“That friendship is strong that is sealed by deed”

This Russian saying reflects the main mission of Rossotrudnichestvo most briefly but precisely...

If you want to get to know the culture and traditions of Russia better, or learn Russian, or get an education at Russian universities, or just learn more about the largest country in the world and find new friends here, inquire whether your country has a Russian House and be welcome there.

In the meantime, we will introduce you to the head office of all the Russian Houses in the world - the Rossotrudnichestvo agency located in Moscow.

Rossotrudnichestvo is a federal state agency that mainly aims to promote the humanitarian and cultural values of Russia internationally. The agency is represented in 62 countries by 73 offices – Russian centers of science and culture abroad that are informally called the Russian Houses.

The main areas of activity:

- support of international cooperation in education, science, and culture
- popularization of the Russian language in the world
- cooperation with non-governmental organizations of compatriots living abroad, etc.

Official website of Rossotrudnichestvo

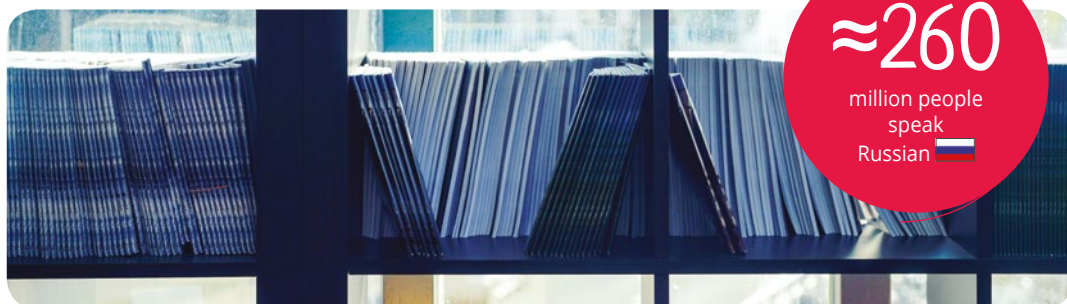

Russia ranks among the world's top 5 most attractive countries for international students.

Rossotrudnichestvo actively promotes education in Russia through the Russian Houses that organize educational fairs in their countries of operation, give necessary consultations to prospective applicants wishing to study in Russia, help in mastering Russian, and assist in selecting and sending compatriots living abroad and foreign citizens to study in the Russian Federation.

Today there are around 400,000 international students in Russia, including 30,000 studying for free within the Russian Government quota. Rossotrudnichestvo is a single operator in the process of annual selection of international applicants to study for free within the government quota.

The Russian language – one of the six official languages of the UN – is the world's eighth most spoken language – it is spoken by around 260 million people.

Rossotrudnichestvo provides the most diverse comprehensive support in popularizing, learning and teaching the Russian language abroad – from free supplies of educational and methodological literature, non-fiction, and fiction to the Russian language courses organized by the Russian Houses and attended by thousands of people in many countries today.

Today, more than a million graduates of Russian and Soviet universities successfully work in 170 states.

Starting from the middle of the 20th century, the universities in the USSR and then in the Russian Federation have trained several generations of international specialists. Many of them have become eminent public figures and politicians such as presidents (Guyana, Azerbaijan, etc.), prime ministers (Kazakhstan, Guinea-Bissau, etc.), ministers (Guyana, Mali, Rwanda, etc.), and ambassadors (Brazil, Angola, Ethiopia, Jordan, Syria, Rwanda, Benin, Burkina Faso, etc.). Among the graduates are many senators and deputies of national parliaments, heads of governmental institutions and commercial companies. Today, thousands of international graduates of Russian universities are the scientific and teaching elite of their countries.

Rossotrudnichestvo cooperates with national associations and clubs of graduates of Russian and Soviet universities organized in more than 80 countries. Graduate associations are efficient platforms to implement joint initiatives and projects and establish and support trustworthy business, scientific, and creative contacts.

World Youth
Festival

In March 2024, the city of Sochi in Russia was the venue of one of the most large-scale youth events in the world – the World Youth Festival.

The festival brought together 20,000 participants – Russian and international young leaders in business, media, international cooperation, culture, science, education, volunteering and charity, sport, and various fields of public life.

Rossotrudnichestvo, an organization with great experience in implementing international youth projects, took part in preparation for the festival and the post-festival work.

Besides, the agency invites around 2,000 people to Russia every year as part of popular projects “Hello, Russia!” and “New Generation.” These are the programs of short-term familiarization and educational tours to Russia for young compatriots living abroad as well as for young active people – politicians, young researchers, business people, and volunteers from all over the world.

Migration regulations:

from invitation to entry

Coming to study in Russia is inextricably linked with the rules for crossing the borders and staying in Russia. Voluntary or involuntary violation of these rules can lead to rather serious consequences, including deportation, so it is very important to get acquainted with them beforehand. Now we are going to tell you about the migration procedures.

INVITATION FOR ENTRY AND STUDENT VISA

When you have submitted your documents to the chosen university and received a confirmation of enrollment, it is high time to have your visa documents executed. To obtain a student visa, you will need an invitation. To get an invitation to enter the Russian Federation, you must write an email to the university where you are going to study.

When you get the invitation, you should contact the Russian Consulate in your country to apply for a student visa.

NB

- The invitation processing time can vary from university to university and take up to 60 days.
- The passport must be valid for at least 18 months from the visa commencement date.

MIGRATION REGISTRATION

Upon arrival in Russia, all international students must get migration registration. According to Russian legislation, foreign citizens are registered at their actual place of residence. It means that if you plan to live in the university dormitory, you must contact for registration the university's International Office **on the following working day after you arrive at the campus.**

Required documents:

- passport
- visa (if necessary)
- migration card

If you plan to live in a hostel or rental apartment, you should contact the hostel administrator or apartment owner for registration.

NB

- The registration procedure is **mandatory.**
- According to Federal Law № 109-FZ of July 18, 2006, registration must be done **within seven working days of the day of arrival.**

MEDICAL CERTIFICATION AND BIOMETRICS

Starting from December 29, 2021, foreign citizens must undergo the procedures of medical **certification and fingerprinting and photographing**. You must do this within **90 days of your entry** into the Russian Federation.

Medical certification is a **yearly** procedure. Foreign citizens must undergo repeated medical certification within 30 days of the expiration date of the previous medical documents.

Mandatory fingerprinting and photographing is done **once and free of charge**.

You can get all the detailed information on the mandatory procedures from the university's International Office.

NB

Non-compliance with the legislation requirements in this case can reduce the period of your stay in Russia or even be a reason for deportation.

TEMPORARY RESIDENCE PERMIT

Starting from January 1, 2023, international students can get temporary residence permits for education (RVPO). An RVPO is issued for the period of study and 180 calendar days following graduation.

What are the benefits of an RVPO?

- The opportunity to enter Russia and leave it many times without a visa
- Employment in Russia without a patent or work permit
- Free medical care under the mandatory health insurance program
- The opportunity to do business
- The opportunity to obtain a permanent residence permit after graduation

