*The Forum of International Graduates of Soviet and Russian Universities in Cairo, a plenary meeting*

# Rossotrudnichestvo

## Talks about the Prospects for International Cooperation in Education and Science

Rossotrudnichestvo conducts outreach efforts to promote higher education in Russia and strengthen the position of the Russian language abroad. Thousands of successful graduates of Soviet and Russian universities – outstanding public and political figures, top-notch specialists, and leaders are a prime example of the quality of higher education in Russia and the relevance of professional knowledge and skills it provides. Let us talk about the meetings of international graduates of Soviet and Russian universities and the prospects for international humanitarian cooperation.

*The Graduates Forum participants from Lebanon, Congo, Egypt, Morocco, and Tunisia are attending the Global Trends in Education workshop*

Rossotrudnichestvo carries out its activities aimed at consolidation of the large community of international graduates worldwide hand in hand with Russian partner universities of the Agency. Such comprehensive efforts to support educational and inter-university cooperation, civil society, the youth, academic community, business and non-profit organizations promote the interests of the Russian Federation and some regions through humanitarian and educational interaction.

The Forum of International Graduates of Soviet and Russian Universities – Representatives of the Education Systems of Middle Eastern and African Countries organized by Rossotrudnichestvo in Egypt (Cairo) on December 17-18, 2022 is one of the most important events in this area. This forum that brought together more than 150 graduates on one platform outlined a priority for the development of cooperation in education and science and technology, its importance and prospects for all participants.

*Professor at the Faculty of Physical Education of Helwan University Musaad Oweis is presenting the letters of appreciation from the Guardian Council on Healthcare and Physical Education of the Arab Republic of Egypt to Deputy Head of Rossotrudnichestvo Pavel Shevtsov and Head of the Rossotrudnichestvo Representative Office in the Arab Republic of Egypt Marat Gatim*

*The organizers and volunteers of the Russian House in Cairo*

The Forum brought together the heads and staff members of the universities in Middle Eastern and African countries, representatives of national education authorities, executive committees of the associations of graduates from 15 countries of the region such as Egypt, Zambia, Jordan, Iraq, Lebanon, Morocco, the United Arab Emirates, Palestine, the Republic of the Congo, Syria, Tanzania, Tunisia, Ethiopia, and the Republic of South Africa as well as the representative delegations of 30 Russian universities and Rosatom State Corporation.

The plenary meeting and roundtable discussions addressed the development of cooperation in the sphere of education, training of local personnel according to the current needs of national economies, and joint research areas. The lively discussion showed that the parties' interest in the development of interaction is really great and can have a lot of positive effects, including training of highly qualified specialists, development of their own scientific and technological potential, expansion of humanitarian cooperation and related strengthening of cross-national awareness and tolerance.

The first Forum shows that such events help establish direct contacts with stakeholders, discuss urgent issues of sharing experience in education and science, and enhance efforts to train local personnel through bilateral programs and agreements. That is why Rossotrudnichestvo is planning to develop these practices and is elaborating upon the possibility of organizing such regional events on a regular basis biennially.

### THE TWO MAJOR EVENTS ARE TO BE HELD BEFORE THE END OF 2023:

- The Forum of International Graduates of Soviet and Russian Universities – Representatives of the Education and Healthcare Systems of Asian Countries is to be held in Vietnam on October 3-4, 2023
- The Forum of International Graduates of Soviet and Russian Universities – Representatives of the Education and Healthcare Systems of African Countries is to be held in Tanzania on November 7-10, 2023

*Head of the Department at Tabbin Institute for Metallurgical Studies Professor Fathi Tugan (Egypt) and Professor at the Engineering Faculty of Asute Atef El Sayed University (Egypt) with the volunteers of the Russian House in Cairo*

# How Much Does It Cost to Study in Russia?\*

What do prospective students and their parents pay attention to when choosing a country to continue education and apply to a university? According to the surveys, the main benchmarks include, besides the quality of education, successful careers of university graduates, who studied in a particular country, and the cost of studying. Today, the price/quality ratio is one of the reasons why Russian universities are attractive to foreign citizens.

Over many decades, Soviet and Russian universities have provided higher education to people from many foreign countries. For example, among students of Soviet and Russian universities were presidents of some countries:

- José Eduardo dos Santos (1979-2017, Angola)
- Trần Đức Lương (1997-2006, Vietnam)
- Bharrat Jagdeo (1999-2011, Guyana)
- Nambaryn Enkhbayar (2005-2009, Mongolia)
- Thabo Mbeki (1999-2008, South Africa), etc.

In 2022, ten supreme leaders of foreign countries were graduates of Russian universities. According to this indicator, Russia ranks fourth in the world, after the USA, Great Britain, and France. Anywhere in the world you can find political figures, famous scientists, prominent business people who have obtained a higher education degree in the USSR and Russia.

\*We publish an abridged version of the article by V. Kruglov, V. Pugach, A. Ruchkin, E. Shevchenko "Is It Expensive for International Students to Study at Russian Universities?" Read the full text in the *Accreditation in Education* journal (№146, October, 2023), [akvobr.ru](http://akvobr.ru)

When choosing a country, students should take into consideration the cost of studying and general costs, including accommodation. In 2022, the Times Higher Education experts conducted an interesting study. They compared the expenses related to students' stay in 20 states holding top positions in the ranking "The Best Countries to Study Abroad" according to US News. In 2022, Russia ranked 49th in this ranking. For comparison, they chose the following cost parameters: the cost of studying, food basket, health insurance, travel card for public transport, apartment rent (one place), and gym membership.

The data for 20 foreign countries and Russia is given in Table 1.

Table 1

### THE AVERAGE COST OF STUDYING AND LIVING OF UNIVERSITY STUDENTS IN COUNTRIES ACROSS THE WORLD, USD PER MONTH\*

Country	Studying	Food basket	Health insurance	Travel card	Apartment rent	Gym membership	General expenses
Russia	146	52	5	8	30	15	<b>257</b>
Egypt	208	33	17	11	109	17	<b>395</b>
Moscow	369	57	5	8	30	15	<b>484</b>
Türkiye	42	43	18	30	346	26	<b>505</b>
Brazil	83	47	50	45	264	23	<b>512</b>
Mexico	63	46	25	20	440	33	<b>627</b>
Greece	125	53	25	32	413	41	<b>689</b>
Thailand	154	77	167	35	307	46	<b>786</b>
Italy	204	67	14	38	629	51	<b>1,003</b>
Spain	163	56	54	42	725	41	<b>1,081</b>
Germany	42	84	120	76	800	36	<b>1,158</b>
France	281	68	25	70	717	36	<b>1,197</b>
Japan	500	77	15	66	557	60	<b>1,275</b>
Netherlands	193	76	142	92	1,173	32	<b>1,708</b>
Switzerland	117	122	350	93	1,642	88	<b>2,412</b>
Ireland	1,083	54	38	119	1,444	49	<b>2,787</b>
New Zealand	1,558	64	108	110	1,056	42	<b>2,938</b>
Australia	1,867	66	67	108	1,348	50	<b>3,506</b>
Great Britain	2,317	52	49	83	1,001	39	<b>3,541</b>
Canada	2,225	65	47	74	1,122	41	<b>3,574</b>
USA	2,191	70	83	70	1,535	42	<b>3,991</b>
Singapore	1,733	67	125	95	3,035	117	<b>5,172</b>

\*Moscow is singled out as a separate subject of the study

The countries are ranked by general expenses. As we can see from Table 1, minimum expenses are required in Russia – 257 USD, and maximum expenses – in Singapore, 5,172 USD. As can be seen, the gap is very big. It is a 20-fold gap. Even Moscow, where living and studying is rather expensive like in any other capital in the world, compared to other cities in the same country, is located at the top of the table.

The largest part of expenses is tuition or accommodation costs, with some countries placing tuition first and other countries placing accommodation first. In some countries, the sum of these indicators is more than 90%, and each of the rest of items for this share of expenses accounts for a few percent, most often, less than 10%.

Let us consider the countries by cost of studying and apartment rental price. For this purpose, let us divide them into groups, categorizing them as low-cost, average-cost, and high-cost countries. As we can see from Table 2, the groups located on the diagonal of the table are the most filled ones.

Table 2

**COUNTRY GROUPS BY COST OF STUDYING AND APARTMENT RENTAL PRICE FOR INTERNATIONAL STUDENTS, USD PER MONTH**

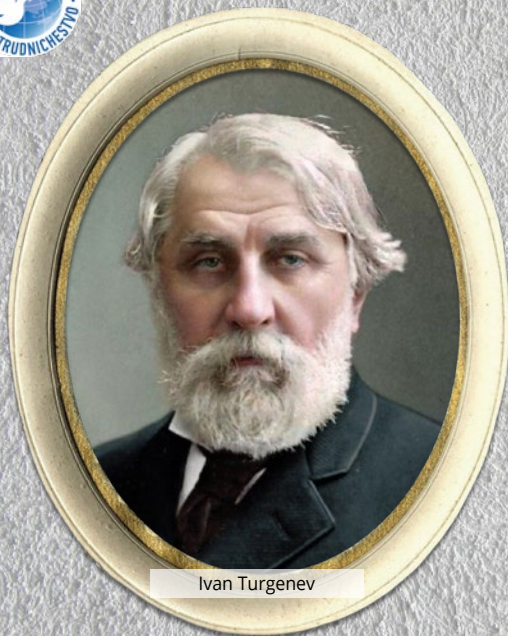

Countries by cost of studying	Countries by apartment rental price		
	< 500	500–1,000	> 1,000
< 200	<b>The first group:</b> Türkiye Brazil Mexico Russia Greece Thailand	<b>The second group:</b> Spain Germany	<b>The third group:</b> Netherlands Switzerland
200–500	<b>The fourth group:</b> Moscow Egypt	<b>The fifth group:</b> Italy France Japan	
≥ 1,000			<b>The sixth group:</b> Great Britain Canada New Zealand Australia Ireland USA Singapore

Calculated according to the sources\*

- 1 The first group includes the cheapest countries in terms of the cost of both studying and accommodation. **Russia is included in this group.**
- 2 The second group includes two countries – Spain and Germany – with average apartment rental prices and the low cost of studying.
- 3 The third group includes the countries with high apartment rental prices and the low cost of studying.
- 4 The fourth group (the average cost of studying and the low cost of accommodation) has two elements, including **Moscow**. It is the cost of studying that makes Moscow different from Russia in general.
- 5 The fifth group consisting of three countries – Italy, France, and Japan – is well-balanced and averaged – the average cost of studying lines up with the average cost of accommodation here.
- 6 The sixth group is the most filled and well-balanced, too, but at the level of the high cost of both studying and accommodation.

