

📍 Vilyui Highway, 7 km, building 5, Yakutsk

### THE BULUUS GLACIER

This is a unique natural object striking the imagination of even sophisticated travelers. The picturesque glacier that does not thaw even in summer, when the temperature reaches  $+35^{\circ}\text{C}$ , is located 100 km from the capital of the republic. The temperature above the glacier is approximately  $+4^{\circ}\text{C}$  all year round. The territory of this amazing natural site has a lot of sources with the clearest water and beautiful locations.

## YAKUT HOLLYWOOD

Over the last years, Yakut cinema has not been called otherwise than cinematic wonder. No wonder Yakut movies often outstrip Western movies and main Russian hits at Russian movie theaters. In 2022, around 225,000 tickets were sold for 28 Yakut movies. Movies of all genres, from comedies and horror movies to historical dramas, are made here. Auteur movies regularly participate in festival screenings and win well-deserved awards.

Yakut cinema is about sincerity in harsh and ascetic landscapes and interiors, about mundane dramas, and about social pains. Yakut cinema is always about people.

### MUST-SEE MOVIES

#### PRIVATE CHEERIN (2021)

This is a war thriller about the intense battles of 1943 and a Yakut hunter who has to engage in a sniper duel with a professional German shooter. This is a breathtaking movie about snipers and reconnaissance scouts' work at the front line. It is based on the war story *Egor Cheerin* by Timofey Smetanin.

#### THE SUN ABOVE ME NEVER SETS (2019)

This is a feel-good movie about the timeless problem of fathers and sons. Two representatives of different generations meet at an outlying island near the Laptev Sea. One of them is a young man named Altan, a typical representative of contemporary society. The second one is an old man named Baybal, a follower of old traditions and the living epitome of Yakut culture. They have a common objective to find Baybal's daughter.

#### SCARECROW (2020)

This is a poignant drama about a person carrying a heavy burden of loneliness. She is a healer and a hermit. Adults hate her, and children are afraid of her, but if someone has suffered a great misfortune, she is the only chance for salvation. Her gift is her curse, but the dark mystery hidden in the past makes her help people again and again.

- 1 High-quality and affordable education:** NEFU offers a wide range of higher education programs supported by competent research and teaching staff.
- 2 Attractive majors:** NEFU offers programs in a variety of fields, including engineering, medicine, art, humanities, and others.
- 3 Effective adaptation and socialization system** promotes inter-ethnic communication between students from all over the world.
- 4 Large scholarships** (for state-funded students).
- 5 Opportunities to work** while studying for students at all levels of education.
- 6 Career opportunities:** NEFU cooperates with the top companies and organizations providing students with ample career prospects.
- 7 Student life:** a variety of student associations, events and clubs create a dynamic and interesting student life.
- 8 A comfortable campus** with well-developed infrastructure is a united community of students from all over the world. Students have access to modern libraries, sports facilities, and cultural events.
- 9 International relations:** the university maintains active cooperation with universities and organizations worldwide, opening its doors for international opportunities.
- 10 Research in the Arctic:** the university is the leader in research on the Arctic nature and climate, providing unique opportunities for studying this subject.

# INSTITUTE OF SPORTS AND PHYSICAL EDUCATION

The language of instruction is Russian 

Every year the Institute of Sports and Physical Education attracts a great number of applicants from Mongolia. Such popularity is not accidental and deserves a special mention.

In 2021, Battogtokh Bat-Ulzii completed his Master's degree at NEFU with the thesis on the topic "Comparative Analysis of Freestyle Wrestling Development in Mongolia and Yakutia." After his thesis defense, the young man went back to his home country where he is working in his degree field now.

Battogtokh Bat-Ulzii has already organized two joint freestyle wrestling training sessions for top-level athletes from Yakutia and Mongolia and continues cooperation with the institute and the sports training center of the Republic of Sakha (Yakutia).

Today two Mongolian female athletes, who have entered NEFU on the advice of Battogtokh Bat-Ulzii, are studying at the Department of Theory and Methodology of Sport, Sports Kinesiology, Recreational and Adapted Physical Education. They do freestyle wrestling and have a promising future in sport.

Mongolian athletes demonstrate a good level of fitness. They show good achievements in mas wrestling and have a solid background. This is evident from the results of training sessions held at NEFU.

Modern sports facilities and equipment give the opportunity to provide high-quality training in numerous sports areas and promote the development of sport in the republic. The institute has become an advanced forge for training competitive athletes. Every year, students achieve convincing competitive results in various sports, not only in the republic but also in the Russian Far East, at Russian and world student championships.

# Mongolia – Yakutia Sports Bridge

As the evidence from practice shows, international education experience becomes a tangible competitive advantage on our career path. Immersion in a new environment, studying a foreign language, acquiring a wide range of skills, gaining relevant knowledge, a high level of adaptability to the changing conditions – all of this as a whole develops a competent specialist and top-notch professional. The editorial team of the magazine regularly familiarizes its readers with new heroes, successful graduates of Russian universities. Our today's guest is Batbaatar Erdenevaanchig, a graduate of the Institute of Sports and Physical Education of North-Eastern Federal University, the founder of the Mas-Wrestling Federation in Mongolia.

The experience of studying in Yakutia in general and at North-Eastern Federal University in particular is a personal and professional experience which is definitely positive and important to me. Here I would mention a few essential points for those who just think about the opportunity to come to study in Yakutia.

**Firstly**, similar climatic conditions. Mongolia is a country with a strongly continental and rather severe climate. We have very cold winters, and this is the reason why I did not have any particular difficulties with adaptation. I adjusted myself very quickly.