Conditions for obtaining an RVPO

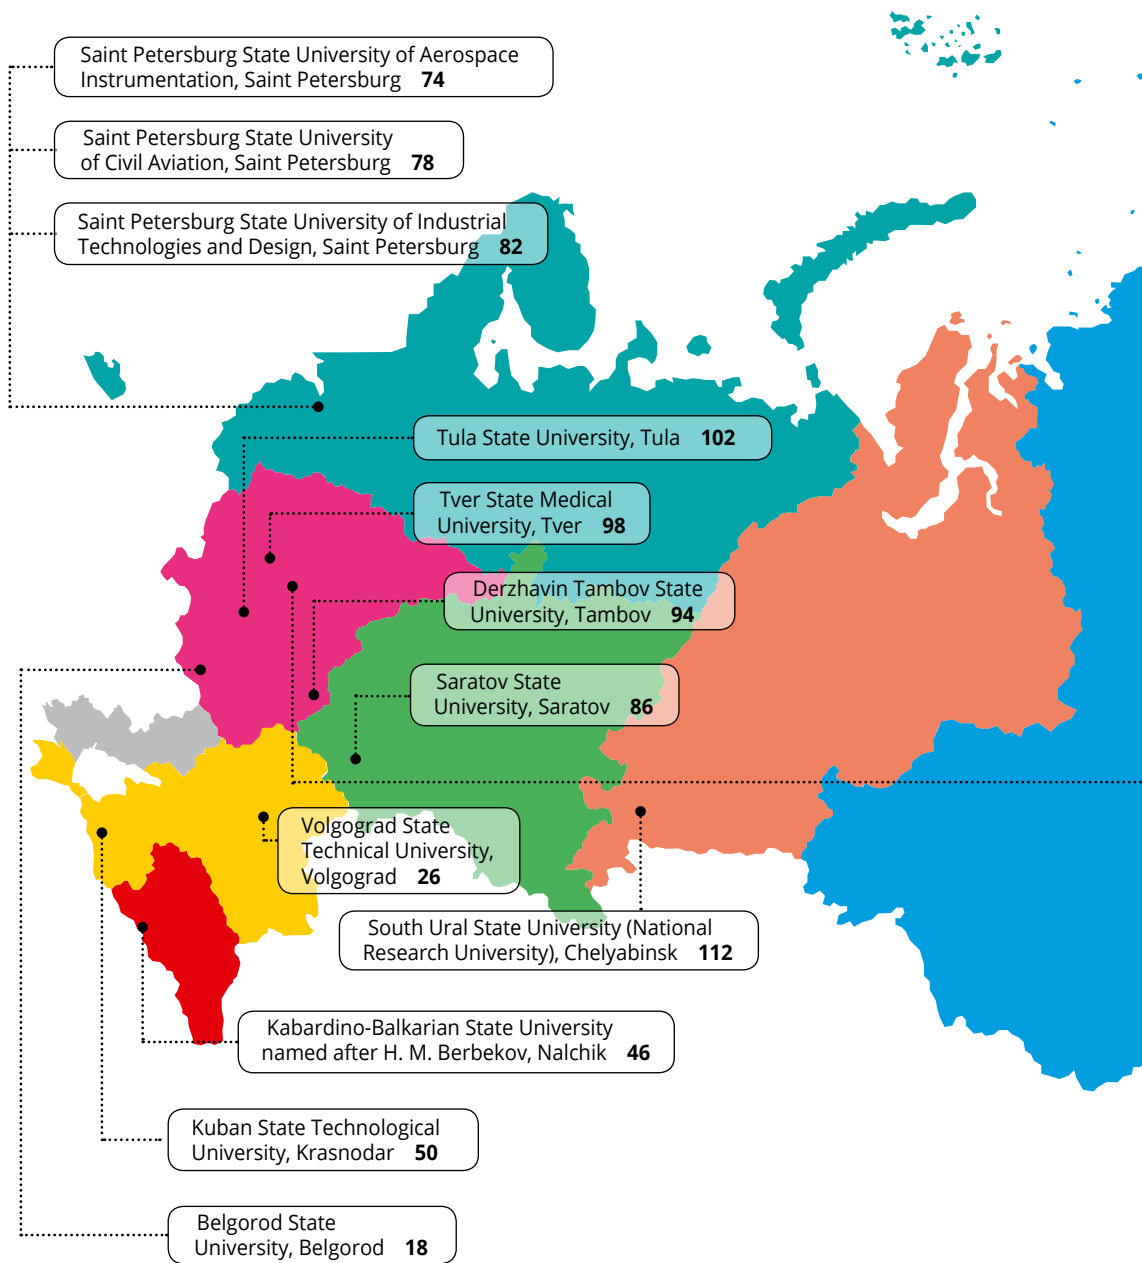

- Studying at a state educational or scientific organization
- Full-time study
- Pursuing internationally accredited Bachelor's, Specialist's, Master's, residency, apprenticeship programs or academic staff training programs (PhD programs or postgraduate military course)

In recent years, Russia has been making great efforts to optimize and simplify migration procedures for international students using the State Services electronic services in particular. The main thing is to be aware of the rules, rights and responsibility and meet the deadlines for undergoing necessary procedures.

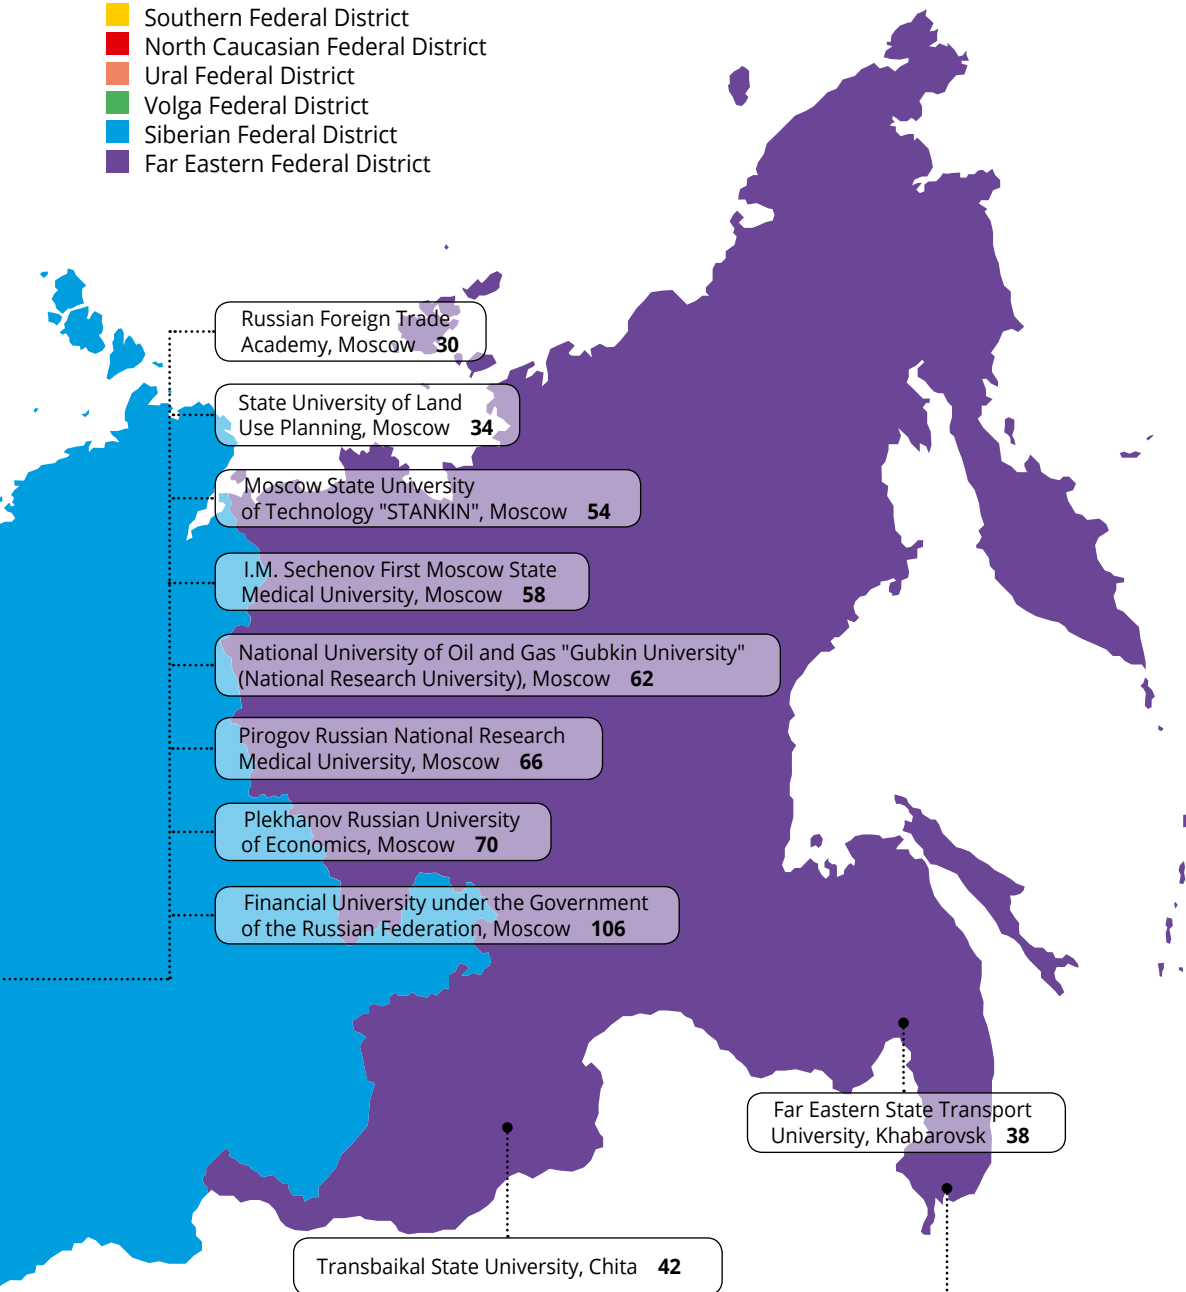

The content has been prepared with the participation of Vladivostok State University.