The table data definitely contains averaged values. However, the results of the study are compelling and rather illustrative when it comes to the affordability of studying and living in each particular country. In contrast to many developed countries offering good education, Russia looks an attractive destination from the standpoint of the ratio of price/quality of studying and living in the cities with well-developed infrastructure and available electronic services for international students.

Ivan Turgenev

Anton Chekhov

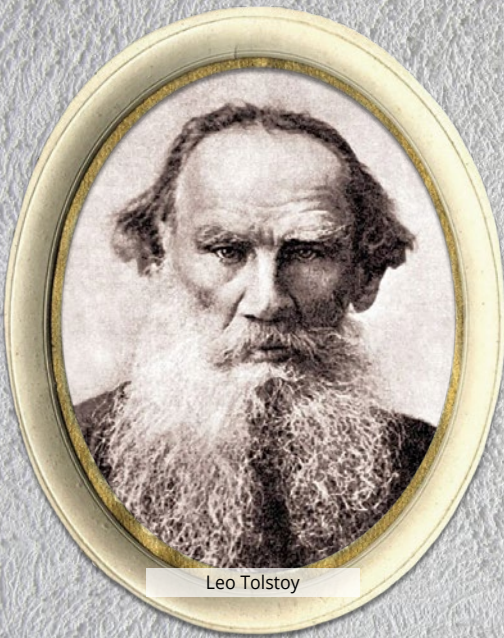

# Preparatory Faculty

## Russian Language with Immersion

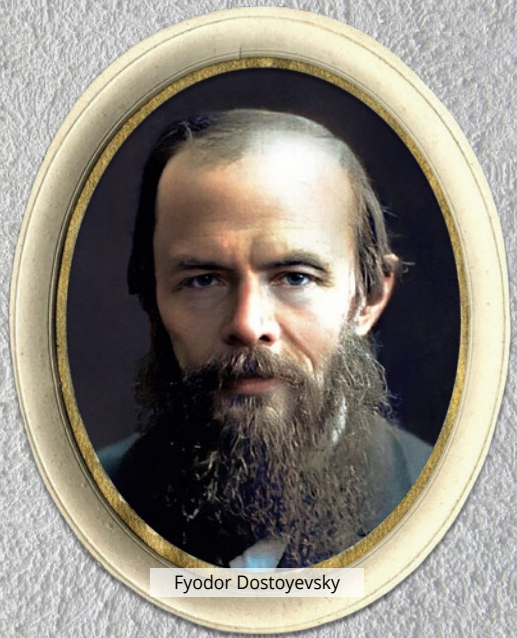

We have written more than once that learning Russian is a great challenge for foreigners. And it is not only about the fact that the Russian language is "great and mighty"\* and difficult in itself, but also about the fact that learners can experience difficulties depending on what their native language is. You can study Russian, like any other language, independently, individually, in groups, at schools, or at preparatory faculties.

\*From the famous saying by Russian writer Ivan Turgenev, "In days of doubt, in days of anguished thought over the fate of my native land, you alone are my staff and my support, oh great, mighty, true and free Russian language!"

Leo Tolstoy

Fyodor Dostoyevsky

The preparatory faculty course fundamentally differs from other courses, primarily due to intensive immersion in the language environment. Besides, the foundation program is comprehensive because students not only take the Russian language course, from elementary to advanced level, but also prepare for university admission.

**As a rule, the preparatory faculty course includes:**

- Preparation for admission to various Bachelor's and Master's programs
- Preparation for the state certification exam TORFL-I
- Getting acquainted with the education system in Russia
- Immersion in the Russian language and Russian culture

**You can study at a preparatory faculty for free**, within the Russian Government quota, getting monthly scholarships. To find out about the selection process to get a quota, contact the Rossotrudnichestvo Representative Office in your country.

### **What else should you know about Russian language programs at preparatory faculties?**

- The course duration can vary from two weeks to two years
- The study programs take into account the starting level of language proficiency
- The language of instruction is Russian 🇷🇺
- Classes are conducted by highly qualified teachers having experience in teaching foreign citizens

**Preparatory faculties** always provide as much immersion in the socio-cultural environment as they can, with plenty of entertainment and educational events. For example, Baikal State University offers its students:

- ✓ The opportunity to participate in international cultural student events, festivals, and national days such as Russian Tea, New Year, Literature and Music Festival for International Students, Shrovetide, and The Best Photo.
- ✓ Sightseeing tours around the city of Irkutsk, to the shores of sacred Lake Baikal, the limnology, ethnography and art museums, and visits to theaters and exhibitions.
- ✓ Participation in all-Russian and regional competitions, Olympiads, conferences, and student Spartakiads.

## RUSSIAN AS A FOREIGN LANGUAGE PROGRAMS

As a rule, every student at the preparatory faculty takes an entrance test and a questionnaire survey to determine their starting level of Russian language proficiency and priorities in educational and scientific interests. Depending on the learning objectives and outcomes and course duration, students are divided into groups by study areas.

**The programs are aimed primarily at** developing practical Russian language skills (speaking, listening, reading, and writing). So, the programs include modules such as:

- fluent communication
- understanding spoken language
- written speech
- vocabulary expansion
- Russian language grammar
- phonetics (as part of everyday classes)
- getting acquainted with the cultural and linguistic consciousness of Russians
- getting acquainted with Russian traditions and behavior patterns of Russians

Students study Russian as well as major subjects to continue their education or business activities: History, Social Science, Mathematics, Informatics, Literature, Regional Studies, Cultural Studies, etc. The Russian language course is a major part of the one-year foundation program. Emphasis is placed on studying language for science in the chosen study area.

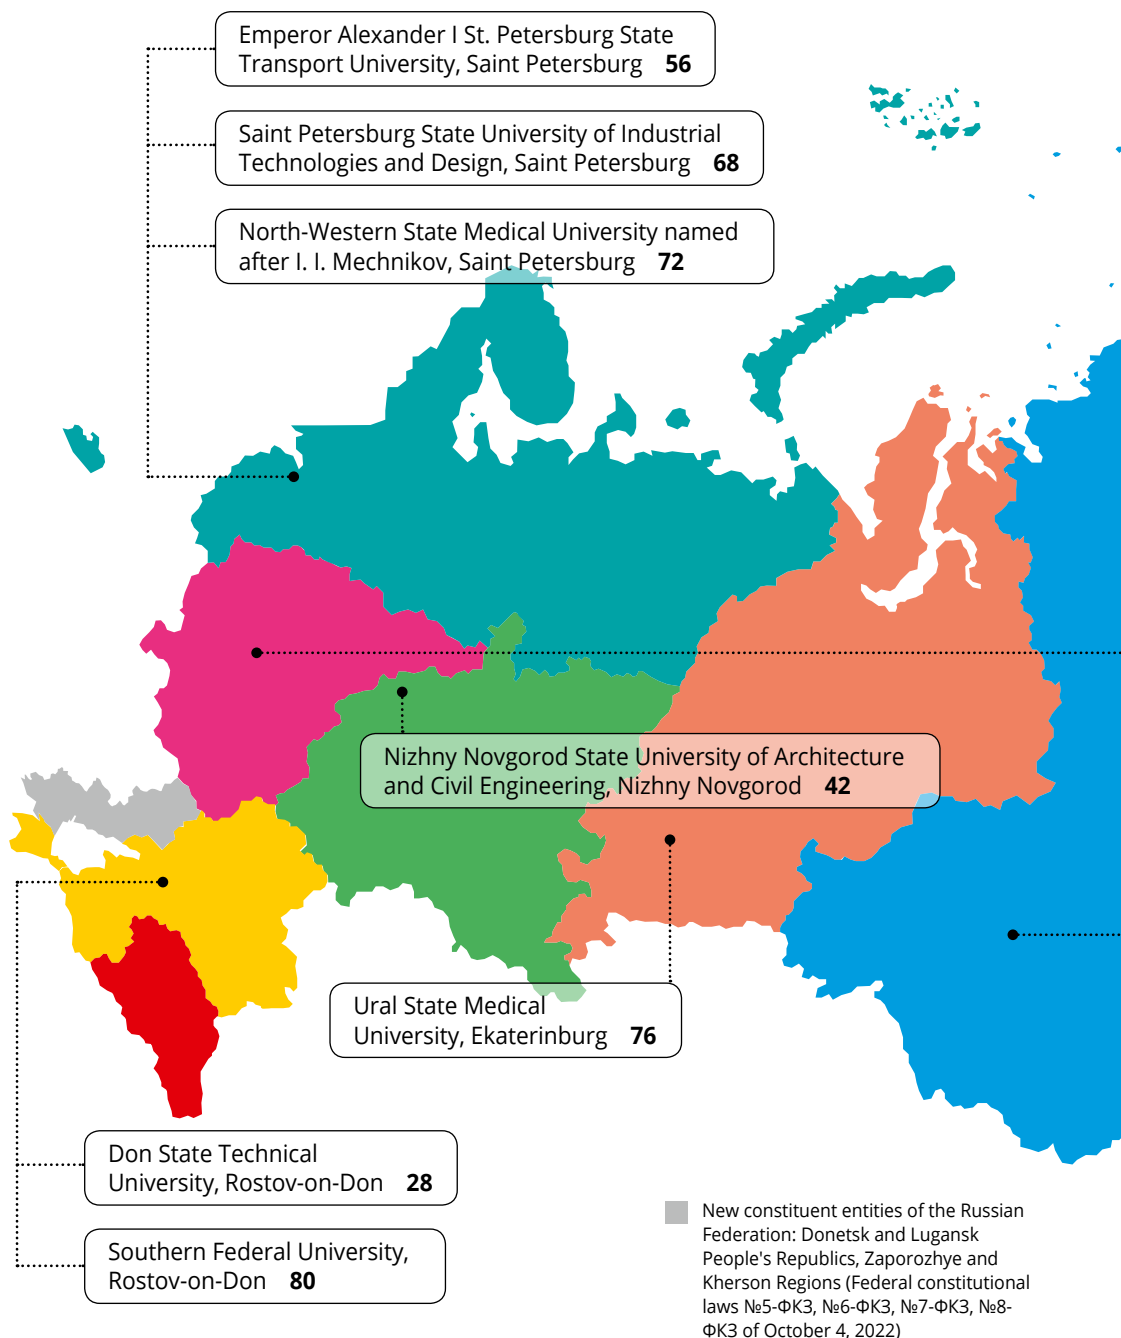

Students can take the state certification test (TORFL) of the Russian Federation and obtain a certificate confirming their level of proficiency in Russian as a foreign language.