**Secondly**, well-developed infrastructure. The fascinating campus, new dormitories, and everything necessary for studies and workouts make our stay here comfortable.

**Thirdly**, sweeping changes such as moving to a foreign country always mean the expansion of the circle of contacts, new friends and acquaintances. Yakuts are kind-hearted and welcoming, that's why interaction with new people also turned out to be easy and pleasant. I am still in contact with some of my fellow students. Besides, the support provided by advisors and teachers to their students is invaluable. Here I cannot but say the words of gratitude to my great teachers from the Institute of Sports and Physical Education of NEFU and, especially, to my advisor – Iosif Portnyagin.

**And, last but not least, fourthly**, high-quality education, well-organized educational process allowing students to combine their studies, workouts and other extracurricular activities. This was of particular importance to me as a sports enthusiast. NEFU has everything you need, and I managed to complete my Master's and PhD degrees.

I should say that I had already had an experience of studying at one of the Yakut universities before I embarked on my Master's degree at NEFU. I earned a Bachelor's degree from Churapcha State Institute of Physical Culture and Sports. It was while studying there that I found out about NEFU and the opportunity to continue my studies by pursuing a Master's degree.

At Churapcha State Institute of Physical Culture and Sports, I did freestyle wrestling. When I joined NEFU, I started doing mas wrestling, sambo, judo, and other sports.

**My achievement was third place at the Mas-Wrestling World Championships**, and it motivated me to create the Mas Wrestling Federation in Mongolia. Since then, I have been promoting Yakut ethnic sports in my country. Every year I come to Yakutia to take part in competitions.

**Batbaatar Erdenevaanchig, Mongolia.**  
**The graduate of the Institute of Sports and Physical Education of North-Eastern Federal University, Director of the Center for Sports Medicine and Research of Mongolia**

## ARCTIC STATE INSTITUTE OF CULTURE AND ARTS

### приоритет2030<sup>+</sup>

лидерами становятся

In 2022, ASICA was included in the state support program “Priority 2030. Far East,” which allows it to develop dynamically, introduce new study programs, and upgrade its facilities and resources.

📍 Yakutsk, Republic of Sakha (Yakutia), Russia

## **ADMISSION**

International applicants can apply to ASICA in two ways:

### **1 Firstly, you can study for free!**

For this purpose, you must apply for admission through the official portal of Rossotrudnichestvo – [education-in-russia.com](http://education-in-russia.com) in autumn (the dates can change) and get a state-funded place at the institute.

Under the auspices of Rossotrudnichestvo, ASICA provides state-funded places for full-time students in the following fields of study:

- Applied Informatics
- Folk Art Culture (majors: Movie-, Photo- and Video Creativity Studio Direction; Ethnocultural Center Management; Amateur Dance Company Direction)
- Sociocultural Activity
- Library and Information Activity
- Instrumental Performance
- Decorative and Applied Arts and Folk Crafts
- Acting
- Painting
- Graphics

### **State-funded students are sure to get:**

- Scholarship
- Accommodation in the comfortable modern dormitory

### **2 Secondly, you can apply directly to ASICA and enroll in a fee-paying place.**

Pay close attention to the announcements on the Rossotrudnichestvo portal, participate in the events held by the Center of Russian Culture in Mongolia, and visit the ASICA website. Do not worry if you see the requirements for competitive selection or additional creativity exams. Try to keep in touch during the admission period not to miss the call from the Admission Office staff member.

### **ADMISSION OFFICE**

✉ [priem2024@agiki.ru](mailto:priem2024@agiki.ru)  
☎ +7 4112 42-11-67

### **Nota bene!**

For some creative fields of study, ASICA holds online entrance exams. The exams are held after your application appears on the Rossotrudnichestvo portal in the ASICA personal account. For this purpose, the Admission Office staff will contact you at the phone number specified in your application.

## **STUDIES**

ASICA trains specialists in music, art, socio-cultural and theater fields of study.

### **In 2023, ASICA launches two new higher education programs:**

- the Folk Art Culture program (major: Movie-, Photo- and Video Creativity Studio Direction)
- the Master's program in Library and Information Activity (major: Theory and Methodology of Library Activity Cognitology in the Digital Environment)

### **The institute also enrolls students in the advanced educational programs:**

- Spatial Design
- Digital Graphic Design
- Fashion and Textile
- Jewelry Design

The institute has two laboratories studying the deep layers of the cultural code of the peoples of the North. To provide scientific support for the jewelry design track, the institute is setting up the Jewelry Design Laboratory.

## DESIGN

### Full-time study

Rossotrudnichestvo holds competitive selection in cooperation with the ministries of education of the countries of residence. Follow the announcements of Rossotrudnichestvo, the Center of Russian Culture in Mongolia, and the Ministry of Education and Science of Mongolia as early as the autumn of the year preceding the admission year.

Students from Mongolia Nyamzhav Orgilbayar (the third-year student) and Uyanga Bathuu (the second-year student) are majoring in Amateur Dance Company Direction. Teacher at the Department of Folk Art Culture of ASICA.

## SCHOLARSHIPS

International state-funded students at ASICA who entered the institute under the auspices of Rossotrudnichestvo get state academic scholarships from the RF budget throughout the entire study period regardless of their academic progress. The state scholarship is 7,000–8,500 RUB.

## ADAPTATION

To adapt international students, the institute holds mass cultural events familiarizing international students with the history and culture of Yakutia, themed concerts, discussions, movie screenings, sports and entertainment events, forums, relays, quests, creative contests and festivals. The institute students take an active part in student organizations and volunteering movements.