PREPARATORY FACULTY

For admission to the Preparatory Faculty, you only need to submit your passport with its certified translation into Russian.

At the Preparatory Faculty, students study not only the Russian language but also major subjects that will be required for admission to the chosen study program at the university.

The extracurricular life of the Preparatory Faculty students is full of events and activities:

- To familiarize students with the culture, history and traditions of Russia, the faculty organizes tours to museums, folk art centers, and historic sites in Belgorod and the Belgorod Region
- During the academic year, the faculty holds creative contests and thematic parties
- Every year the faculty holds the International Olympiad in Russian as a Foreign Language as well as multidisciplinary Olympiads
- The MIX International Intellectual Student Club is a discussion platform where students can express their opinions of socially significant educational issues and share their research projects

Tuition fee 1,900 USD

ARRIVAL AND ADAPTATION

- ✔ **Meeting students at the airport and accompanying them to the university, assistance in executing documents and getting health insurance, assistance in checking in at the dormitory** are arranged by joint efforts of the specialists from the Department of International Cooperation, tutors, international student support specialists at the institutes as well as active members of relevant student associations.
- ✔ The Department of Registration, Accommodation and Visa Support provides comprehensive assistance in searching for and choosing **rented accommodation**.
- ✔ The Preparatory Faculty has tutors who familiarize students with the rules and regulations of staying in Russia, city and university and help them solve medical care provision issues, mental health issues, etc.
- ✔ There is a system of **buddy volunteers** for degree program students.
- ✔ For international students, NRU "BeISU" creates platforms for communication, creativity, and cultural interchange: these are **the Cross-Cultural Communication Center, the Peoples' Friendship Center, the Chinese Language and Culture Center, and the Arabic Language and Culture Center**.

Graduates of NRU "BeISU" easily find their place in the world, build a career, and become respectable members of society.

Guerreira Perez Saul Santiago, a graduate of the Institute of Cross-cultural Communications and International Relations of NRU "BeISU," an active member of the Peoples' Friendship Center and the Cross-Cultural Communication Center of NRU "BeISU," and Head of the Spanish Speaking Club of NRU "BeISU"

After completing my Master's thesis, I will continue my studies to gain some additional knowledge in other areas that will serve me in the future. Now I am working at the International Information Center, but, besides this, I am also planning to create a company that will develop cooperation between my country and Russia.

As for new students, I wish them to be self-confident and set themselves an ambitious and unusual goal despite all the difficulties they have to face every day.

PRE-UNIVERSITY TRAINING AND ADAPTATION

International applicants who do not speak Russian can enter the preparatory faculty to study the Russian language and the culture and history of the Russian Federation. After successful completion of the language course, applicants get a standard certificate and the right to continue their education by pursuing Bachelor's and Master's programs.

Three study areas:

- Economics
- Humanities
- Engineering

Distribution by study areas allows students to prepare for further studies in the chosen field.

The VVSU Preparatory Faculty starts with a traditional meeting at Vladivostok Airport. This is the first acquaintance with the city, teachers, compatriot students, and graduates of the Preparatory Faculty.

The teachers at the Preparatory Faculty take into account different levels of beginners' preparation and that is why they fill their lessons with creative tasks and use interactive types of activities. For example, songs in Russian can be often heard in the classroom, and students watch movies and play role-playing and business games.

Starting from the first days, students not only attend classes but also take an active part in public life. Teachers and advisors familiarize students with the fundamentals of Russian culture and give Russian cuisine master classes.

The preparatory faculty life goes beyond the university walls. Guided museum and sightseeing tours in the city have become a tradition. Students get unforgettable experience when visiting the opera and ballet theater, the oceanarium, and the safari park.

Duration: 1 year

For more information on the admission requirements and tuition fees for the academic year 2024/2025, contact the university at international@vvsu.ru.

UNIQUE CAMPUS

WVSU takes special pride in the campus which is located in the center of Vladivostok.

The special thing about the campus is that all educational buildings, dormitories, the theater and concert center, the advanced health clinic, the sports center, stores and canteens are connected by the general system of crossings. In bad weather or cold winter, there is no need to go outside because you have everything at hand.

The university is surrounded by the fantastic territory. Its concept is history, philosophy, and ecology. Here you can enjoy amazing compactness of the Japanese stone garden, the beauty of relic plants in the Ussuri taiga and visit Russia's first monument to poet Osip Mandelstam. The campus open for the city people is one of the favorite places of Vladivostok residents.

HEALTH

The main building of the university has the Lotos Clinical and Diagnostic Center

Students can contact Lotos regarding:

- acute issues such as fever, respiratory diseases, abdominal pains, skin rash, and small emergencies
- high blood pressure
- preventive healthcare such as medical examinations
- X-ray and ultrasound
- dental services

INTERNATIONAL SUMMER SCHOOL

“International Cooperation: Negotiating and Doing Business in Russia”

The International Summer School is a great opportunity to combine visiting one of the world’s best cities with studying the Russian language and the history and economy of Russia. You will get a unique opportunity to improve your skills in negotiating and communicating with people from different cultures. The leading experts in this field will give you feedback and recommendations on how to improve your presentation skills.

Who can participate: Russian and international students with a knowledge of English (B2) pursuing Bachelor’s, Master’s, and PhD programs

Dates: August 2-16, 2024

Venue: 6A, Vorobyovskoye Highway, Moscow

The study program includes the following courses:

- negotiating
- Russian as a foreign language (A1-B2)
- Business English
- lectures on Russian economy and doing business in Russia
- master classes on design thinking and cross-cultural communication
- sightseeing in the city of Moscow

Application deadlines:

- for visa countries – June 1, 2024.
- for visa-free countries – July 1, 2024.
- Participant registration:
www.rftasummerschool.vavt.ru

The State University of Land Use Planning (the SULUP) is managed by the Educational and Methodological Board. The university has the Center for Strategic Development of Agrarian Education and the Analytical Center for Academic Policy in Agribusiness.

Today the SULUP is a flagship in the development and introduction of educational standards for the main major field of study "Land Use Planning and Cadastres".

The university trains personnel for state and municipal authorities that manage land use planning in Russia.

Being a pioneer of new interdisciplinary breakthrough areas of land use planning science, the SULUP implements full-cycle research projects: from scientific ideas and fundamental research to sales of products and services in the real sector of the economy.

The university is creating an international center for academic leadership in land use planning for delivery of new joint Bachelor's and Master's double degree programs with international partners.

CLUSTER OF UNMANNED AERIAL VEHICLES "SFERA"

On the territory of the Chkalovskiy Agro(bio) Technological Park, the university is creating a cluster of unmanned aerial vehicles (UAV) "Sfera" that will have been ready by 2030.

The project is aimed at:

- training of highly qualified UAV personnel
- aircraft certification
- development of intelligent systems for UAV
- monitoring based on UAV and neural network algorithm

The algorithms are expected to be developed based on computer vision for various purposes, including work on autonomous systems and monitoring of woodlands, main transport routes, and other extended objects. Besides, the UAV cluster "Sfera" is launching manufacturing, assembly, repair and maintenance of aircraft. And, in the short term, the cluster will open a youth design office, a research and training center, a conference room, and classrooms.

Videos about student life

The State University of Land Use Planning

is a university with proud history, tasked with the preservation of historical heritage. The museum complex, including the SULUP Museum of Land Use Planning History and its branches, the SULUP chapel, the library complex and archival repository, is unrivaled throughout the world. It boasts unique exhibits showing the development of land surveying and land use planning from Ancient Rus' to the present day.