---

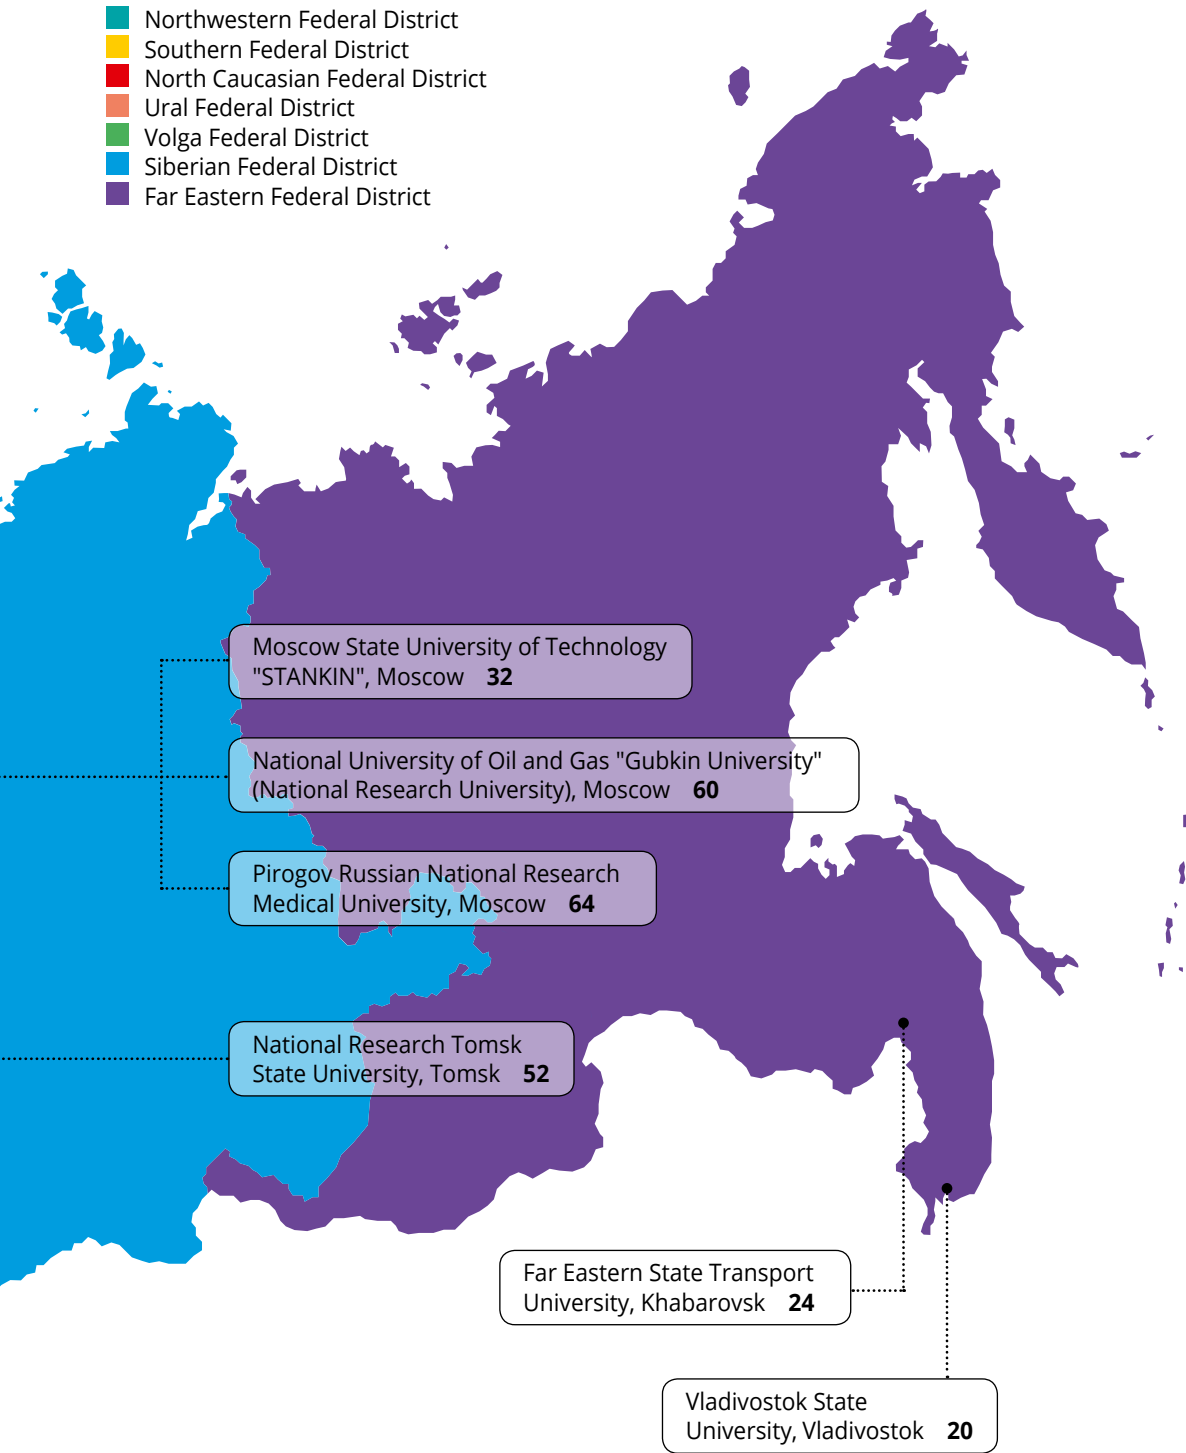

**After finishing the course, students obtain a university certificate confirming that they have completed the Russian as a Foreign Language program.**

- Top 100 best Russian universities
- Participation in the project of the Ministry of Science and Higher Education of Russia "Future Skills University"
- VVSU Volunteer Center is among the most active volunteer organizations in Russia

76

28 Education

The education leader in the Far East

📍 Vladivostok, Primorsky Territory, Russia

**WHY WVSU****1 Homelike university**

The university has created a comfortable atmosphere on campus so that international students can feel at home

**2 Multicultural environment****3 Eventful student life**

An opportunity to get **personal scholarships** for active participation in the university and city life

An opportunity to undertake **free study placements** at foreign partner universities

**POPULAR FIELDS OF STUDY**

- Economics
- Management
- Oil and Gas Engineering
- Pedagogy
- Linguistics
- Design
- Tourism
- International Relations
- IT
- Media Communication
- Transportation Systems Engineering
- Software Engineering

All programs are taught in Russian . International applicants who do not speak Russian can enter the **preparatory faculty**.

**PREPARATORY FACULTY**

Starting from the first days, students are completely immersed in the language environment: they take an intensive Russian language course and study other subjects required for taking entrance exams. Classes are conducted by experienced teachers using both traditional and modern teaching methods.

The preparatory faculty life goes beyond the university walls. Guided museum and sightseeing tours in the city have become a tradition. Students get unforgettable experience when visiting the opera and ballet theater, the oceanarium, and the safari park.

**Duration:** 1 year

**Tuition fee** **160,000 RUB**

 [eng.wvsu.ru](http://eng.wvsu.ru)

 [rutube.ru/channel/25579450](https://rutube.ru/channel/25579450)

### UNIQUE CAMPUS

VVSU takes special pride in the campus which is located near the center of Vladivostok.

**The special thing about the campus is that all educational buildings, dormitories, the theater and concert center, the advanced health clinic, the sports center, stores and canteens are connected by the general system of crossings.** In bad weather or cold winter, there is no need to go outside because you have everything at hand.

The university is surrounded by the fantastic territory. Its concept is history, philosophy, and ecology. Here you can enjoy amazing compactness of the Japanese stone garden, the beauty of relic plants in the Ussuri taiga and visit Russia's first monument to poet Osip Mandelstam. The campus open for the city people is one of the favorite places of Vladivostok residents.

### STUDENTS COME FROM

 China	 Egypt
 South Korea	 Peru
 Laos	 Chile
 Vietnam	 Uzbekistan
 Taiwan	 Senegal
 Mongolia	 Turkey
 Mexico	 North Korea
 Equatorial Guinea	 Indonesia

Besides studying, students get acquainted and communicate with each other, do sport, attend concerts, participate in various events such as I Study in Russia, the Interuniversity Spartakiad for International Students, Mister and Miss VVSU, the Golden Autumn talent competition.

### INTERESTING STUDENT LIFE

- Student youth associations
- Volunteer center
- STUDiYA student TV project
- Student sports club

The university has the Center helping students and graduates adapt to the job market in modern socio-economic conditions.

Every year workshops, employers' master classes, job fairs, and career nights are held, where you get information on job openings and side jobs at major Russian and international companies and the university. **International students have the right to work in their study-free time.**

# APPLICANT'S GUIDE

For those applying within the Russian Government quota for the 2024-2025 academic year

## STEP 1

Register on the website [education-in-russia.com](http://education-in-russia.com), carefully fill in the electronic application form, and confirm it.

### Specify in your application form:

- Your personal data
- Your profession, major, or field of study
- Your education level
- Your Russian language proficiency level

Specify the university you like most in the first place and other universities – in descending order of preference.

### You will also be required to submit the following documents:

- A copy of your passport (which is valid at least 18 months from the moment of your expected arrival in the Russian Federation) or birth certificate
- Copies of the documents confirming your education and (or) qualification obtained in a foreign state
- Standard medical certificate confirming the absence of contraindications to studying in the Russian Federation with the HIV infection test results
- Copies of the documents which are notarized and translated into Russian (you can get the full list of documents at the Russian House in your country)

Studying within the quota is	<b>free of charge</b>
VVSU dormitory accommodation, per month	<b>2,200 RUB</b>
Academic excellence scholarship, per month	<b>8,000 RUB</b>
Minimal scholarship, per month	<b>2,400 RUB</b>

## STEP 2

Find yourself in the list of candidates.

## STEP 3

Inform us about your being selected a candidate for studying within the quota at VVSU so that we can confirm you in our system.

Wait for the notification of your admission to the university and further instructions.

## STEP 4

Get an invitation to apply for a Russian visa (if required) and inform VVSU about your arrival so that we can make arrangements to meet you at the airport.

**Short-term educational programs for foreigners:** three-month Russian language courses.

**The tuition fee** is calculated individually based on the student's basic knowledge.

The university does not hold its own Russian language Olympiads: students participate in the **All-Russian Olympiads**.