## CHURAPCHA STATE INSTITUTE OF PHYSICAL CULTURE AND SPORTS

Founded in 1999

9

fields of study

9

educational programs

700+

students

Churapcha State Institute of Physical Culture and Sports is the only Russian institute located in the rural area in the extreme permafrost zone. The institute trains and retrains teaching staff for physical education and sport. It trains Bachelors, Masters, coaches, and physical education teachers.

The institute enrolls students from Yakutia, the Republic of Tyva, Belarus, Uzbekistan, and Mongolia.

**More than 95% of students are employed** after graduation. The institute develops both Olympic and non-Olympic sports.

### Tuition fees per year

Bachelor's programs 140,000 RUB

Master's programs 160,000 RUB

[new.chgfkis.ru](http://new.chgfkis.ru)

**OLYMPIC SPORTS**

- Freestyle wrestling
- Boxing
- Archery
- Tennis
- Rifle and pistol shooting
- Track and field

**NON-OLYMPIC SPORTS**

- Khapsagay
- Mas wrestling
- Ethnic jumps
- Northern all-round

**LEARNING RUSSIAN**

The Russian language is difficult for international students to learn. It has a lot of pitfalls that often become a serious obstacle for free communication. These include variation, plenty of synonyms, and lexical and stylistic diversity.

Reading books will help you cope with most lexical and grammatical problems, while interaction without regard to mistakes will help you improve your oral communication skills and feel more confident.

**Churapcha State Institute of Physical Culture and Sports** unites the most active and sports-oriented young people to train highly qualified specialists in physical education and sport.

**1,000 students – the best students, enthusiasts, volunteers, and sports stars – all of these are US!**

### **ARRIVAL AND ADAPTATION**

The institute helps and supports all international students. Each student is assigned an advisor.

All students are accommodated in the dormitory.

### **INFRASTRUCTURE**

- Dormitories
- Educational and laboratory building
- Stadium with a shooting range
- Indoor track facility
- Wrestling hall
- Facilities and resources meeting modern standards
- Educational and training premises are fitted with state-of-the-art technology equipment and facilities

International Freestyle Wrestling Grand Prix Tournament "Ivan Yarygin – 2023"

## OUTSTANDING ALUMNI

**Vitaliy Koryakin**

Master of Sports of the Russian Federation in freestyle wrestling, Master of Sports of International Class of Tajikistan, Russian champion among students (2005). Participated in the 29th Olympic Games in Beijing (2008). The champion and medalist of numerous international freestyle wrestling tournaments.

**Nikolay Ayanitov (Noev)**

Master of Sports of the Russian Federation in freestyle wrestling. Russian Junior Champion (2006). Participated in the 30th Olympic Games in London, Great Britain (2012). The medalist of the Ivan Varygin International Grand Prix Tournament (2014), champion and medalist of numerous international and Russian competitions.

**Sardana Trofimova**

Female athlete, Master of Sports of International Class (track and field), five-time Russian marathon champion. She set her personal best in a marathon in 2014 – 2 hours 24 minutes 28 seconds.

**Vasily Egorov**

Russian amateur boxer, a native of Yakutia. Two-time European champion (2015, 2017) and the world championship silver medalist (2015) in the weight category of up to 49 kg. Five-time Russian champion. The world champion among students (2014). Participated in the 31st Olympic Games in Rio de Janeiro (2016).

## HIGHER SCHOOL OF MUSIC OF THE REPUBLIC OF SAKHA (YAKUTIA)

Founded in 1992

8

departments

102

students

2

students from South Korea

Higher School of Music (HSM) is the only educational institution in the Russian Far East with a multilevel system of professional music education.

### WHY HSM?

- The best traditions of Russian music pedagogy
- The campus is located in the environmentally clean zone of the scenic natural area. Studying and living on the campus promotes the creation and development of the creative atmosphere
- Master classes from Professors of the top Russian music universities
- High HSM graduate employment rate

Starting from the first days of their studies, international students are engaged in concert and educational activities. They are members of on-stage performance groups of the philharmonic for children and young people.

### INFRASTRUCTURE

- The modern campus located in the historic center of Irkutsk
- 4 comfortable dormitories
- The Khudozhestvennyy movie theater and culture and leisure center
- 12 scientific journals
- BSU Media Center – the project including student TV and radio with 24/7 airtime
- The sports center

The university is located in close proximity to the World Heritage Site – Lake Baikal. The campus is located in the historic center of Irkutsk – within walking distance of the main sights.

### RESEARCH AREAS

- Government revenue generation issues
- Macroeconomic forecasting and management
- Environmental economics and natural resource management
- Criminal proceedings, forensic science and forensic examination

Students having achievements in academic, sport, public and research activities have the opportunity to get various university and non-governmental **scholarships**. Such incentives include the **Yumzhagiyn Tsendenbal scholarship** established in 2019.

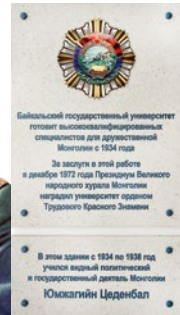

## CENTER FOR MONGOLIAN STUDIES

### The center trains specialists in Mongolian studies.

At the moment, the Center is implementing the grant from the Russian Science Foundation on the topic **“Mongolian Studies in Russia and Worldwide: Ethnic Schools, Concepts, Personalia.”** The scientific supervisor of the project on the part of Mongolia is Zhamsrangiy Urangua, Emeritus Professor at National University of Mongolia.

A three-volume issue dedicated to the history and current state of Mongolian studies worldwide is being prepared for the first time ever in Mongolian studies in Russia and worldwide.