In 2019, the Alley of Fame was created. Here you can see the bronze busts of

- outstanding scientists-Professors I. German and S. Udachin
- Minister of Public Education of Imperial Russia V. Glazov
- graduate and later Director of Konstantinovskiy Land Surveying Institute I. Iveronov
- graduate of Moscow Land Surveying Institute Boris Talantov who was beatified by the Russian Orthodox Church Outside Russia as New Martyr and Confessor of Russia
- Minister of Land and Natural Resources of China Ma Kewei
- Prime Minister of Mongolia Janlavyn Narantsatsralt
- Deputy Chairman of the Russian Government, the RF Minister of Agriculture Viktor Khlystun
- Chairman of Majlisi (Parliament) of the Republic of Tajikistan Shukurjon Zuhurov

At the initiative of Interim Rector Timur Papaskiri, the SULUP opened a lecture room dedicated to the memory of Professor Aleksei Maslov and named after him

Aleksei Maslov is a pioneer of various applied geodesy areas: geodetic survey in land use planning and amelioration and topographic and geodetic survey for agriculture. He is the author of more than 140 scientific papers published in Russian, English, Polish, Bulgarian, and Chinese languages. Among the 26 PhD students and eight doctoral students, who worked under his supervision, were people from Belarus, Tajikistan, Turkmenistan, Uzbekistan, and Ukraine. Every year, three best students of the State University of Land Use Planning are awarded Professor Maslov Scholarships.

ADMISSION

Foreign citizens have the right to study at FESTU for free in places **funded** by the Russian Federation as well as **on a contract basis**.

Students get scholarships for academic excellence, scientific, creative and sports achievements, and active participation in student self-government.

Admission regulations

Fomba Yacouba*, a student at the Preparatory Department from Mali

I am the first Malian student at FESTU. And I arrived in Khabarovsk purposefully to study at the FESTU Preparatory Department. The opportunity to study so far from home is a very important thing in my life. I hope that living in Khabarovsk will help me not only to master Russian but also to learn more about the cultural traditions of Russia.

Students from China are decorating a New Year tree

Students from Afghanistan

* **Fomba Yacouba** is 23 years old. In 2020, he graduated from the prestigious educational institution Lycee Fily Dabo Sissoko in his home country. He is studying at the FESTU Preparatory Department "Russian Language Center" within the Russian Government quota. Later, he is planning to continue his education by pursuing a degree in Chemistry at Far Eastern Federal University in the city of Vladivostok.

SPECIAL ASPECTS OF LEARNING RUSSIAN AT FESTU

- Highly qualified teachers of Russian as a foreign language
- System approach
- Connection between theory and practice
- Comprehensible course content
- Individual approach
- Using visual aids

PREPARATORY DEPARTMENT "RUSSIAN LANGUAGE CENTER"

Supplementary general education program
(2 semesters)

Study areas

- Engineering
- Technology

Tuition fee per year
150,906 RUB (1,588 USD)

Students from China, Mongolia, Afghanistan, Somalia, and Mali are studying at the Russian Language Center today.

RUSSIAN LANGUAGE COURSES

In the 2023/24 academic year, the tuition fee for the Russian as a Foreign Language programs is calculated individually, depending on the number of students in a group, learning goals, and the number of program hours.

Head of the Center
Antonina Rudenko

☎ +7 4212 40-72-04 ✉ rudenko@festu.khv.ru

HOW TO OVERCOME DIFFICULTIES WHEN LEARNING RUSSIAN

- Communicate with native speakers
- Watch movies and read books in Russian
- Don't be afraid of everyday communication (shopping, going to hairdresser's parlors or barbershops, etc.)

LANGUAGE LEARNING GAMES HELP CONSOLIDATE THE LEARNED LANGUAGE RULES AND NORMS

- Games create a relaxed atmosphere that most closely resembles the real communication situation where students fulfill their communicative potential to the fullest extent possible and overcome the language barrier that way.
- A favorable atmosphere is created in the classroom.
- Russian language learning games help students relax and relieve emotional stress.
- Games are a group activity that considerably increases the volume of students' oral activities.
- Teachers use entertaining games mainly aimed at changing the activity type.

AN EXAMPLE OF THE ACTIVE USE OF THE GAME IN LEARNING RUSSIAN

A free dictation is a dictation where the teacher dictates the text by parts, and students render the text by the teacher freely rather than word for word. Free dictations help introduce specific vocabulary and various syntactic structures into the speech practice of international students. Free dictations are more effective than rendering with a grammar task as the author's text rendered by parts has a greater influence on international students' speech.

Chinese students at the Amurfest Festival

International students on a skating rink

Chinese students in the library

Chinese students are attending a soccer match

WHEN MOVING TO Khabarovsk to study at FESTU, you should remember that:

The direct distance between Khabarovsk and Moscow is 6,100 km, while the distance between Khabarovsk and the Chinese city of Fuyuan is only 65 km. Khabarovsk picks up several Chinese TV channels, and you can even see the territory of China from the high cliff on the Amur River.

The average yearly temperature in Khabarovsk + 2.4 °C. The temperature peaks have been updated quite recently:

- 40.0 (January 14, 2011) for winter and + 36.7 (June 2010) for summer. Meanwhile, Khabarovsk is located on the same latitude as the city of Sochi.

Khabarovsk is one of the champions in the number of sunny days per year among the major Russian cities. The sky over the capital of the Russian Far East is cloudless 300 days a year.

The Khabarovsk Bridge and the Amur Cliff with the monument to Count Muraviev-Amurskiy are depicted on the 5000-ruble banknote, which is the largest denomination in Russia at the moment.

KHABAROVSK INTERNATIONAL SUMMER AND WINTER SCHOOLS

Main programs:

- Intensive Russian language course
- Russian language plus a professional module (Civil Engineering, Management, Logistics)
- Familiarization with Russian culture
- Ethnic cuisines of the peoples of Russia

The course fee is calculated individually based on the number of students.

PREPARATORY DEPARTMENT

TSU offers foreign citizens courses in Russian as a foreign language to prepare them for admission to degree programs.

Study areas

- Economics
- Medicine and Biology (enrollment with the opportunity to study at Chita State Medical Academy)
- Humanities
- Culture, Arts, Creativity

Duration: 6-12 months

Tuition fees 42,500 – 85,000 RUB

The Preparatory Department offers:

- a flexible schedule and lower tuition fees compared with other universities
- intensive and game-based learning
- learning the Russian language through exploring Russian culture
- excellent results of the final test following the course completion

The Preparatory Department students are accommodated in the dormitory.

**Accommodation fee
5,500 RUB per month**

After completing the course, students can take a test in Russian as a foreign language. If the students pass the test successfully, they can obtain a state-recognized certificate confirming a certain level of Russian language proficiency and then apply for Bachelor's, Master's, and PhD programs at TSU.

University
video

ADAPTATION

The university staff members:

- ✓ meet students and accompany them to the university
- ✓ help with documents and health insurance
- ✓ help with accommodation
- ✓ provide comfortable study and living conditions

Starting from the first year of study, international students take an active part in the university's social, mass cultural and research life. All students can take advantage of a whole world of new opportunities, including more than ten sports clubs, dancing, singing, media center, volunteering, student canteens, coworking areas, and libraries

About Chita

WHY TSU?

- ✓ High-quality education at an affordable price
- ✓ Education based on cutting-edge research taking into account the current requirements and needs of the job market and industry
- ✓ A wide range of sought-after majors allows students to get a profession of the future – IT, power engineering, civil engineering, mining engineering, contemporary art, international trade, law, business, pedagogy and psychology
- ✓ Great experience in training personnel for major Russian and international companies
- ✓ The international student support system at the university: the Russian Government scholarship, adaptation activities and tutor support, the international office
- ✓ The comfortable and safe city located in one of the most beautiful regions of Russia
- ✓ The small hospitable city is conducive to studies and will surprise you with Transbaikalian people's geniality

ENROLLMENT CAMPAIGN

To apply to MSUT "STANKIN," you must fill in the application form using a QR code and give your contact details, and the specialist from the Center of International Cooperation will contact you.

The procedure for preparing required documents is determined for each international applicant individually.

More than 75% of graduates, and more than 95% of IT graduates in particular, work in their degree field.