## SPECIAL ASPECTS OF MASTERING RUSSIAN BY STUDENTS OF DIFFERENT ETHNICITIES AT FESTU ARE:

- Highly qualified teachers of Russian as a foreign language
- Consistency
- The connection between theory and practice
- Accessibility
- An individual approach to students
- Using visual aids

## THE GREATEST DIFFICULTIES FOREIGNERS FACE WHEN LEARNING RUSSIAN

- Alphabet. International students find it difficult to pronounce some consonants (Ж, Ш, Щ, Ч, Ц)
- Adaptation to the rhythm of speech and manner of speaking
- Correct usage of cases
- Understanding of verbs of motion
- Using prefixes in a particular context

## TIPS TO OVERCOME CHALLENGES OF LEARNING RUSSIAN

- More practical communication with native speakers
- Watching movies and reading books in Russian
- Independent solving of everyday issues (shopping, going to hairdresser's parlors or barbershops, etc.)
- Using up-to-date Russian language study guides

### **KHABAROVSK INTERNATIONAL SUMMER AND WINTER SCHOOLS**

- Everyone interested can apply
- Offline and online training

#### **Main programs:**

- Intensive Russian language course
- Russian language plus a professional module (Civil Engineering, Management, Logistics)
- Familiarization with Russian culture
- Ethnic cuisines of the peoples of Russia

in China –  
Don Institute  
Shandong Jiaotong  
University – DSTU

**2**

representative  
offices in  
Uzbekistan

Don State Technical University is the largest fast-developing scientific and educational establishment in the region. It introduces a project-based learning format, as part of which students solve technological problems of real enterprises. This provides students with more competencies for their successful employment and future professional career.

### Tuition fees per year

**Bachelor's programs**  
122,100 – 243,100 RUB

**Master's programs** 131,500 – 150,000 RUB

**Specialist's programs** 122,100 –  
140,600 RUB

**PhD programs** 156,800 – 186,000 RUB

## ADMISSION

### to state-funded places within the Russian Government quota

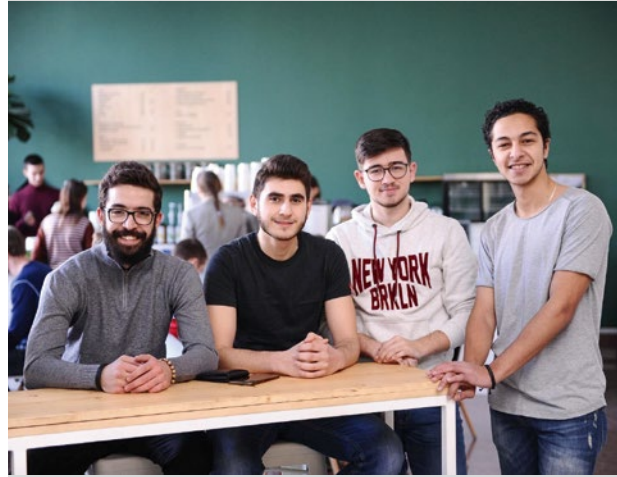

- 1 Register on **education-in-russia.com** and upload the required documents
- 2 Pass competitive selection at the Rossotrudnichestvo Representative Office in your country
- 3 Specify "DSTU" in the application form in the first place
- 4 Get a referral to DSTU!

### to fee-paying places

- 1 Register on the portal **online.donstu.ru** and upload the required documents, starting from June 20
- 2 Take online entrance exams in the period from July 10 to August 25
- 3 Sign the enrollment consent and contract

## REQUIRED DOCUMENTS

- Identity document + its notarized translation
- Previous education certificate + its notarized translation
- Medical certificate of good health and certificate confirming the absence of HIV infection + their notarized translations

## PREPARATORY FACULTY

The International Faculty prepares foreign citizens for further study at Russian universities. Over the history of the faculty, more than 6,000 foreign citizens from 50 countries have received training in Russian.

### Study areas:

- Technology
- Humanities
- Natural sciences
- Medicine
- Engineering

**Mode of study:** offline, online, and combined.

### Tuition fee **110,000 RUB**

The study program includes a lot of events familiarizing students with Russian culture and traditions and the history of Russia and the region.

### 11 ENGLISH-TAUGHT PROGRAMS

3

Bachelor's programs

1

Specialist's program

7

Master's programs

### KEY FIELDS OF STUDY

- Agricultural Engineering
- Biotechnology
- IT and Media Communications
- Architecture
- Mechanical Engineering
- Industrial and Civil Engineering
- Metallurgy
- Materials Science and Engineering
- Psychology and Pedagogy
- Veterinary Medicine
- Green Urban Planning

### WHY DSTU?

- Individual learning paths
- Well-developed comfortable infrastructure of the region and university
- The opportunity to implement a startup project using the resources of the Garage industrial space and mentors
- Multicultural and multinational environment
- Eventful student life
- Graduates' successful career

**The university trains personnel for the top enterprises in the Southern Federal District and worldwide.** Continuous modernization of study programs and introduction of new subjects and fields of study allow the university to always be trendy and give its students only the most up-to-date knowledge.

### THE MASTERSIUM OLYMPIAD

The Olympiad allows applicants to enroll in Master's programs in state-funded places within the Russian Government quota. The Olympiad is held online in Russian, English, French, and Spanish.

**Registration** November 1-30, 2023

**The results** will be summed up on the website in March 2024.

### STUDENT CAREER DEVELOPMENT DEPARTMENT

- Planning and organizing all kinds of student internships
- Holding career events (Job Fairs, Career Days) for students and graduates with the participation of leading employers
- Cooperation with employers aimed at concluding contracts on employer-sponsored education with DSTU students
- Career guidance coordination: casework with DSTU graduates to adapt them as young specialists in the modern job market
- Employment of graduates in their degree fields

+7 960 456-69-96

sidashova.sa@gs.donstu.ru

### Zhang Yuan, China. PhD student at the Faculty of Industrial and Civil Engineering

I chose DSTU because my friends studied here, and my expectations were met. Later, the university became my home. The choice of the faculty and field of study was a pragmatic step because industrial and civil engineering is a fast-developing and growing sector. Specialists in this field are in demand in Russia and worldwide.

DSTU has created a favorable environment for students and offers them plenty of opportunities. I live in a modern dormitory, which is located around the corner from the university. We have excellent facilities. Every room has a kitchen and a private bathroom!

The DSTU park and campus boast plenty of various recreation and study locations and a lot of open and equipped spaces for communication!

The university regularly holds educational, sports, scientific and entertainment events. I often speak at student research conferences. Besides, DSTU provided me with the opportunity to work at the university! I work at the International Cooperation Department and teach at the Department of World Languages and Cultures, and I am proud of that! My advice to prospective first-year students is: always choose with your heart and learn what you like! And then, you are sure to achieve success!

## **ENROLLMENT CAMPAIGN**

To apply to MSUT "STANKIN," you must fill in the application form using a QR code and give your contact details, and the specialist from the Center of International Cooperation will contact you.

The procedure for preparing required documents is determined for each international applicant individually.

**More than 75% of graduates, and more than 95% of IT graduates in particular, work in their degree field.**

Apply

STANKIN is traveling

MSUT "STANKIN" Olympiads

### **PREPARATORY DEPARTMENT**

Since 1952, MSUT "STANKIN" has been successfully developing the Preparatory Department for foreign citizens wishing to learn Russian and enter our university or other universities and colleges in the Russian Federation.

Over almost 70 years, the university has developed highly qualified academic staff having not only professional competencies in scientific fields, but also extensive experience of working with foreign citizens who do not speak Russian.

#### **Study areas:**

- **Engineering and Technology**  
Courses in Russian Language, Mathematics, Informatics, and Physics
- **Economics**  
Courses in Russian Language, Mathematics, History, and Social Science
- **Chemistry and Biology**  
Courses in Russian Language, Chemistry, Biology, and Physics

### **RUSSIAN LANGUAGE COURSES**

The university offers the **Russian Language: Advanced Level** program for foreign citizens wishing to improve their Russian language proficiency.

**Duration:** 5-11 months

### **SUMMER SCHOOL**

Every year the university organizes the Russian Language Summer School that offers short-term courses for students from all over the world wishing to improve their Russian language proficiency.

**The program includes** educational activities, sightseeing tours, and entertainment events.

The school works **offline** in June and July. After completing the school program, participants obtain a **certificate**.

**Duration:** 4-10 weeks depending on the learning schedule

**Tuition fee:** **52,000 RUB**

<b>Program title</b>	<b>Duration</b>	<b>Tuition fee</b>	<b>Enrollment period</b>
Foundation program (in-depth course)	8 months – 1.5 years	<b>148,000 – 249,000 RUB</b>	all year round
Language internship (the minimum language proficiency level is A2)	8 months	<b>135,000 RUB</b>	until December 1
Russian Language: Advanced Level	5-11 months	<b>91,000 – 182,000 RUB</b>	all year round

## **INTERNATIONAL OLYMPIADS FOR ADMISSION**

### **'MOCT'**

#### **Multidisciplinary Olympiad for School Students**

All participants get a 10% discount for the entire period of study.

**Subjects:** Russian language, mathematics, physics, chemistry, informatics, and social science.

### **My Career**

#### **Multidisciplinary Olympiad for Master's Degree Applicants**

The winners are entitled to Master's studies funded from federal budget resources.

All participants get a 10% discount for the entire period of study.

 [mycareer.stankin.ru](http://mycareer.stankin.ru)

## **REQUIRED DOCUMENTS**

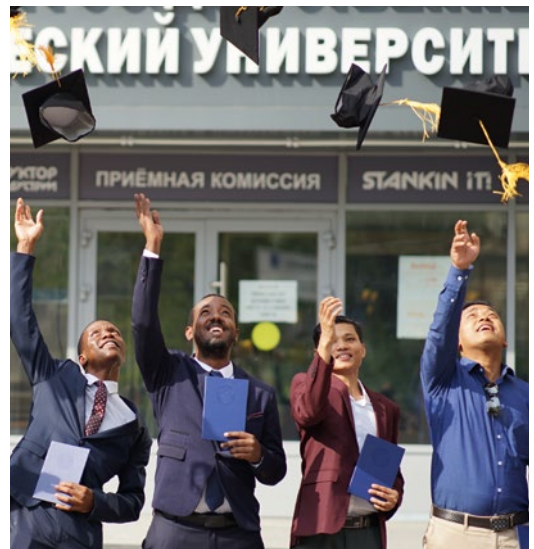

- Applicant's identity document
- Citizens of the countries that maintain a visa regime with Russia must get a visa first
- Original foreign document confirming the level of education and (or) qualification (or its copy certified according to the established procedure) and transcript
- Foreign document confirming the level of education and (or) qualification and transcript translated into Russian
- Duly executed medical records confirming that the applicant has no contraindications to studying at university
- 6 photos (matte, 3×4 cm) and 6 photos (matte, 2×3 cm)
- The amount of money sufficient to pay tuition and accommodation fees (for 1 year), health insurance policy

“

#### **Do Thi Le, Vietnam. The Preparatory Department attendee**

Thanks to the Multidisciplinary International Olympiad for Master's Degree Applicants "My Career" in which I was lucky to participate in 2022, I managed to get the Russian Government quota to study at MSUT "STANKIN" for free.