The implementation of such projects with the participation of the university researchers is the recognition of the international academic standing of Baikal State University in the field of Mongolian studies and allows Irkutsk to secure the role of the leading center for Mongolian studies worldwide.

Baikal State University is the pioneer in training professional personnel for Mongolia.

For over 90 years, BSU has trained a total of more than 2,000 top-notch specialists as well as PhD and doctoral students.

**Yumzhagiyn Tsendenbal, one of the first BSU graduates (1938), was Secretary General of the Mongolian People's Revolutionary Party and Marshal of the Mongolian People's Republic.**

BSU was awarded the Order of the Red Banner of Labor in 1972 and the Gold Star of Yumzhagiyn Tsendenbal in 2007 for the highest excellence in strengthening friendly relations between the countries and training Mongolian leaders.

“

### **Gombozhavyn Zandanshatar, Chairman of the Great State Khural of Mongolia, BSU graduate of 1992**

Graduates of Baikal State University are a primary resource of Russia's development. They are in high demand and hold leading positions in many sectors. Over the years, ten BSU graduates have been the ministers of finance of Mongolia, and five graduates have been the Central Bank directors. Historically, Baikal State University has been a link in the development of Russian-Mongolian cooperation and friendship.

BSU is the center of your life

Ulan-Ude, Republic of Buryatia, Russia

## POPULAR STUDY PROGRAMS

Students pursuing engineering fields of study undertake work placements at real enterprises-the university partners where students learn the subtle details of their profession and often get a job as early as this stage. Most graduating Bachelors are fully-fledged specialists in their field already!

Many graduates pursue Master's degrees combining the learning process with their work activities. This is facilitated by a flexible study schedule.

### MATHEMATICAL SUPPORT AND ADMINISTRATION OF INFORMATION SYSTEMS

#### Information Systems and Databases major

The program graduates have fundamental mathematics education. The major subjects are taught by the region's leading IT specialists.

### LINGUISTICS. TRANSLATION AND TRANSLATION STUDIES

The BSU Institute of Philology, Foreign Languages and Mass Communications is known far beyond the university. It trains professional translators and interpreters!

### LAW

BSU lawyers are rightfully considered the region's best!

### ORIENTAL AND AFRICAN STUDIES

#### The study program includes:

- Oriental Languages (Chinese, Korean, Japanese, and Mongolian) and Literature
- History of Asian and African Countries
- Socio-Economic Development of Asian and African Countries
- Foreign Studies
- Tourism

The Institute of Oriental Studies offers networking programs and exchange programs. Students have the opportunity not only to visit the target-language country but also to undertake study placements there and then embark on a Master's degree, if desired.

### GENERAL MEDICINE

Students undertake internships at the medical institutions in the city of Ulan-Ude where they acquire skills and abilities required for such a demanding and important profession under the supervision of experienced tutors.

# APPLICANT GUIDE

1

Choose a field of study on the university website in the For Applicants section.

2

Submit your admission documents in one of the three ways:

- In person, to the address: 📍 Smolina Street, 24A, Room 0105, Ulan-Ude, Republic of Buryatia
- Via the State Services portal in the Children. Education section
- In Applicant's Personal Account

## OLYMPIADS

- **The Baikal Prospect Olympiad** for 9-11th graders

The winners and prize-winners of the final stage get bonus points for admission and the grant covering a 30% discount on the tuition fee.

- **The Mathematics Olympiad** for applicants of natural sciences faculties

The winners and prize-winners get valuable prizes.

## ADMISSION

☎ +7 3012 22-77-22 hotline  
5:00 – 12:00 MSK, multichannel

### International Relations Department

☎ +7 3012 21-18-64  
✉ [intdep@bsu.ru](mailto:intdep@bsu.ru)

### Admission Office

✉ [udp@bsu.ru](mailto:udp@bsu.ru)

### **UNIQUE UNIVERSITY LOCATION**

The university is located in the sunny capital of the Republic of Buryatia – Ulan-Ude, two hours' drive from Lake Baikal, one of the world's oldest water bodies, which contains the fifth part of the world's freshwater resources.

Both Baikal and the coastal areas are notable for their unmatched flora and fauna, which makes these places really unique and always attractive to scientific minds and numerous travel enthusiasts and real adventure seekers.

### **ACCOMMODATION**

The university provides accommodation for all full-time students in the student dormitory.

**Fee 850 – 3,100 RUB per month**

**Average expenses:**

- One-room apartment rental cost – 15,000 RUB and more per month
- Lunch in a canteen – 100 RUB and more
- Lunch in a café – 200 RUB and more

### **ADVANTAGES**

- Research and innovation activities, development of applied research
- Modern educational infrastructure
- The extracurricular activity system includes plenty of sports, creative, and scientific student associations

In 2024, Ulan-Ude will start the first stage of construction of the interuniversity campus, the scientific center for education development where international students, mainly from Mongolia 🇲🇶 and China 🇨🇳, are supposed to study Russian.

**The campus project includes:**

- Educational and laboratories buildings
- Dormitories offering 2,500 places

National cuisines

### **ARRIVAL AND ADAPTATION**

Buryat State University has the system of advisors and volunteers' assistance in solving various everyday problems.

The staff members of the International Relations Department not only meet new students at the airport or railway station but also provide assistance in contacting the Admission Office and banks, checking in at the dormitory, undergoing medical examination as well as in contacting the migration service.

### **RUSSIAN-MONGOLIAN COOPERATION**

The Buryatia Republic Government Grant covers the tuition fees for Mongolian students pursuing the preparatory educational program in Russian as a Foreign Language. The program graduates will be able to work as Russian language and literature teachers in Mongolia.