Apply

STANKIN is traveling

MSUT "STANKIN" Olympiads

PREPARATORY DEPARTMENT

Since 1952, MSUT "STANKIN" has been successfully developing the Preparatory Department for foreign citizens wishing to learn Russian and enter our university or other universities and colleges in the Russian Federation.

Over almost 70 years, the university has developed highly qualified academic staff having not only professional competencies in scientific fields, but also extensive experience of working with foreign citizens who do not speak Russian.

Study areas:

- **Engineering and Technology**
Courses in Russian Language, Mathematics, Informatics, and Physics
- **Economics**
Courses in Russian Language, Mathematics, History, and Social Science
- **Chemistry and Biology**
Courses in Russian Language, Chemistry, Biology, and Physics

Tuition fee: 79,000 – 220,000 RUB

RUSSIAN LANGUAGE COURSES

The university offers the **Russian Language: Advanced Level** program for foreign citizens wishing to improve their Russian language proficiency.

Duration: 5-11 months

SUMMER SCHOOL

Every year the university organizes the Russian Language Summer School that offers short-term courses for students from all over the world wishing to improve their Russian language proficiency.

The program includes educational activities, sightseeing tours, and entertainment events.

The school works **offline** in June and July. After completing the school program, participants obtain a **certificate**.

Duration: 4–10 weeks depending on the learning schedule

Tuition fee: 52,000 RUB

Program title	Duration	Tuition fee	Enrollment period
Foundation program (in-depth course)	8 months – 1.5 years	148,000 – 249,000 RUB	all year round
Language internship (the minimum language proficiency level is A2)	8 months	135,000 RUB	until December 1
Russian Language: Advanced Level	5-11 months	91,000 – 182,000 RUB	all year round

INTERNATIONAL OLYMPIADS FOR ADMISSION

'MOCT'

Multidisciplinary Olympiad for School Students

All participants get a 10% discount for the entire period of study.

Subjects: Russian language, mathematics, physics, chemistry, informatics, and social science.

My Career

Multidisciplinary Olympiad for Master's Degree Applicants

The winners are entitled to Master's studies funded from federal budget resources.

All participants get a 10% discount for the entire period of study.

 mycareer.stankin.ru

REQUIRED DOCUMENTS

- Applicant's identity document
- Citizens of the countries that maintain a visa regime with Russia must get a visa first
- Original foreign document confirming the level of education and (or) qualification (or its copy certified according to the established procedure) and transcript
- Foreign document confirming the level of education and (or) qualification and transcript translated into Russian
- Duly executed medical records confirming that the applicant has no contraindications to studying at university
- 6 photos (matte, 3×4 cm) and 6 photos (matte, 2×3 cm)
- The amount of money sufficient to pay tuition and accommodation fees (for 1 year), health insurance policy

“

Do Thi Le, Vietnam. The Preparatory Department attendee

Thanks to the Multidisciplinary International Olympiad for Master's Degree Applicants "My Career" in which I was lucky to participate in 2022, I managed to get the Russian Government quota to study at MSUT "STANKIN" for free.

PREPARATORY COURSES FOR FOREIGN CITIZENS

Subjects:

- Russian as a Foreign Language
- Biology
- Chemistry
- Physics
- Mathematics

Duration: 7 or 11 months

✉ prepcourse@staff.sechenov.ru

The University students have the opportunity to pursue Specialist's, Bachelor's, and Master's programs **in interdisciplinary priority areas** (collaboration of medical and engineering areas):

- Bioengineering and Bioinformatics
- Medical Biochemistry
- Medical Biophysics
- Biotechnology
- Industrial Pharmacy
- Information Systems and Technologies
- Intelligent Systems in Arts and Humanities
- Mechanics and Mathematical Modeling
- Materials Science and Engineering
- Nanomaterials

Languages of instruction:

Russian  / English 

Mode of study: offline

ENTRANCE EXAMS

Sechenov University holds online entrance exams for international applicants.

The content of entrance exams is determined by the desired degree level and field of study.

To apply for the most popular educational programs, applicants take computer-based tests in Chemistry, Biology, Physics, or Mathematics.

NB

Applicants are allowed to choose the language of the exam - Russian  or English .

The list of entrance exams is available on the official website of Sechenov University:

Tip: to take the exam, applicants will only need a desktop computer or laptop and a stable internet connection.

**Tuition fees per year
from 189,000 RUB**

OLYMPIAD

The All-Russian Sechenov Chemistry and Biology Olympiad for School Students provides international applicants with the unique opportunity to study at Sechenov University for free.

Who can participate?

- Biology: 5-11th graders
- Chemistry: 8-11th graders

The winners and prize-winners of the Olympiad get the opportunity to study for free and get a monthly academic scholarship.

NB The language of the Olympiad is Russian .

SCHOLARSHIPS

International students of Sechenov University can also study in state-funded places.

UNIVERSITY LIFE

Starting from the first year, students get a feel for the university's traditions, adopt accumulated knowledge and culture, and participate in sports and creative activities, including Olympiads, dancing parties, contests, and theatrical performances. Sechenov University has a summer camp located at the Black Sea shore.

Favorite festivals of international students:

- Student initiation ceremony
- Beauty and Talent Contest "Miss Sechenov University"
- Sechenov University Ball
- Festival "Spring at Pirogovskaya"

Sechenov University offers a high-quality, world-class education recognized by the world professional community.

COUNCIL OF FELLOW-COUNTRYMEN ASSOCIATIONS

- ✓ unites international students of Sechenov University and carries out large-scale activities in eight areas, including science, charity, and sports.

POPULAR FIELDS OF STUDY

- Oil and Gas Engineering
- Chemical Engineering
- Economics
- Management
- Informatics and Computer Engineering

OIL AND GAS ENGINEERING

Bachelor's programs

- Drilling of Oil and Gas Wells (full-time)
- Operation and Maintenance of Oil Production Facilities (full-time)
- Operation and Maintenance of Gas and Gas Condensate Production Facilities and Underground Storages (full-time, part-time)
- Construction and Repair of Gas and Oil Pipelines and Storage Facilities (full-time, part-time)
- Operation and Maintenance of Transport and Storage Facilities for Oil, Gas and Refined Products (full-time, part-time)

- ✓ Experimental work at the department laboratories
- ✓ Work on onshore and offshore drilling simulators

Career prospects

- Drilling supervisor, process engineer
- Manager
- Assistant driller, driller, well service operator, oil and gas production operator, operator of booster and cluster pump stations, water and oil pretreatment plants
- Production submanager at oil and gas companies
- Positions at design, engineering and research organizations

Most international students are sought after by oil and gas companies all over the world.

ARRIVAL

Visitors are taken from the airport to the city by

 **Aeroexpress trains** from 470 RUB

 **Taxi** – 1,500 RUB on average

Metro is the fastest and the most comfortable transport in the city. The fare is 50–75 RUB per trip.

It is easy to get to the university, so students arriving in Moscow are met at the university at the address: **65, Leninsky Prospekt, bld. 1, Moscow**. The Akademicheskaya metro station.

Upon arrival, foreign citizens receive comprehensive visa support, but they must get health insurance themselves.

All foreign students are accommodated in the university campus – the comfortable dormitories. Each room accommodates 2-3 persons. The accommodation fee is around 20,000 RUB per year.

The Week of National Cultures is an annual event aiming to improve the relationship between the university's ethnic groups. The program includes a photo show of the unique sights of various nations, a quest game, the Guess a Movie contest, an exhibition of national costumes, national cuisines, and a gala concert.

CAMPUS

- 5 dormitory buildings, over 4,000 places
- A gym, a skiing center, a football field with workout areas, basketball and volleyball courts
- Dance, instrumental, drama studios, a chess club, a movie club, an art studio and a recording studio

INTERNATIONAL FRIENDSHIP CLUB

The social youth organization familiarizes students with the culture and creativity of various peoples in Russia and foreign countries. The Club works with 22 fellow countrymen associations established at the university. At the beginning of an academic year, they find "their" guys on the list of enrollees and help first-year students adapt to the university and Russia.

PREPARATORY DEPARTMENT

The preparatory courses of our university bring together attendees from more than 90 countries every year.