# NIZHNY NOVGOROD REGION

**The Nizhny Novgorod Region** is a vast region in the center of European Russia – it is a part of the Volga Federal District. The administrative center, the city of Nizhny Novgorod, is located at the confluence of two rivers – Volga and Oka, 400 km northeast from Moscow.

The Volga River divides the region into two parts – the Left Bank (Zavolzhye) and the Right Bank, which differ very much from each other in natural and climatic conditions. Zavolzhye is a plain. The Right Bank of Oka and Volga is a rolling plain.

The region has more than 9,000 rivers and brooks. The largest rivers are Volga, Oka, Vetluga, and Sura. There is Gorky Reservoir and Nizhny Novgorod hydroelectric power plant in the region.

The climate of Nizhny Novgorod Region is moderately continental. Winters are usually cold and snowy, and summers are short and moderately hot.

**Around 48% of the territory is covered by forests. Coniferous forests are a major type of vegetation.**

The regional economy is based on the processing industry. The largest share in the industry is taken by manufacturing transportation means and equipment, oil products, metallurgical production, and manufacturing of finished metal products. The key industries are mechanical engineering and metalworking, followed by chemical and oil refining industries, forestry, wood processing and paper industries. The main area of the mechanical engineering industry is transport engineering, including car manufacturing, shipbuilding, diesel engine manufacturing, aircraft engineering, and machine tool engineering, with car manufacturing playing a primary role.

**The region is known for the world-recognized scientific schools:**

- radiophysics and electronics, including physics of solid microstructures
- nuclear and laser physics
- high energy physics
- nonlinear dynamics
- organometallic chemistry
- chemistry of high-purity substances
- microbiology
- high technologies in medicine: cardiology, traumatology, and orthopedics

**The Nizhny Novgorod Region** is a large agricultural region. The specializations of agriculture are: grain and potato production in crop farming and meat and dairy production and poultry farming in animal farming.

## NIZHNY NOVGOROD

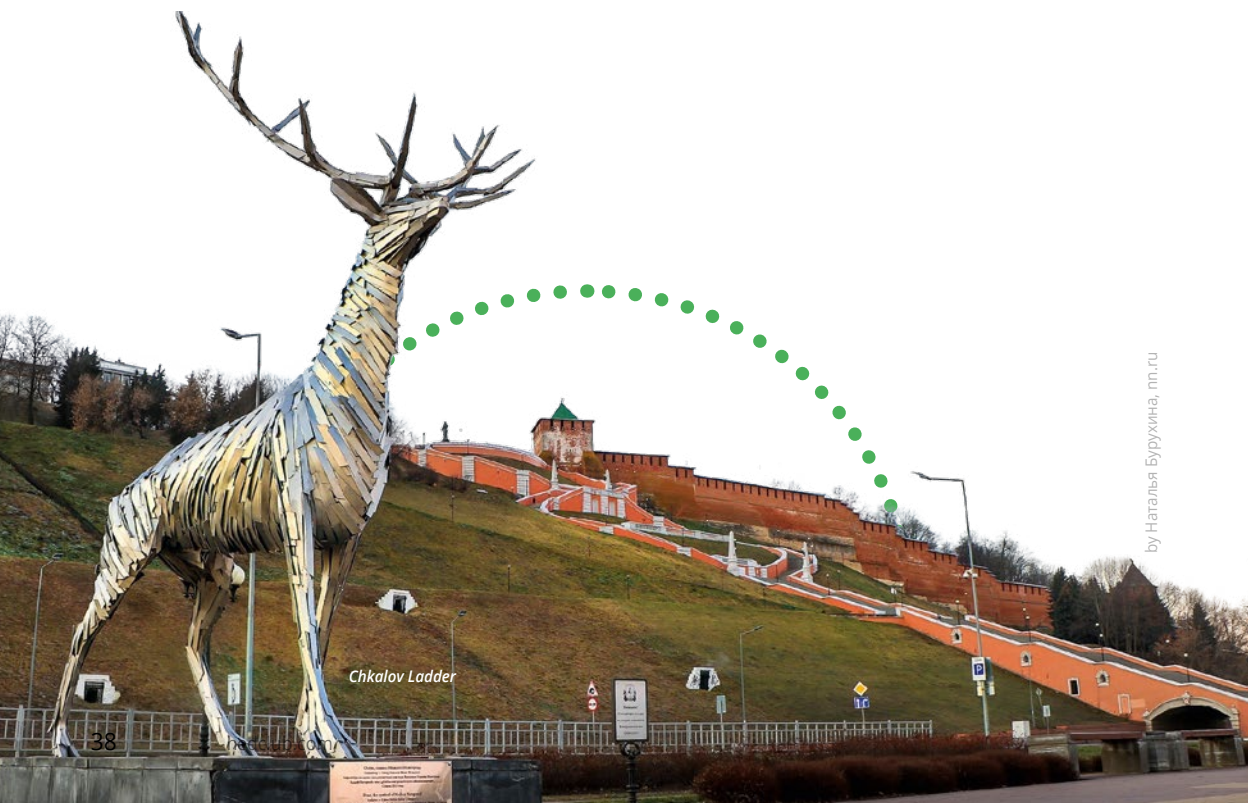

**The city of Nizhny Novgorod** – the region’s administrative center – is a large transport hub. Extensive water, railway, motor transport routes establish reliable ties with raw material supplies bases and districts – consumers of products manufactured in the region as well as large cultural centers.

Nizhny Novgorod is Russia’s largest industrial center with the enterprises of mechanical engineering, metalworking, and information technology playing a leading role.

**Nizhny Novgorod was founded in 1221 by Prince Yuri Vsevolodovich to protect Russian borders. Under Ivan III, Nizhny Novgorod was a sentry city. It had a regular army. This was the place for Moscow to march against Kazan.**

Nizhny Novgorod made a great contribution to the construction of the Russian state. In 1612, Kuzma Minin and Prince Dmitry Pozharsky’s militia from Nizhny Novgorod played a decisive role in the liberation of Moscow from Polish intervention.

During the Soviet period from 1932 to 1990, the city was named after Maxim Gorky, the Great Russian writer who was born there.

*Chkalov Ladder*

Today, the city, that once played such a significant role in the history of Russia, is turning into a modern metropolis. Nizhny Novgorod is Russia's largest center of river cruise tourism and the venue of Nizhny Novgorod fair-based international exhibitions.

Nizhny Novgorod is one of the richest cultural centers in Russia. The most prominent artists have received education in the local theater and art schools. The city has opened a large number of theaters, museums and cinemas.

This city can surprise any traveler by an entwinement of modern and ancient buildings, each time rising before your eyes in a completely unexpected appearance.

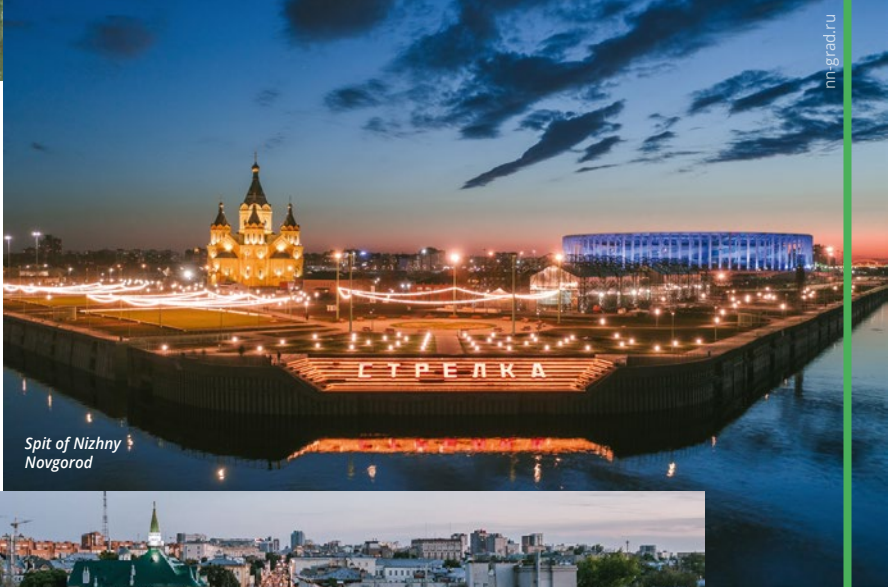

## 10 FACTS ABOUT NIZHNY NOVGOROD

- 1 The most unassailable Kremlin in Russia was besieged five times in its entire history, but was never taken.
- 2 Nizhny Novgorod organized the famous militia led by Kozma Minin and Prince Dmitry Pozharsky that liberated Russia from Polish-Lithuanian intervention.
- 3 The city has two of the world's four churches built in a special inimitable style at the expense of merchant Grigory Stroganov, a famous "oligarch" of Petrin times.
- 4 Nizhny Novgorod has the longest pedestrian ladder in Russia. The ladder is eight-shaped and has 560 steps from both sides and 442 steps from bottom to top from the right side. The ladder looks solid from Volga, and that is precisely why Nizhny Novgorod residents not only hold track-and-field competitions on it, but also use it to create a unique art object.
- 5 The Upper Volga Embankment is 80 meters high, which makes it the highest embankment in Russia.
- 6 Nizhny Novgorod has a cableway, which is the longest one not only in Russia, but also in entire Europe. It is 3,362 meters long.
- 7 The name of Sormovo district was derived from the word "sram", or "sorom" (which means "shame"). Five hundred years ago, "soromnye" ("shameless") people – tramps and beggars were settled there.
- 8 Nizhny Novgorod boasts a lot of historic sights associated with Maxim Gorky. One of them is the Bugrovs' Poorhouse that has been preserved to the present day. It was a prototype of the famous homeless shelter from the Lower Depths play.
- 9 Nizhny Novgorod has a state-of-the-art planetarium, which is also an ambitious research center. The main hall of the planetarium is equipped with the system of Argus Planetarium projectors – one-of-a-kind Russian counterpart of Western projection systems. The Nizhny Novgorod Planetarium has a digital telescope and Russia's only spacecraft docking simulator accessible to visitors.
- 10 One of Stalin's bunkers built at the beginning of the Great Patriotic War, which was never used by the leader, is located in Nizhny Novgorod. The secret bomb shelter was called Special Facility N74.