**Apply for the grant**

Documents are submitted and entrance exams are held **from June 20 till August 19**.

**Entrance exams are held offline and online:**

- **for Bachelor's programs:** exams in three subjects
- **for Master's programs:** test in a corresponding field of study
- **for PhD programs:** exam in a special subject

**Student can pursue Bachelor's, Master's, PhD programs:**

- on a contract (fee-paying) basis
- within the Russian Government quota

## APPLICANT'S GUIDE

- 1 Prepare and send your document package to ✉ [priem@vgatu.ru](mailto:priem@vgatu.ru)
  - international passport and its notarized translation
  - academic credentials and transcripts legalized in accordance with the established procedure and notarized translation
  - foreign education recognition certificate (if necessary)
  - 3×4 cm photo
  - motivation letter (for Master's/PhD programs)
  - list of publications (for PhD programs)
- 2 Pass entrance exams
- 3 Get an invitation from the university and apply for a student visa to study in Russia
- 4 Inform us about your arrival date

## ADMISSION OFFICE

Head  
**Ekaterina Poturaeva**  
 ✉ [priem@vgatu.ru](mailto:priem@vgatu.ru)

## PREPARATORY DEPARTMENT

The program "Preparation of Foreign Citizens and Stateless Persons for Mastering Russian-taught Professional Educational Programs."

### Tuition fee:

**100,000 – 125,000 RUB per year**

### The study program includes three levels:

elementary, basic, and advanced levels. Besides, the course attendees are offered three elective courses required for admission to the universities in the Russian Federation.

The course attendees go on educational and themed museum and sightseeing tours in the city of Kirov and the region. Since 2020, the university has been implementing the **Summer School of Student Leaders** program associated with the International Youth Day with various entertainment and educational activities.

## TIPS FOR LEARNING RUSSIAN

The most difficult thing for beginners is **written speech**.

- Place emphasis on phonetics and spelling as writing plays an important supportive role in teaching reading, speaking, grammar, vocabulary
- Learn to record oral speech:
  - Read in Russian
  - Listen to Russian music
  - Watch Russian movies
- It is important that you start speaking Russian from the very beginning of the course. Don't be afraid to make mistakes: everyone makes them!
- Your teacher will appreciate your efforts to speak Russian and will try to understand you
- Come to Russia to practice Russian

**It is important that you don't stop improving your writing and speaking skills at all levels of learning Russian.**

## **ANIMAL SCIENCE**

### **Bachelor's program**

#### **Major – Livestock Production Technology**

The program trains Bachelors of Animal Science in the field of livestock production technology. The program graduates have the knowledge needed to use modern methods and technologies in animal feeding and breeding and livestock product processing technology.

#### **Professional activities:**

- engineering and manufacturing
- organization and management
- research

**Students** undertake internships at advanced farms in the Kirov Region and research institutions.

While pursuing the educational program, students learn to draw up diets using computer programs, plan and manage manufacturing processes in cattle breeding using programs such as Selex, Fias, and Hybrid in particular.

**Graduates** work at industrial farms and estates manufacturing milk and meat, stud farms, pedigree breeding units, hybrid breeding centers, livestock product processing enterprises, feed and feed additive manufacturers.

**Tuition fee per year: 140,000 RUB**

**Language of instruction:** Russian 

## **ARRIVAL AND ADAPTATION**

The university staff members meet and accompany each international applicant. They provide support and assistance in getting residence registration, health insurance and dormitory accommodation.

VSATU focuses extensively on the youth policy which is mainly aimed not only at training highly qualified and competitive personnel but also at developing a socially responsible and creative individual leading a healthy lifestyle. All international students have ample opportunities to carry out research, creative and leisure activities such as implementation of scientific projects and participation in conferences at different levels, sports activity, volunteering, staging dramatic and dance performances at the university.

**All full-time international students in good academic standing get a scholarship in the amount of 6,000 – 10,000 RUB per month. They have the opportunity to get an increased scholarship for active participation in international, cultural, sports events held by the university.**

## STATE UNIVERSITY OF LAND USE PLANNING

Founded in 1779

8

faculties

27

departments

600+

state-funded places

The State University of Land Use Planning (SULUP) is one of the oldest universities in Russia. The university trains personnel for land use planning and cadastres, applied geodesy, environmental management, architecture, law, management, and other fields of study.

The university is an active member of a number of international organizations such as the International Federation of Surveyors (FIG), the International Society for Photogrammetry and Remote Sensing (ISPRS), and the Food and Agriculture Organization of the United Nations (FAO).

The tuition fees are available  
on the website

**Forms of study:** full-time, part-time, and extramural.

**Degree levels:** Bachelor's, Master's, PhD, and doctoral degrees.

📍 Moscow, Russia

## ADVANTAGES

- A degree from the leading agro-industrial Russian university
- Location in the center of Moscow
- Educational internships and industrial work placements with subsequent employment
- The opportunity to be accommodated in the SULUP dormitories

**Around 20% of all foreign citizens, studying land use planning, cadastres, and land monitoring in Russia, are the SULUP students.**

## ADMISSION

Students, who are citizens of the republics of  Belarus,  Kazakhstan,  Kyrgyzstan, and  Tajikistan, can be funded from the Russian budget to pursue all study programs at the University. Citizens of other states can study on a contract basis.

**The list of required documents is available on the university website.**

- Applied Geodesy
- Ecology and Environmental Management
- Technosphere Safety
- Geodesy and Remote Sensing
- Architecture
- Design
- Landscape Architecture
- Law

## PREPARATORY DEPARTMENT

The department's main purpose is to prepare future specialists, coming to Russia from abroad, for main educational programs.