STUDY PROGRAMS

- **Complete course (10 months)**
Application dates
July 17 – September 30
 - **Crash course (4 months)**
Application dates
January 10-30
- ✓ The study programs include the Russian language courses and physics, chemistry and biology courses
 - ✓ Training is provided on a contract (fee-paying) basis and on a state-funded basis
 - ✓ Students from foreign countries apply for entrance exam preparation courses **with prior registration**

Preparatory courses

To successfully complete the courses, students must successfully pass final exams in the Russian language, biology, chemistry, and physics (in written and oral forms).

After students successfully complete the preparatory courses, they obtain **a certificate in Russian** 🇷🇺 **and English** 🇬🇧. This document can be taken into consideration for students applying for the first year of studies at medical and pharmaceutical universities in the Russian Federation.

REASONS TO CHOOSE PIROGOV RNRMU

- 1 High-quality education based on academic excellence and cutting-edge research. The educational programs have been developed taking into account current healthcare demands and needs.
- 2 Local and global reputation and recognition.
- 3 State-of-the-art equipment, technology, and laboratories that provide the students with access to advanced methods and practical experience.
- 4 The opportunities to go on exchange programs, study in other countries, and participate in international projects that contribute to cross-cultural experience and personal and professional development of students.
- 5 Real opportunities for career advancement.
- 6 The opportunity to undergo assessment to get a permit to work as middle grade medical staff.

THE NUMBER OF THE RUSSIAN GOVERNMENT QUOTAS

- Bachelor's programs** – 6 places
- Master's programs** – 2 places
- Specialist's programs** – 148 places
- PhD programs** – 10 places
- Residency programs** – 34 places
- Continuing professional education program** – 50 places
- Preparatory department** – 75 places

FINANCIAL SUPPORT

- The opportunity to transfer to state-funded places subject to requirements
- Up to 100% tuition discounts for achievements in student, sports and public life
- Personal scholarships from the university for scientific achievements
- Increased state academic scholarships for state-funded students

ACCOMMODATION

International students live together in one building of the comfortable dormitory. The dormitory has everything you need, including an ensuite bathroom, a kitchen, and self-study rooms. In winter, the dormitory rooms are heated.

The dormitory is located within walking distance of the main university building and the nearest metro station.

CLIMATE

The climate in Moscow is mid-continent.

SUMMER. Summer is warm and rainy.

+22-24°C
in the daytime

+12-14°C
at night

WINTER. In winter, Moscow has a rather high snow cover.

-5°C
in the daytime

-10°C
at night

However, extreme warm and cold spells also occur. In summer, the air warms up to +30 °C. In winter, the temperature reaches -30 °C, though rarely.

Sports at PRUE

*The prices are relevant for the 2023/2024 academic year

“

Miesles Kimberlly Agudo, 2023 Master's degree graduate, Ecuador

Studying at PRUE is like immersion in the world of infinite opportunities, where every lecture becomes your source of inspiration, every teacher becomes your mentor and creative guide, and every academic project becomes your chance to unleash your potential and create something truly unique.

“

Tran Duc Tung, 2021 PhD degree graduate, Vietnam

I think that PRUE is a leading university for economics. PRUE graduates from Vietnam have achieved great triumphs: they have become public officials, business people, and chief economists. I hope to become a “bridge” between the cultures of two countries – Russia and Vietnam.

EMBEDDED DATA PROCESSING AND CONTROL SYSTEMS

Master's program in English 

Two-year research

Exchange semester

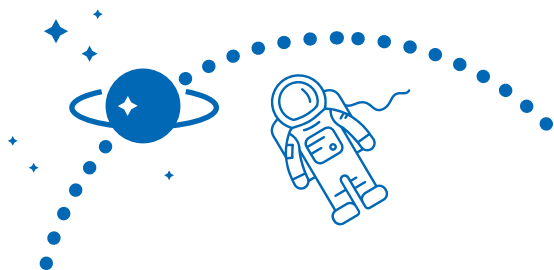

Summer internship

Embedded computer systems are a mass high-technology market of information and computer technologies, the most competitive area of cutting-edge R&D.

You can find embedded systems everywhere: from smartphones to cars, from aircraft and spacecraft to medical equipment, from smart house to intelligent transportation systems.

Students usually choose project themes in the following research areas:

- Communications protocols of airborne equipment
- System modeling and checking
- Embedded systems design
- Embedded systems software development
- Airborne equipment analysis and upgrade
- Video processing
- Heterogeneous computing

“

Liang Heshan, China

The friendly environment prevails between students in our university. The teachers are professionals in their field, they are responsible and attentive to us. The university has a student volunteer organization called SCOM, one of the tasks of which is to help foreign students to adapt, you can ask them any question: they will help with translation if something is not clear, they will give advice when problems arise; SCOM organizes interesting events to let us better know the city and Russian culture in whole. There are conversation clubs in different languages, in which you may not only get live communication and spoken language practice, but also learn something about the culture and mentality of other countries.

“

Chan Dyk Dai, Vietnam

SUAI is a good university. All teachers and staff members are always ready to be contacted. They always help us and explain the material in detail during classes. Lectures are interesting. We can thoroughly master subjects by studying theory and conducting research in state-of-the-art laboratories.

“

Ibrahim Caba, Côte d'Ivoire

Studying at Saint Petersburg State University of Aerospace Instrumentation was the best experience in my university life. I earned a Bachelor's degree in technical operation of aircraft electrical systems and attitude and heading reference systems.

After graduation from SUAI, I entered École nationale de l'aviation civile (Toulouse, France), the first aviation school in Europe. It's where I undertake a study placement to earn a degree in civil aviation engineering in the field of avionics.

SUAI gave me the skills and knowledge I needed to progress in the field of international aeronautics. The university teachers and administration get on very well with students. The university does its best to help students succeed!

I can recommend SUAI, and this major, in particular, to everyone who wants to build an aeronautics career.

SAINT PETERSBURG STATE UNIVERSITY OF CIVIL AVIATION

Founded in 1955

5,578

students pursue higher education programs

3,794

cadets pursue secondary vocational education programs

100

command and management staff members and flight instructors

120

PhD students

268

university teachers

200+

international students

The University of Civil Aviation is the largest Russian aviation education center with a well-developed branch network in Khabarovsk, Yakutsk, Krasnoyarsk, Buguruslan, Vyborg.

The educational programs developed by the university and its modern infrastructure allow it to provide ongoing professional training of top-class specialists for Russia's aviation industry, including pilots, air traffic controllers, engineers, managers, economists, lawyers.

Tuition fees per year, full-time study

Bachelor's programs from 236,000 RUB

Specialist's programs from 495,000 RUB

Master's programs from 366,020 RUB

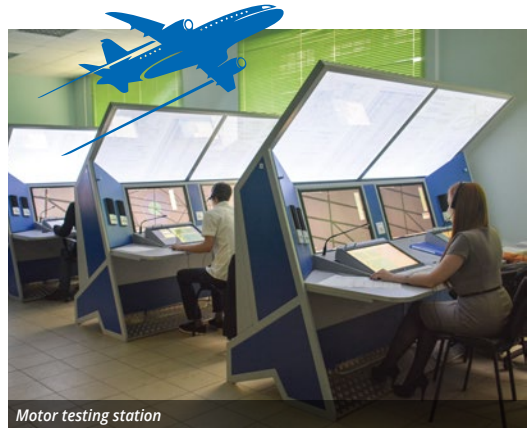

PhD programs 305,000 RUB

Motor testing station

📍 Saint Petersburg, Russia

ADVANTAGES

- The university's modern facilities and resources
- Quality and continuity of training of air transport specialists based on modernization of educational programs, introduction of digital technologies, intensification of integration of the learning process, research and production
- Highly qualified academic staff and instructors
- Development of existing and new priority areas of air transport research, efficient use and building of research capacity
- Expansion of international cooperation in implementation of educational programs and research

INTERNSHIP AND CAREER OPPORTUNITIES

The university organizes and provides all kinds of internships and employment opportunities at enterprises of various economic sectors.

EMPLOYER PARTNERS

International graduates of the University of Civil Aviation from Angola, Morocco, Iraq, Egypt, Kenya, Uzbekistan, Tajikistan, and other countries are successfully employed by air transport enterprises all over the world.