### **WHY NNSUACE?**

- 1 One of the architecture and civil engineering education leaders of Russia in Architecture
- 2 One of the oldest Russian universities for architecture and civil engineering with the major architecture and engineering schools widely known in Russia
- 3 Nizhny Novgorod is a big, well-developed city with convenient infrastructure for studying and living
- 4 Affordable tuition fees
- 5 NNSUACE graduates' success is the best quality indicator!

### **ADAPTATION AND ACCOMMODATION**

The university is located in Nizhny Novgorod. This is the sixth most populous million city in Russia, located 450 km from Moscow. Nizhny Novgorod combines all the advantages of a metropolitan city- well-developed infrastructure, plenty of historical and cultural landmarks, a host of attractions, the opportunity to easily get to Moscow (4 hours), Saint Petersburg (6 hours), Kazan (5 hours).

Moreover, prices in Nizhny Novgorod are lower compared to Moscow. The cost of living in Nizhny Novgorod is much lower than in the capital:

- NNSUACE dormitory accommodation fee – 18 EUR per month
- Renting a one-room apartment in the city center – 200 EUR per month
- Food prices are average prices in Russia, but lower than in Moscow

### **PRE-UNIVERSITY TRAINING DEPARTMENT**

Preparation for the main professional educational program of higher education in the following fields of study:

- Architecture
- Civil Engineering
- General Medicine
- Information Systems and Technologies

**Duration** 1 year

**Tuition fee** 90,000 RUB

“

### Rahhaoui Nabil, Morocco

I studied at NNSUACE in 2008-2012. This was a great opportunity for me to become a professional in my field. These years definitely were among the best of my life. I am grateful to all the people, including teachers, advisors, employers, and university staff, who supported and helped me on this way.

Now I am 32, I work as a civil engineer. I've come back to my home country and work in my degree field. Russia gave me a lot, and I will not forget about it.

“

### Sadie Awgu, Türkiye

I studied at NNSUACE in 1993-1998. Many years have passed, but I am still grateful for the opportunity to get an excellent education.

Now I have my own business. I am engaged in wholesale sales of engineering plumbing-I supply everything that is necessary for water supply and heating. I have been working in the markets of Russia and the CIS countries for more than 20 years.

# TOMSK REGION

WWW.TSUL.RU

The HED magazine goes on familiarizing its readers with diverse Russia. We tell you about the regions, cities, cultural differences, sights, and peoples. Today, the “hero” of our column is the Tomsk Region, a picturesque Siberian region with a rich history and a world-famous scientific and educational and cultural and historical center.

**The Tomsk Region** is a constituent entity of the Russian Federation, a part of the Siberian Federal District. The administrative center is the city of Tomsk.

This picturesque vast region is located in the southeast of the West Siberian Plain. The major part of the region's territory is covered by taiga and swamps and therefore is hard-to-reach. Around 1,000 higher plant species and around 2,000 animal species, most of which are insects, constitute the rich flora and fauna of the Tomsk Region. The region is exceptionally rich in natural resources such as oil, natural gas, ferrous and non-ferrous metals, brown coal, peat, and underground waters.

15

animal reserves

3

landscape reserves

1

plant reserve

145

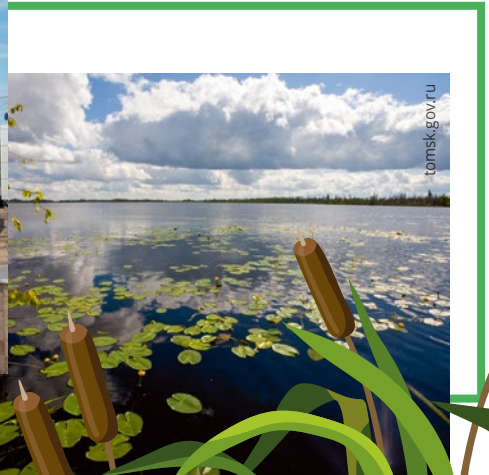

natural landmarks

18,000+

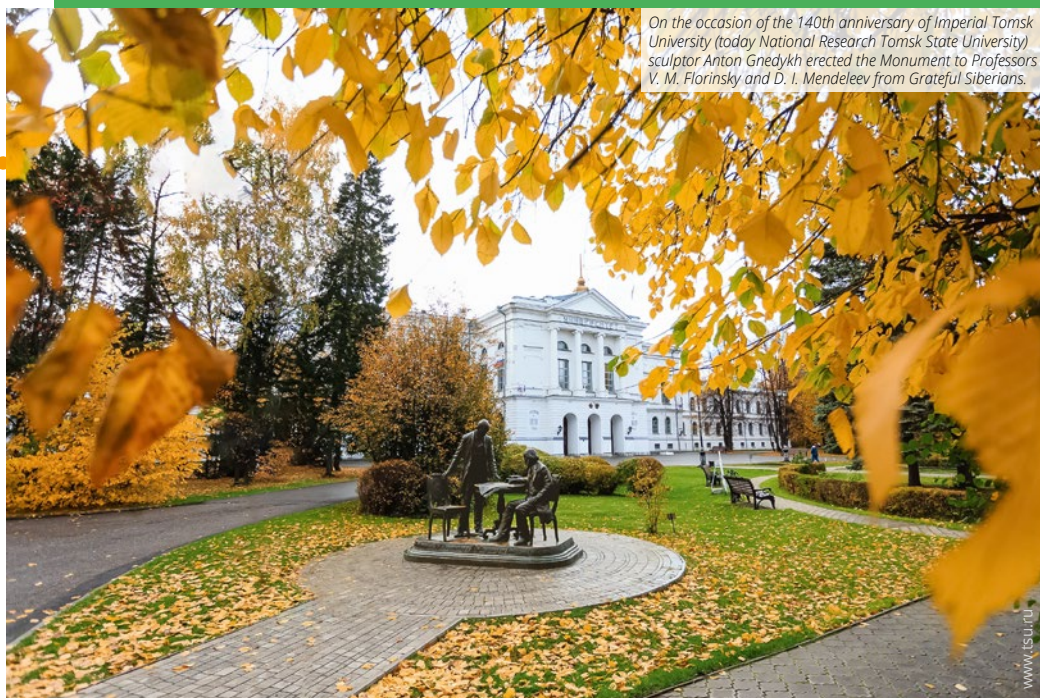

rivers and brooks

112,900+

lakes

The main waterway is the Ob River which is 1,065 km long within the region.

On the occasion of the 140th anniversary of Imperial Tomsk University (today National Research Tomsk State University) sculptor Anton Gnedykh erected the Monument to Professors V. M. Florinsky and D. I. Mendeleev from Grateful Siberians.

www.tsu.ru

## ECONOMICS

The Tomsk Region ranks among the leading constituent entities of the Russian Federation by the level of economic development.

### Well-developed industries include:

- mining industry
- manufacturing activities
- civil engineering
- agriculture
- transport industry

### TOMSK REGION IS A LARGE EDUCATION, RESEARCH AND TECHNOLOGY CENTER

6  
state universities

3  
national research  
universities

## THE CAPITAL OF THE REGION

**Tomsk** is a small beautiful city with old architectural monuments. One hundred years ago, it was the capital of Siberia. Civilization and wildlife are found side by side here: Siberian taiga starts outside the city.

After Moscow and Saint Petersburg, Tomsk takes the lead among other Russian cities by the percentage of universities ranked among the best universities. The classical university, the polytechnic university, the medical university, the radio engineering university, and the pedagogical university enroll students from all over the world. Moreover, tuition fees in Tomsk are two or three times lower than in Moscow.

Tomsk is a densely populated and safe city with a population of 400,000 people. The historic center is replete with architectural monuments. Modern infrastructure and well-developed transport system make the city livable.

Tomsk is a student city, the center of attraction for talented young people from all over the world. Tomsk is one of the country's leaders by the number of students per head of population. Here you can hear people speaking foreign languages in the streets, cafés, theaters, and museums. Cultural life is in full swing. Creative parties, quizzes, clubs, thematic meetings of like-minded people, and art workshops are attributes of student life.

### Free English-taught course "HOW TO ENROLL IN A RUSSIAN UNIVERSITY"

- The course will familiarize international applicants with the system of admission to Russian universities. It will provide information on all the important steps applicants must take, such as submission of an application form and admission documents, taking exams, getting a visa, and arrival in Russia. Applicants will be able to get detailed information on what and in what order they must do and who they should contact if they have any questions or problems
- The course will help arrange all the admission information and present it in a format that is simple and understandable to international applicants

## HOW TO ENROLL IN A RUSSIAN UNIVERSITY

## PRE-COURSES DEPARTMENT PROGRAMS

- ✓ To pursue the programs, students are not required to have basic knowledge of Russian. They acquire Russian at a level required by Russian universities as well as gain new competencies in one of the chosen study areas.
- ✓ Russian language, language for science, and three major subjects are compulsory subjects to study as part of the course. A set of subjects is developed based on the chosen study area.
- ✓ After students successfully complete the program, they can enroll in general education programs offered by the university.

### PREPARATION OF FOREIGN CITIZENS FOR ADMISSION TO NR TSU

with an adaptation course  
(2,472 hours)

Students additionally take an adaptation course with in-depth study of phonetics.

**Program duration:** September 1, 2023 – August 31, 2024

**Application deadline:** August 31, 2023

**Tuition fee:** 202,000 RUB  
(advanced payment is 101,000 RUB)

### PREPARATION OF FOREIGN CITIZENS FOR ADMISSION TO NR TSU

(2,376 hours)

**Program duration:** October 1, 2023 – August 31, 2024

**Application deadline:** September 30, 2023

**Tuition fee:** 193,000 RUB  
(advanced payment is 96,500 RUB)

### PREPARATION OF FOREIGN CITIZENS FOR ADMISSION TO NR TSU

Prolonged course (3,016 hours)

**Program duration:** February 1, 2024 – August 31, 2025

**Application deadline:** January 31, 2024

**Tuition fee:** 245,242 RUB

#### Study areas:

- humanities
- economics
- engineering and technology
- medicine and biology
- natural sciences

A set of subjects is determined by entrance exams required for admission to one or another university program chosen by the attendee.

**Mode of study** for all programs:  
offline and online

## MASTER OF SCIENCE IN BIOINFORMATICS

As part of the program, students study molecular biology, genomics, and biotechnology as well as mathematics, statistics, programming, and machine learning.

Master's students will master methods of DNA sequencing, data processing, evaluation and interpretation, and biological molecule function prediction. Students will also get interdisciplinary competencies that will allow them to search for, analyze and find solutions to problems in healthcare, medicine, pharmaceuticals, agriculture, and allied areas.

The Agrobiotech Master's program in Bioinformatics is taught completely in English.

The program manager is Muhammad Amjad Nawaz, senior research fellow at NR TSU, who uses genomics, applied bioinformatics, omics technologies, and molecular markers to improve agricultural crops and increase crop yields.