### Study areas:

- Medicine and biology
- Engineering and technology
- Economics

**Duration** – 1 academic year (2 semesters)

Foreign citizens are admitted all year round. The groups consisting of 14 attendees are made up when the field-oriented group is formed.

The bulk of educational work at the Preparatory Department is done by highly qualified RFL teachers with many years of working experience. In their work, the teachers use up-to-date language teaching methods and thoroughly choose the course content and techniques of its presentation depending on the study period.

At the end of the academic year, attendees take Russian language and major subject exams. When students successfully pass their exams, they get a pre-university training course completion certificate. This provides them with the opportunity to successfully continue their studies at the University or any other Russian university in the field they chose.

Since 1957, the University has trained and turned out around 100 Mongolian specialists. All SULUP graduates are senior government officials and heads of various entities in Mongolia.

“

**Altantan Khonaev, Mongolia. The applicant of the Faculty of Architecture**

I am 18 years old, and I have come from Mongolia to get an education at SULUP. Now I am taking Russian language courses. I want to become an architect.

I chose the State University of Land Use Planning because this university has a rich history and long-standing traditions and is located in the center of Moscow. My dormitory is quiet, comfortable, and light. The people are very kind to me.

**ACCOMMODATION**

International attendees are accommodated in the dormitory. The dormitory is a 12-story panel building with recessed balconies. The lodging units with a total area of 40 m<sup>2</sup> include two newly renovated rooms, for 4 and 2 people, respectively.

**Janlavyn Narantsatsralt (1957–2007). The graduate of the State University of Land Use Planning whose bust is installed at the Alley of Fame of the University**

Janlavyn Narantsatsralt is a prominent Mongolian politician, the 20th Prime Minister of Mongolia (1998–1999), Mayor of Ulaanbaatar (1996–1998), Professor, Doctor of Sciences.

**Batdelger Bulgantamir, Mongolia.  
Second-year Bachelor's student  
majoring in Technological Machines  
and Equipment**

At STANKIN university, you can pursue a lot of various engineering degrees. If you don't speak Russian at all, that's not such a big deal, we have an intensive one-year Russian language course for international students.

Our university employs top-ranking specialists. Our teachers help us study the Russian language and diverse culture and history of Russia.

I got acquainted with students from all over the world. I really like studying at STANKIN University.

**Maybat Oyumaa, Mongolia.  
Second-year Bachelor's student  
majoring in Software Engineering**

I've chosen MSUT "STANKIN" because this university is a leading university for engineering.

It provides us with solid background, starting from the Russian language. Our teachers help us find our purpose in life.

Thanks to the university and my efforts, I have a lot of new opportunities.

**Nyamdorzh Khadzhimaa, Mongolia.  
Second-year Master's student majoring  
in Human Resources Management**

I've chosen STANKIN because it holds leading positions among Moscow universities.

I studied Russian this year. And I am very grateful to our highly qualified teachers.

A lot of my friends who join me in perfecting our knowledge are studying here.

## POPULAR FIELDS OF STUDY

- Oil and Gas Engineering
- Chemical Engineering
- Economics
- Management
- Informatics and Computer Engineering

International students on an internship

A tour around the university's oil and gas facilities

Self-instruction

## OIL AND GAS ENGINEERING

### Bachelor's programs

- Drilling of Oil and Gas Wells (full-time)
- Operation and Maintenance of Oil Production Facilities (full-time)
- Operation and Maintenance of Gas and Gas Condensate Production Facilities and Underground Storages (full-time, part-time)
- Construction and Repair of Gas and Oil Pipelines and Storage Facilities (full-time, part-time)
- Operation and Maintenance of Transport and Storage Facilities for Oil, Gas and Refined Products (full-time, part-time)

- ✓ Experimental work at the department laboratories
- ✓ Work on onshore and offshore drilling simulators

### Career prospects

- Drilling supervisor, process engineer
- Manager
- Assistant driller, driller, well service operator, oil and gas production operator, operator of booster and cluster pump stations, water and oil pretreatment plants
- Production submanager at oil and gas companies
- Positions at design, engineering and research organizations

**Most international students are sought after by oil and gas companies all over the world.**

## ARRIVAL

Visitors are taken from the airport to the city by

 **Aeroexpress trains** from 470 RUB

 **Taxi** – 1,500 RUB on average

Metro is the fastest and the most comfortable transport in the city. The fare is 50–75 RUB per trip.

It is easy to get to the university, so students arriving in Moscow are met at the university at the address: **65, Leninsky Prospekt, bld. 1, Moscow**. The Akademicheskaya metro station.

Upon arrival, foreign citizens receive comprehensive visa support, but they must get health insurance themselves.

All foreign students are accommodated in the university campus – the comfortable dormitories. Each room accommodates 2-3 persons. The accommodation fee is around 20,000 RUB per year.

**The Week of National Cultures** is an annual event aiming to improve the relationship between the university's ethnic groups. The program includes a photo show of the unique sights of various nations, a quest game, the Guess a Movie contest, an exhibition of national costumes, national cuisines, and a gala concert.

## CAMPUS

- 5 dormitory buildings, over 4,000 places
- A gym, a skiing center, a football field with workout areas, basketball and volleyball courts
- Dance, instrumental, drama studios, a chess club, a movie club, an art studio and a recording studio

### INTERNATIONAL FRIENDSHIP CLUB

The social youth organization familiarizes students with the culture and creativity of various peoples in Russia and foreign countries. The Club works with 22 fellow countrymen associations established at the university. At the beginning of an academic year, they find "their" guys on the list of enrollees and help first-year students adapt to the university and Russia.