Practical training at the Department of Flight Simulators

POPULAR STUDY PROGRAMS

of secondary vocational education
and higher professional education

SECONDARY VOCATIONAL EDUCATION

- 📍 **Saint Petersburg, Vyborg, Buguruslan, Krasnoyarsk, Khabarovsk, and Yakutsk**
- Flight Operation of Aircraft
- Air Traffic Control
- Technical Operation of Integrated Electric and Flight and Navigation Systems

Modern flight and navigation procedure trainers and full flight simulators of training aircraft are used to maintain students' aviation skills during theoretical classes and to undergo practical navigation and flight training with the participation of instructors of the simulation center and flight and engineering center.

BACHELOR'S PROGRAMS

- Flight Operation of Civil Aircraft
- Operation of Unmanned Aircraft Systems
- Technical Operation and Maintenance of Aircraft and Engines
- Transportation Management and Air Transport Management
- Airworthiness Maintenance
- Airport Operations Management
- Transport Logistics
- Economics
- Management
- Corporate Staff Management

SPECIALIST'S PROGRAMS

- Flight Operations Management
- Air Traffic Management
- Aircraft Maintenance Engineering

MASTER'S PROGRAMS

- Flight Operation Management
- Airport Operations Management

PHD AND DOCTORAL PROGRAMS

- Engineering Sciences

**FLIGHT OPERATIONS
MANAGEMENT/ FLIGHT
OPERATION OF CIVIL AIRCRAFT
/ FLIGHT OPERATION OF AIRCRAFT**

Civil aircraft pilots have solid piloting skills, know how to use navigation methods, and are capable of carrying out flight operation of an aircraft in accordance with operating instructions. They meet all the requirements applicable to commercial pilots up to world standards.

**AIRCRAFT OPERATION AND AIR
TRAFFIC MANAGEMENT / AIR
TRAFFIC MANAGEMENT**

Air traffic controllers have competencies in providing all types of air traffic service, methods of management and maintenance of air traffic service units, air traffic service regulations and procedures, and air space management procedures and regulations.

**AIRCRAFT MAINTENANCE
ENGINEERING**

Aircraft maintenance engineers have competencies in the field of airplane and helicopter structures, maintenance of aircraft and engines, assessment of technical condition of aircraft equipment, control of efficient operation of aircraft equipment as well as skills in using technical documentation and regulations on aircraft equipment maintenance.

The university has 121 training aircraft and its own training aerodrome for safe and efficient operation of training aircraft in the daytime and at night.

**THE UNIVERSITY'S
SIMULATION FACILITIES**

- Simulators such as Diamond DA 40NG, Cessna 172S, Diamond DA 42NG for initial training of commercial civil aviation pilots, An-148, B-737, A-320, CRJ-200 for continuing professional education
- Air traffic control simulators such as Sintez, Navigator, Expert
- Virtual simulator complex "Simulator Complex for Line Maintenance Checks of Mi 8MTB Helicopter"
- Virtual simulator complex "Technical Operation of Sukhoi Superjet 100 Airplane"

INTERNATIONAL STUDENT ADAPTATION CENTER

The University ensures a comfortable learning and living environment, as well as the adaptation of international students to new cultural traditions.

Jointly with the Adapters program, the Center holds roundtable discussions, organizes the work with other student associations of the university, speaking clubs, tours, and helps students to comply with the requirements of the Russian Federation legislation on migration registration and visa services, and provides assistance in language adaptation.

SCIENTIFIC STARTUP

The students at the SPbSUITD Department of Physical and Colloid Chemistry have designed an ozone laboratory for bleaching of cellulose.

Such a laboratory can be used both by universities to conduct research and develop ozone technologies and by enterprises to replace the existing technology of bleaching cellulose using chlorine compounds.

The laboratory that develops ozone technologies in water conditioning and purification is the only counterpart of the project. To date, Russia has no laboratories developing ozone technologies in the pulp and paper industry.

PREPARATORY DEPARTMENT

Provides training (offline and online) for applicants with no or low knowledge of Russian language. Our students are also offered accommodation in our dormitory.

Educational programs offered by the Preparatory Department

BIOMECHANICAL ANALYSIS OF HUMAN MOVEMENT IN FOOTWEAR DESIGN

29.04.05 Designing of Light Industry Products

Tuition fee: 214,000 RUB per year

As part of the Master's program "Biomechanical Analysis of Human Movement in Footwear Design", a university laboratory of scientific biomechanics of movement has been created. It is equipped with a 3D foot scanner, a system of nine optical infrared cameras, two force platforms, and an electromyography system. The laboratory data helps choose individual footwear and rehabilitation footwear. In cooperation with specialists from health clinics, students conduct research on biomechanics of walking in patients with ICP and osteogenesis imperfecta. Students will study and use in their work optical motion capture systems, force platforms, wireless electromyography, 3D scanning and 3D printing as well as master footwear and shoe insole manufacturing technologies. Such an approach allows students to register biomechanical data, analyze loads on joints, spine, and muscles, and build a multi-component foot model.

Admission requirements

- Students can be enrolled within the Russian Government quotas, in state-funded and fee-paying places

ARTIFICIAL INTELLIGENCE IN INFORMATION SYSTEMS

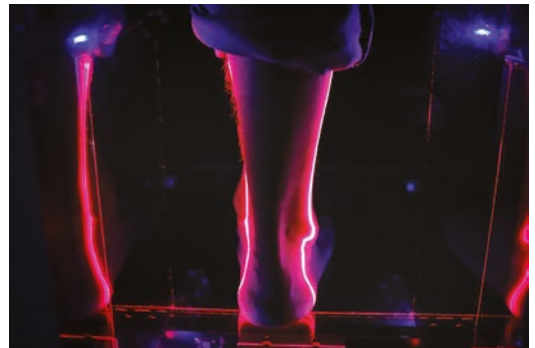

09.03.03 Applied Informatics

Tuition fee: 200,000 RUB per year

Today, applicants choosing to study artificial intelligence technologies have the greatest prospects. Here students master the general principles of data systems engineering and learn how to put them into practice. The program includes modern programming languages such as Python, C++, SQL, and VB.NET. Besides object-oriented programming, students master various artificial intelligence systems and work with BigData. The program also includes participation in the development of real-world IT projects.

ENROLLMENT CAMPAIGN

APPLICATION DATES

- **June 20** – the beginning of admission period
- **July 8** – last day for those applying for studies based on the results of additional creativity or professional entrance exams
 - field of study – Journalism
 - the Institute of Sports and Physical Training – all fields of study
 - the Institute of Arts – all fields of study
- **August 14** – last day for those applying for studies based on the results of other entrance exams held by the university (internal exams)
- **August 20** – last day for those applying for Master's programs

DOCUMENTS

- 1 A copy of the first page of passport and the current visa (if any)
- 2 A notarized translation of the passport into Russian
- 3 The academic credential written in the country's official language (school leaving certificate, diploma, certificate)
- 4 A notarized translation of the academic credential into Russian
- 5 № 086/Y medical certificate – for admission to majors related to pedagogical education
- 6 For international students staying in Russia: a migration card and a registration certificate

ENTRANCE EXAMS

- **Russian language**
- **Major subject exam** (depending on the faculty):
 - Bachelor's programs – tests
 - Master's programs – interviews

Graduates with a PhD degree can teach at universities as Associate Professors and continue their research at scientific institutions and organizations.

Learning process

Foreign citizens can get a quota from the **Russian Government to study in Russia. The quota covers tuition and accommodation fees and a scholarship.**

PREPARATORY DEPARTMENT FOR FOREIGN CITIZENS

- Preparatory Russian language courses for admission to SSU with instruction in general disciplines depending on the chosen major

Learning Russian from scratch and three general subjects depending on the prospective major:

- Natural Sciences: Mathematics, Physics, and Chemistry
 - Engineering and Technology: Mathematics, Physics, and Informatics
 - Humanities: Social Science, History, and Literature
 - Economics: Social Science, History, and Mathematics
 - Medicine and Biology: Chemistry, Biology, and Physics
- Preparation for the exam to get a certificate of the Russian State Testing System of Russian as a Foreign Language

The Russian Language program - learning Russian from scratch to B1.