Graduates of the Master's program of the School of Advanced Engineering Studies *Agrobiotech* will be in demand in clinical bioinformatics, precision farming, in silico drug design, genomic data analysis, and other areas of medicine, agriculture and biotechnology.

**Admission requirements** – Motivation letter and interview

**Mode of study** – offline

**Language** – English 

**Duration** – 2 years

**Eurasian Network University** of High-Speed Railways is an open international educational project implemented in cooperation with many top technical universities in Europe and Asia.

**Graduates include** railway transport ministers, political figures, heads of major transport, construction, industrial and research enterprises, well-known scientists, cultural workers.

## INTERNATIONAL ASSOCIATIONS

## FACULTIES

- Automation and Intelligent Technologies
- Transport Construction
- Railway Operation and Logistics
- Industrial and Civil Engineering
- Transport Systems and Power Engineering
- Economics and Management
- Part-Time Studies

## TOP 5 POPULAR FIELDS OF STUDY AND MAJORS AMONG INTERNATIONAL STUDENTS

- Electric Power and Electrical Engineering
- Railway Rolling Stock
- Railway Operation
- International Logistics
- Economics

Rector Oleg Valinsky is visiting Shandong University of Technology (China)

The attendees of the Russian Language Center are on a tour to the Hermitage

### PGUPS RUSSIAN LANGUAGE CENTER

- Russian language preparatory courses for international applicants
- Individual short-term programs
- Special courses for international attendees in cultural studies, literature, stylistics, business communication, the language of mass media
- Summer and winter Russian language schools

#### Tuition fee per month

180 € and more

+7 812 232-61-67

rlc@pgups.ru

The team of the Russian Language Center students is the winner of the Like in Saint Petersburg quest for international students

For two centuries, the university has been a leading scientific and educational center of Russia.

### DOUBLE DEGREE PROGRAMS

Jointly with the leading universities in former USSR countries and other foreign countries, PGUPS delivers the double degree programs in the following fields of study: **Civil Engineering; Management; Economics; Land Transportation and Technological Complexes; Business Informatics; Electric Power Engineering and Electrical Engineering**, and others.

Jointly with Beijing Jiaotong University and other leading Chinese universities, PGUPS delivers the double degree programs in **Chinese**:

- Construction of Railways, Bridges and Transport Tunnels
- Railway Operation
- Railway Rolling Stock
- Train Traffic Support Systems
- Technosphere Safety
- Electric Power Engineering and Electrical Engineering

### PARTNERS

### INTERNATIONAL RELATIONS DEPARTMENT

Provides migration and visa support to international students, and helps them handle organizational problems.

 [t.me/interpgups](https://t.me/interpgups)

Dormitory

## INFRASTRUCTURE

- 15 buildings, 8 dormitories
- Geology and geodesy facility
- Physical Culture House. The sports center with a swimming pool, a gym, halls for team sports, wrestling
- The clinic
- Culture and Recreation Center including a theater studio, a video studio, a vocal studio, KVN team (a famous Russian team comedy competition), fine arts studio, various style dance studios, etc.
- Volunteering center

## SECURITY

PGUPS cares about student security. All university buildings, including the dormitories, are guarded by the security team 24/7 and equipped with video surveillance systems.

## PARENTS BRIDGE

Parent's Account for getting the information on attendance, academic progress, academic, scientific, sports, and other achievements of a student.

### Arya Naradi Iswara, Indonesia

I went to study in Russia under the intergovernmental agreement between the Russian Federation and Indonesia. In the beginning, I studied at the university's Russian Language Center, and only then I entered PGUPS and became a first-year student. Studying was interesting and difficult. If I had any questions or difficulties, I was helped not only by the students but also by the teachers.

I graduated from the university in 2022. I studied at the Faculty of Transport Construction, and my specialization was Construction of Railways, Bridges and Transport Tunnels.

Don't be afraid of anything, come here, the university is always waiting for you!

## POPULAR FIELDS OF STUDY

- Oil and Gas Engineering
- Chemical Engineering
- Economics
- Management
- Informatics and Computer Engineering

International students on an internship

A tour around the university's oil and gas facilities

Self-instruction

## OIL AND GAS ENGINEERING

### Bachelor's programs

- Drilling of Oil and Gas Wells (full-time)
- Operation and Maintenance of Oil Production Facilities (full-time)
- Operation and Maintenance of Gas and Gas Condensate Production Facilities and Underground Storages (full-time, part-time)
- Construction and Repair of Gas and Oil Pipelines and Storage Facilities (full-time, part-time)
- Operation and Maintenance of Transport and Storage Facilities for Oil, Gas and Refined Products (full-time, part-time)

- ✓ Experimental work at the department laboratories
- ✓ Work on onshore and offshore drilling simulators

### Career prospects

- Drilling supervisor, process engineer
- Manager
- Assistant driller, driller, well service operator, oil and gas production operator, operator of booster and cluster pump stations, water and oil pretreatment plants
- Production submanager at oil and gas companies
- Positions at design, engineering and research organizations

**Most international students are sought after by oil and gas companies all over the world.**

## ARRIVAL

Visitors are taken from the airport to the city by

 **Aeroexpress trains** from 470 RUB

 **Taxi** – 1,500 RUB on average

Metro is the fastest and the most comfortable transport in the city. The fare is 50–75 RUB per trip.

It is easy to get to the university, so students arriving in Moscow are met at the university at the address: **65, Leninsky Prospekt, bld. 1, Moscow**. The Akademicheskaya metro station.

Upon arrival, foreign citizens receive comprehensive visa support, but they must get health insurance themselves.

All foreign students are accommodated in the university campus – the comfortable dormitories. Each room accommodates 2-3 persons. The accommodation fee is around 20,000 RUB per year.

**The Week of National Cultures** is an annual event aiming to improve the relationship between the university's ethnic groups. The program includes a photo show of the unique sights of various nations, a quest game, the Guess a Movie contest, an exhibition of national costumes, national cuisines, and a gala concert.

## CAMPUS

- 5 dormitory buildings, over 4,000 places
- A gym, a skiing center, a football field with workout areas, basketball and volleyball courts
- Dance, instrumental, drama studios, a chess club, a movie club, an art studio and a recording studio

### INTERNATIONAL FRIENDSHIP CLUB

The social youth organization familiarizes students with the culture and creativity of various peoples in Russia and foreign countries. The Club works with 22 fellow countrymen associations established at the university. At the beginning of an academic year, they find "their" guys on the list of enrollees and help first-year students adapt to the university and Russia.

## PIROGOV RUSSIAN NATIONAL RESEARCH MEDICAL UNIVERSITY

## EDUCATIONAL PROGRAMS

### Specialist's and Bachelor's programs

- General Medicine (General Medicine major)  
 RU,  EN
- General Medicine (Fundamental Medicine major)
- Pediatrics
- Dentistry  RU,  EN
- Medical Biochemistry
- Medical Biophysics
- Medical Cybernetics
- Pharmacy
- Clinical Psychology
- Employment Psychology
- Social Work
- Biology  RU,  EN

Pirogov RNRMU trains students from foreign countries so that they can pursue higher and postgraduate education at our university or any other Russian university.

## EXAMS

Foreign citizens can apply to the university based on the results of the Unified State Exams, as well as the results of entrance exams held by the university.

All tests (except for entrance tests in a foreign language and tests for those applying for English-taught programs) are conducted in Russian.

## ENTRANCE EXAMS

### Bachelor's/Specialist's/ Master's programs

- computer-based testing (offline or online)

### PhD programs

- in oral and written forms (offline)

### Residency programs

- computer-based testing (offline)

## Tuition fees per year

**Bachelor's and Specialist's programs**  
315,000 – 500,000 RUB

**Master's programs** 250,000 – 370,000 RUB

**Residency programs**  
520,000 – 600,000 RUB

**PhD programs** 410,000 – 450,000 RUB

## **ADMISSION REQUIREMENTS**

- For admission to the first year of study in **Bachelor's or Specialist's** programs, you should submit the document confirming at least secondary general education or secondary vocational education recognized in Russia
- For admission to **Master's** programs, you should submit the document confirming a higher education degree of any level recognized in Russia
- For admission to **residency** programs, you should submit the document confirming at least higher education (Specialist's degree, Master's degree) recognized in Russia
- For admission to **PhD** programs, you should submit the document confirming at least higher education (Specialist's degree, Master's degree) recognized in Russia

## **DOORS OPEN DAYS**

Doors Open Day is the most important event for applicants that helps them get to know the university and its life better, choose a study program, have a talk with the dean of the chosen faculty, and get competent advice on admission from the Admission Office staff members.

Students take an active part in university research. The university organized the Student Scientific Society.

## **DOCUMENTS REQUIRED FOR ADMISSION**

- Application
- Passport or any other document confirming identity
- Visa (for citizens of countries that maintain a visa regime of entry and stay in the territory of the Russian Federation). They should wait for an invitation for visa application – Online form of the “Invitation for Visa Application” request – for at least one month
- Certificate of foreign education recognition in the territory of the Russian Federation if such a certificate is required when submitting the document issued in a foreign state
- Referral from the Ministry of Science and Higher Education to study within the quota established by the Russian Federation Government (if any)
- Copy of medical certificate confirming the absence of medical contraindications to studying, Fluorography picture, HIV, HBs, HCV tests
- Voluntary health insurance policy which is valid in the territory of the Russian Federation
- Notarized translation of all foreign documents into Russian

Invitation for Visa Application

Recognition of foreign education

Main State Center for Education Evaluation

## DISCOUNTS AND AWARDS

- F. Gaaz award for foreign citizens pursuing Bachelor's and Specialist's programs at Pirogov RNRMU
- A personal award in the amount covering the yearly tuition fee: a 100% discount
- Senior students (from the fourth-year) having a 5.0 grade point average in their record book can be eligible for a discount
- 10% if the exams are passed with flying colors

Every year more than 12,000 people study at the university and more than 10,000 people pursue continuing professional education programs here.

## PREPARATORY DEPARTMENT

Every year the preparatory courses of our university bring together attendees from more than 30 countries.

They study the Russian language, physics, chemistry, and biology.

### Tuition fee

**160,000 RUB** crash course, 4 months

**320,000 RUB** complete course, 10 months

Educational programs offered by the Preparatory Department

### **GRAPHICS (COMPUTER GRAPHICS AND ANIMATION ARTIST)**

**Tuition fee:**  
**390,000 RUB per year**

The six-year course of the game design program “Computer Graphics and Animation Artist” includes design of interface, backgrounds, environments, creatures, and characters for computer games and design of animation and graphics for them. 2D and 3D visualizations of game worlds and locations based on the realist school of drawing and painting are created and animated here. While studying, students create both computer game trailers and animated cartoons. The teachers – game industry professionals – are designers in the field of content creation and game levels, directors and animators.