# SAINT PETERSBURG STATE UNIVERSITY OF VETERINARY MEDICINE

## STRUCTURE

Under the guidance of scientists, the university successfully develops 14 scientific schools, seven of which are listed on the register of leading scientific schools in Russia.

Many years of research and academic work have allowed the university to create eight museums exhibiting excellent visual aids for extending and consolidating students' theoretical knowledge.

The museums present the anatomical material, from the biggest to the smallest fauna species.

**One of the eight museums, the Anatomic Pathology Museum, is one of the leading museums in the world and is under protection of UNESCO.**

The structural subdivisions of the university include the fundamental library with the collections comprising 234,000 items.

Students acquire their practical professional skills at university clinics such as surgery, therapeutics, obstetrics, gynecology clinics.

## INTERNATIONAL ACADEMIC COOPERATION DEPARTMENT

The department specialists will answer any questions about admission, studies, the Preparatory Department's work. You can get personal consultations.

+7 905 814-01-20

+7 812 388-93-76

i@spbguvm.ru

## PREPARATORY DEPARTMENT

It is intended for foreign citizens who do not speak Russian or have a poor command of it.

### Admission requirements:

- complete secondary general education confirmed by the corresponding document (certificate, diploma)
- the desire to learn Russian
- the desire to pursue a Russian-taught degree program at SPSUVM in the future

### Students pursue supplementary educational programs in Medicine and Biology:

- Russian language
- Chemistry
- Biology
- Physics

The department offers only full-time studies. Students are accommodated in the dormitory during the period of study.

### Application dates

- May 1 – August 31, 2023 – for participants who need a visa to study in the Russian Federation
- May 1 – September 30, 2023 – for participants who may stay and study in the Russian Federation without a visa

**Duration** – 10 months  
(October 9, 2023 – August 9, 2024)

**Tuition fee** – **140,000 RUB**

## Specialist's and Master's programs

### VETERINARY MEDICINE

Today Saint Petersburg State University of Veterinary Medicine carries out its historic mission to train veterinarians for almost all regions of Russia and for other countries. In Northwest Russia, the university is a leading educational institution to train veterinarians.

Around 3,000 students are studying at the faculty.

#### Modes of study

- **in Specialist's programs:**  
full-time – 5 years, part-time – 5.5 years, extramural – 6 years
- **in Master's programs:**  
full-time – 2 years

## Bachelor's and Master's programs

### VETERINARY AND SANITARY INSPECTION

The program has been training specialists in veterinary inspection, organization and management of veterinary activities since 2003. It is these specialists who are responsible for safety and quality of products of animal and plant origin.

#### Modes of study

- **in Bachelor's programs:**  
full-time – 4 years, part-time and extramural – 5 years
- **in Master's programs:**  
full-time – 2 years

## Bachelor's and Master's programs

### BIOLOGY

Saint Petersburg State University of Veterinary Medicine launched the Bioecology program in July 2010. Graduates study and assess the state of animal and plant components of ecosystems and biosphere, protect these sites, develop regulatory documents, do field work and laboratory research.

#### Modes of study

- **in Bachelor's programs:**  
full-time – 4 years
- **in Master's programs:**  
full-time – 2 years

## Bachelor's and Master's programs

### AQUATIC BIOLOGICAL RESOURCES AND AQUACULTURE

The first students were enrolled in 2010. The subjects of graduates' professional activities in the future are ecosystems of natural and artificial water reservoirs, technological processes of artificial reproduction and cultivation of hydrobionts, equipment for aquaculture enterprises.

#### Modes of study

- **in Bachelor's programs:**  
full-time – 4 years
- **in Master's programs:**  
full-time – 2 years

## **SCIENCE**

The university research is coordinated by the scientific department which comprises the research diagnostic and treatment innovation center.

The center comprises **the small domestic animals clinic**. It conducts research, tests modern methods, develops cutting-edge areas in veterinary medicine.

The center also comprises the **laboratories**, including the laboratory for studying brucellosis, tuberculosis and campylobacteriosis, the laboratory for studying protozoiasis, and the clinical biochemistry laboratory.

Saint Petersburg State University of Veterinary Medicine is a member of the European Association of Establishments for Veterinary Education (EAEVE).

**European Association of Establishments for Veterinary Education** is Europe's largest non-governmental association of higher institutions for veterinary medicine that coordinates the work and compliance with the veterinary education standards in Europe.

## **WHY CHOOSE SPSUVM**

- The centuries-old professional knowledge base
- High-quality training of specialists
- Affordable tuition fees
- The opportunity to study in one of the most beautiful cities in Russia

## **ADAPTATION**

Student life is not only about studies. The university has the active Student Council and the trade union committee that organize, in cooperation with the university administration, extracurricular activities for students, including **tours, visits to theaters to see well-known performances and visits to the most interesting museums in Saint Petersburg**, and other activities.

The university students take an active part in sports, choreography, theater and music competitions.

**All students from other cities are accommodated in the dormitory.**

**The university enrolls students not only from different regions of Russia, but also from the CIS countries and other foreign countries such as Azerbaijan, Belarus, Greece, Georgia, Israel, India, Kazakhstan, Colombia, Kyrgyzstan, Latvia, Lebanon, Lithuania, Morocco, Moldova, Tajikistan, Uzbekistan, Ukraine, Finland, Estonia**

# INTERNATIONAL PROGRAMS

 in English

## BACHELOR'S PROGRAMS

- International Business
- International Trade
- Digital Enterprise Economics

### BENEFITS

- Study programs fully taught in English in international groups
- Studying at foreign partner universities
- Scholarship opportunities
- SPbPU teachers from the world's top-ranked universities
- Employment, R&D and business internships at 200 leading partner companies
- World-class research laboratories

25+

English-taught programs 

High-quality and elite professional education for every student is the main priority of SPbPU.

## MASTER'S PROGRAMS

### Engineering

- Civil Engineering
- Environmental Engineering in Urban Construction
- Emergency Preparedness and Response
- Power Plant Engineering
- Electrical Engineering
- Nuclear Power Engineering
- New Materials and Additive Technologies
- Laser and Fiber Optic Systems
- Microelectronics of Telecommunication Systems
- Mechanics and Mathematical Modeling
- Intelligent Systems

### Natural Sciences

- Smart Nanostructures and Condensed Matter Physics
- Molecular and Cellular Biomedical Technologies
- Advances and Applications in Plasma Physics

### Business, Economics and Management

- Business Engineering
- Technology Leadership and Entrepreneurship
- International Trade Relations
- International Business Development
- Quantitative Finance

### Humanities

- Region Studies: Russian Federation
- Digital Linguistics
- Applied Linguistics and TESOL
- Advertising and PR in International Communications

## UNIQUE UNIVERSITY CAMPUS AND ACCOMMODATION

170+

educational and  
research buildings

18

dormitories

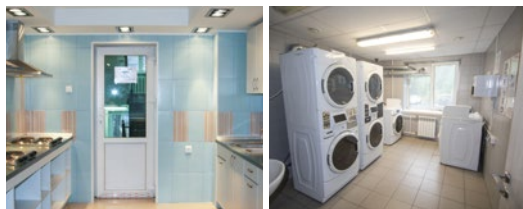

4

metro stations  
within walking  
distance

- All international SPbPU students live in the international part of the campus
- The dormitories are located near the educational buildings and the sports center
- Video surveillance systems in the buildings and electronic access cards ensure the security of all students
- Full-time students are accommodated in the block-type dormitory with 2-3-person rooms. Each block has two living rooms and an ensuite bathroom. Each dormitory comprises modern kitchens, laundry rooms, study rooms, and a leisure area

### Accommodation fee per year:

**5,000 – 7,000 RUB**, depending on the comfort level

## 5 STEPS TO APPLY TO SPBPU

- 1 Fill in the Application Form on the website
- 2 Take **online** entrance exams
- 3 Sign the applications and the enrollment agreement
- 4 Pay your tuition fees **online**
- 5 Receive an extract from the enrollment order

**Congratulations! Now you are officially enrolled at SPbPU!**

“

### Burentogtokh Bolormaa, Mongolia

New technologies – that's great, and that's exactly why I am studying Nanoelectronics at SPbPU. I wanted to go to Russia because this is a very big country with rich culture. I chose the city of Saint Petersburg because of the weather. I found such climate most agreeable. People here are very open-minded! Polytech had the very same major I wanted to pursue. The university has the best teachers and a lot of state-of-the-art laboratories and equipment. In my free time, I go to festivals such as "Golden Autumn" where I cheer my fellow citizens. Despite science being my vocation, I want to help people as a volunteer. During my years at SPbPU I have made a lot of friends not only from Russia but also from Sri Lanka, China, and Estonia.

# SOUTH URAL STATE UNIVERSITY (NATIONAL RESEARCH UNIVERSITY)

Founded in 1943

250+

Bachelor's and Specialist's programs

150

Master's programs

82

PhD programs

## ADMISSION

The languages of instruction are  **Russian** and  **English**

To pursue Russian-taught programs, international students can take a one-year preparatory course throughout the year to master Russian and special subjects in Russian as part of the SUSU Foundation Program.

## FOUNDATION PROGRAM FOR INTERNATIONAL STUDENTS

The course of Russian as a Foreign Language and major disciplines

Starting level is A0

### Study areas

- Engineering sciences – engineering, information technology, car manufacturing, civil engineering, architecture
- Humanities – law, history, linguistics, psychology
- Medical sciences – sport and health research
- Economic sciences – economics, management, marketing, business administration, econometrics
- Natural sciences – biology, physics, chemistry, nanotechnologies

**Tuition 99,000 RUB** ≈ 1,100 USD (the exchange rate can fluctuate)

## POPULAR PROGRAMS

in English 

### Bachelor's programs, 4 years

- Fundamental Computer Science and Information Technology. Informatics and Computer Science
- Mechatronics and Robotics. Mechatronics
- Food Technology and Catering. Functional Foods and Nutrition
- Economics. International Economics and Trade

### Master's programs, 2 years

- Mathematics. Partial Differential Equations
- Applied Mathematics and Physics. Biophotonics and Physical Methods for Human Beings
- Chemistry. Chemistry for Environmental Engineering
- Construction. Digitalization in Architecture and Construction
- Heat and Power Engineering. Heat Power Engineering
- Power Engineering and Electrical Engineering. Electrical Power Engineering
- Mechanical Engineering. Welding Engineering
- Technological Machinery and Equipment. Hydraulic Machines, Hydraulic Drives and Hydraulic and Pneumatic Control Systems
- Mechatronics and Robotics. Mechatronics
- Biotechnology. Industrial and Environmental Biotechnology
- Economics. International Business
- Management. Strategic and Innovation Marketing
- Finance and Credit. Financial Markets and Institutions
- Law. Law and Digital Technologies
- Journalism. Media Communications
- Philology. Theory and Practice of English

Foreign citizens have the opportunity to get the Russian Government **Scholarship**.