#### **Admission requirements**

- Students can be enrolled within the Russian Government quotas, in state-funded and fee-paying places
- Applicants should submit a portfolio consisting of drawing, painting and composition works, 4-5 for each subject

### **INFORMATION TECHNOLOGIES IN DESIGN**

**Tuition fee:**  
**210,000 RUB per year**

Applicants choosing to study Information Technologies in Design have great prospects. Students pursuing the program acquire 3D modeling skills and learn how to edit videos, program, develop games and applications, create animation, websites and services.

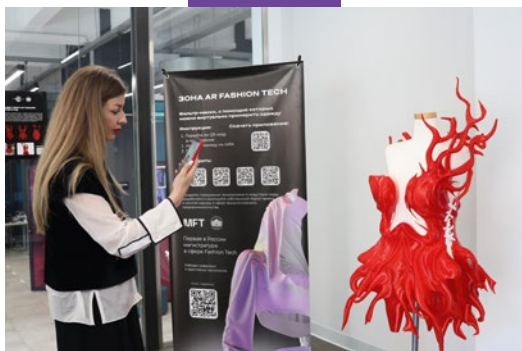

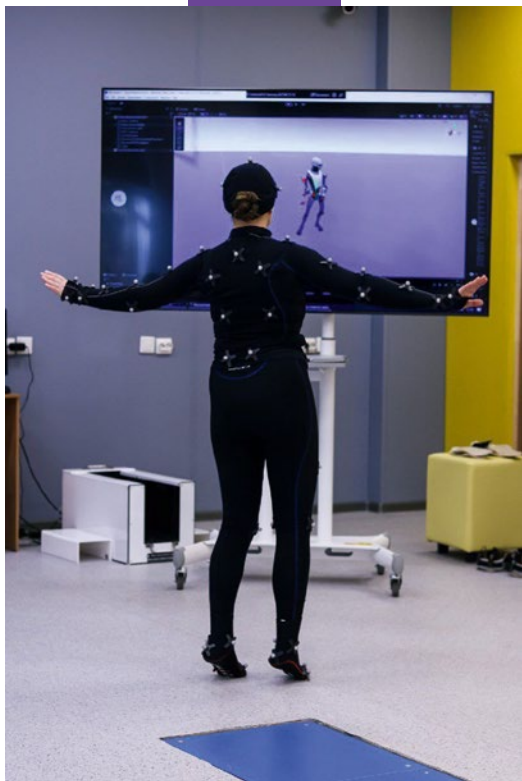

Students begin working on their own projects during their studies. At the university they have access to specialized software for editing photos and videos, creating web content, UX, visualizations and content for social media platforms. They also have access to the studio with professional video and audio recording equipment.

#### **Admission requirements**

- Students can be enrolled within the Russian Government quotas, in state-funded and fee-paying places

## BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT IN FOOTWEAR DESIGN

**Tuition fee:**  
214,000 RUB per year

As part of the Master's program "Biomechanical Analysis of Human Movement in Footwear Design", a university laboratory of scientific biomechanics of movement has been created. It is equipped with a 3D foot scanner, a system of nine optical infrared cameras, two force platforms, and an electromyography system. The laboratory data helps choose individual footwear and rehabilitation footwear. In cooperation with specialists from health clinics, students conduct research on biomechanics of walking in patients with ICP and osteogenesis imperfecta. Students will study and use in their work optical motion capture systems, force platforms, wireless electromyography, 3D scanning and 3D printing as well as master footwear and shoe insole manufacturing technologies. Such an approach allows students to register biomechanical data, analyze loads on joints, spine, and muscles, and build a multi-component foot model.

### Admission requirements

- Students can be enrolled within the Russian Government quotas, in state-funded and fee-paying places

Stay tuned for important events!

## APPLICANT GUIDE

- 1 Check out the list of admission documents available on the university website
- 2 Choose a field of study
- 3 Fill in the application form and submit it within the established deadlines with the package of required documents that includes a passport copy, a diploma copy, migration and visa documents, a foreign education recognition certificate (if necessary), a copy of marriage/divorce/ name change certificate(if any) as well as translations of these documents, and a medical certificate (if any)
- 4 Pass the entrance exam in chemistry and biology
- 5 Keep track of the lists on the university website

 University admission regulations

### The international attendee from Lebanon

I came to Russia in November, and I've been living in Saint Petersburg since that time. I knew that NWSMU named after I. I. Mechnikov is a very good university, and my friends recommended it. I really like the city and the university itself – I was impressed by its beauty and the number of departments.

## PREPARATORY DEPARTMENT

There are two study programs:

- University entrance preparation
- Russian for foreign postgraduate applicants

**Duration:** November 1 – August 31 (including vacation)

-  [youtube.com/@ural.state.medical.university](https://youtube.com/@ural.state.medical.university)

 About USMU

All educational programs underwent **state accreditation**, and the Specialist's programs underwent **international accreditation carried out by ENQA**.

The rate of teachers holding a degree of **Candidate or Doctor of Sciences** is 71%.

 Ekaterinburg, Sverdlovsk Region, Russia

## ENROLLMENT CAMPAIGN

Every year USMU starts its enrollment campaign in **June**.

### Entrance exams

- Depending on the chosen field of study, applicants take three entrance exams. For the programs in General Medicine, Dentistry, Pediatrics, Pharmacy, they must pass biology, chemistry, and the Russian language exams
- Exams are held offline as well as using online proctoring technologies

**More information about the admission procedure and entrance exams is available on the university's official website**

 [www.usma.ru](http://www.usma.ru)

### All cutting-edge and hi-tech diagnosis and treatment methods, which

healthcare in Yekaterinburg and the Sverdlovsk Region are proud of, have been developed, introduced and improved with the participation of university scientists: minimally invasive, robot-assisted surgical operations, brachytherapy, premature baby care, a wide range of molecular genetic techniques, nanotechnologies in dentistry and pharmacy, and a wide range of other methods.

## DOCUMENTS

### When applying, you must submit:

- Your identity document and its notarized translation into Russian
- Foreign academic credential and its notarized translation into Russian
- Legalization/apostille, if required by the law
- Certificate of recognition of the foreign academic credential, if required by the law

You can submit your documents to the Admission Office both **in person** to the address: 17, Klyuchevskaya Street, Yekaterinburg and via **Applicant's Personal Account** on the university's official website.

### ADMISSION OFFICE

✉ [priem@usma.ru](mailto:priem@usma.ru)

### OFFICE FOR INTERNATIONAL EDUCATION AND COOPERATION

✉ [int.dept@usma.ru](mailto:int.dept@usma.ru)

## FACULTIES

- Faculty of General Medicine
- Faculty of Preventive Medicine
- Pediatric Faculty
- Faculty of Dentistry
- Faculty of Psychology and Social Work and Nursing Education
- Pharmaceutical Faculty
- Faculty of International Students
- Faculty of the Advanced Training and Professional Retraining of Specialists

The information about Doors Open Days is posted on the official website [www.usma.ru](http://www.usma.ru)

## POPULAR PROGRAMS

Among all these diverse programs, international applicants show the greatest interest in the **bilingual programs in General Medicine and Dentistry**. The special thing about them is that classes for first-year and second-year students are conducted in English 🇬🇧.

## PREPARATORY FACULTY

USMU has the Preparatory Faculty for applicants who do not speak Russian.

**From November to June**, attendees study Russian as well as chemistry and biology. Besides, prospective students get acquainted with the Russian culture and traditions and adapt to independent life.

After completing the course, attendees get a **certificate** of completion of the general preparatory course in medicine and biology.

## RUSSIAN LANGUAGE COURSES

The university enrolls students from different countries and ethnic groups. But neither language background nor the prospective students' previous environment influence the speed of learning Russian. The earlier attendees of the Preparatory Faculty start studying it and the harder they study in the classroom and outside it, the better their Russian will be by the end of study.

**The most difficult thing about learning Russian is mastering grammar –correct spelling.** As practice shows, students who can read and speak Russian quite well, can have some text writing problems. To neutralize this problem, the university offers additional Russian language courses for degree program students in their first years of study.

**As they say in Russia, slow and steady wins the race!**

Despite the content and complexity of the educational programs for medical students, **the university helps them develop** not only as professionals but also as all-round persons.

USMU supports scientific, creative and sports associations. Our students participate in national and international contests, conferences and competitions at the leading Russian scientific centers—**Sirius, Innopolis**, and others.

Healthy lifestyle promotion is an integral part of medical education, and the university itself is a territory free of bad habits, where sport is considered a second profession of a doctor.

**We will be happy to see you among our university students!**

## SOUTHERN FEDERAL UNIVERSITY

Founded in 1915

**26,000+**  
students

**3,000+**  
international students  
from 87 countries

**250**

Apply in Personal Applicant's Account

Take a sample test

## PREPARATORY DEPARTMENT

The Division of Russian as a Foreign Language and General Courses for International Students (Preparatory Department) delivers supplementary general education programs preparing foreign citizens for professional educational programs in Russian.

The study program includes courses in Russian as a foreign language, language for science, general subjects.

### Study areas

- humanities
- economics
- natural sciences
- engineering and technology
- medicine and biology

**Duration** 2 semesters

**Tuition fee** 135,000 RUB

At the end of the academic year, students take Russian language exams and exams in major subjects. After students successfully pass final exams, they obtain certificates confirming that they have successfully mastered the supplementary general education program.

Besides studying general subjects, students can additionally attend linguocultural studies lectures on traditions, customs and history of Russia, master classes and special courses.

## INTERNATIONAL SUMMER SCHOOL OF RUSSIAN LANGUAGE AND CULTURE

The summer school is held annually and offers its attendees various learning modules.

### The program includes:

- Intensive language course
- Introductory cross-cultural program: sightseeing of the Don capital and the region
- Educational outreach activities
- Cultural and entertainment activities
- The Russian Club workshop classes

## CAMPUS

SFedU offers its students comfortable apartment-type dormitories. There are playgrounds, a library, and reading rooms on the campus, and student cafés.

## INFRASTRUCTURE

Most SFedU faculties and institutes are located in the city of Rostov-on-Don – a beautiful city with the richest heritage, the largest industrial and cultural center on the banks of the picturesque Don River.

SFedU engineering faculties are located in the city of Taganrog, which is situated on the shore of the Taganrog Bay of the Azov Sea.

### SFedU students can use:

- E-library
- Engineering centers
- Olympic-size swimming pool
- Student International Club

SFedU campus is a guarded facility with security cameras and staff all around.