ARRIVAL AND ADAPTATION

- ✓ **The SSU International Office** provides assistance in getting an official invitation to study, checking in at the dormitory, extending the visa and accepting documents for migration registration as well as in choosing an insurance company (students studying in Russia must have health insurance).
- ✓ The university accommodates students in the SSU dormitory for the entire period of study. The university dormitory is block-type. Each block has two rooms, a kitchen, a bathroom, a shower with hot water, a wardrobe, beds, tables, and chairs. The two-room apartment can accommodate not more than four people.
- ✓ To facilitate international students' adaptation to a new environment, the university conducts interactive classes for them on cross-cultural communication and legislative aspects.
- ✓ **While studying, international students undertake an internship at the university facility.**
- ✓ While studying, international students can find employment without a patent or work permit. The main thing is that their work should not interfere with their studies.

Russian Ski Track 2024

SSU is located in the center of the city of Saratov, a major cultural, economic and educational center of the Volga region. Saratov is a student city combining the best traditions of the educational and scientific center with the fast pace of modern life. It is famous for its museums, theaters as well as great recreational opportunities and picturesque landscapes.

Night Saratov

Saratov University has created a comfortable environment for education, fundamental and applied science, research and creation of high-technology products.

For successful integration of international students into the university student environment, the university holds such **events** as:

- Cross-cultural communication workshops "We are All Different, We are All Equal"
- Celebration of national holidays
- Spring, Beauty and National Costume Competition: Miss Nowruz of the World

Miss Nowruz 2023

Welcome to Saratov State University!

“

Nwokocha Revs Chukwudi, a fourth-year student from Nigeria leading an active social life at the university

There are three children in my family, and all of us got an education in Russia. I chose Saratov University and, despite the challenges I faced during seven years of study, I never regretted my choice.

During my first year in Russia, I studied the Russian language. Many of my new friends put effort not only into their studies but also into their creative projects. I looked at the guys who sang, danced, and played at amateur theaters, and I knew exactly that I wanted to be one of them. I began taking dance classes in Nigeria and continued it in Russia. On my way, I received great support from the university staff that helped me to adapt.

Now I'm completing my studies at the Institute of History and International Relations and planning to apply for a Master's degree at our university. At the same time, I have become a rather popular dancer in Saratov. I am invited to mass city events and I am a coach for young dancers and gymnasts who are winners and prize-winners of international contests.

So, SSU students have the opportunity not only to get a prestigious and sought-after education but also to show themselves in the creative, cultural and social life of the university community.

The city of Tambov

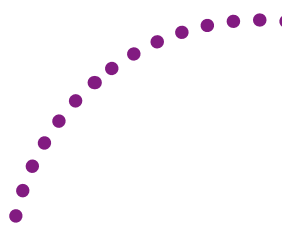

Tambov, Tambov Region,
Russia

Population
290,000 residents

Continuing the journey through immense Russia, we invite readers to visit the city of Tambov, a fascinating city with a rich history, eventful cultural life and beautiful sights. Today the city, founded in the 17th century, is a prime example of a harmonious combination of Russian province still preserving national color, spirit and beauty and comfortable modernity with well-developed infrastructure.

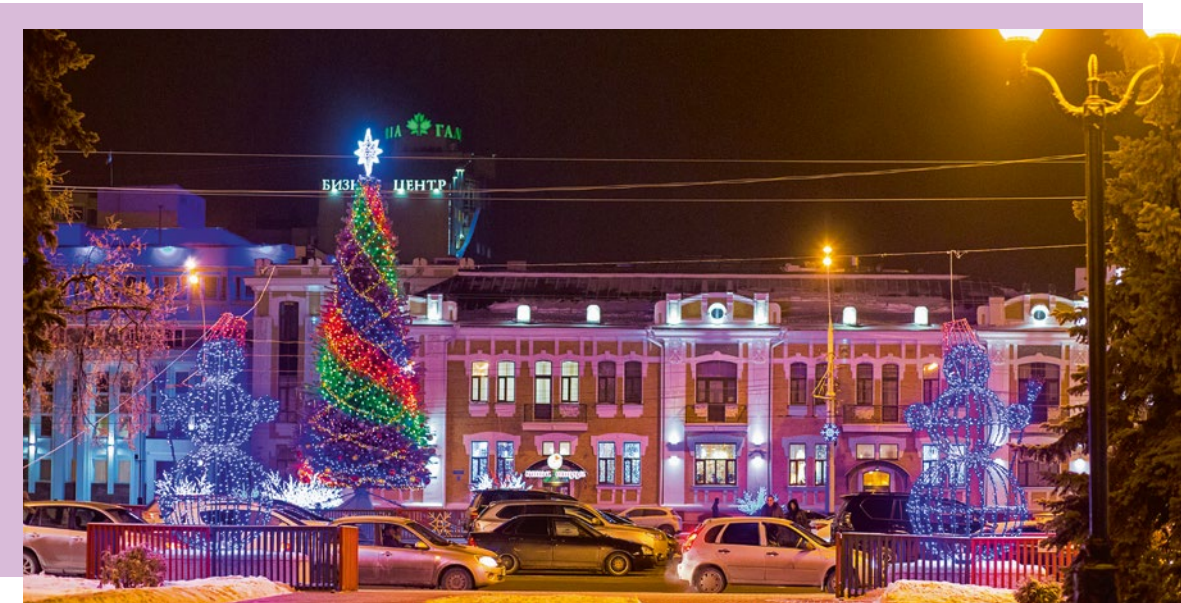

The city of Tambov is located in the European part of central Russia, in a picturesque area on the bank of the Tsna River, 460 km southeast of Moscow.

The climate in Tambov is favorable, moderately continental. The winter season comes in December. Summers are usually long and warm.

AVERAGE TEMPERATURE

Winter	Summer
-8 °C	+21 °C

Tambov is a dynamically developing and compact city with a well-developed transport network and a wide range of available services. No matter where you live in the city, it will not take a lot of time and effort to get to the university facilities. Regular public transport and affordable taxis are always available. Within walking distance you will find stores, pharmacies, cafés, outpatient clinics, gyms, libraries, dormitories– all services every student needs for a happy and comfortable life and study.

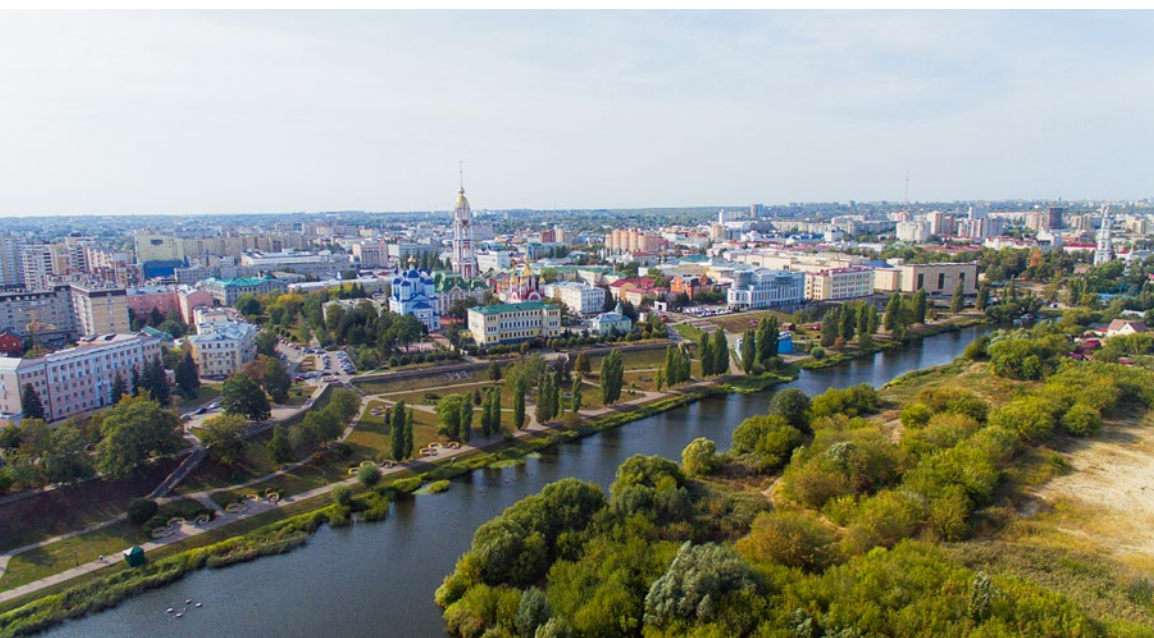

For many years, Tambov has been a popular place attracting international young people from all over the world. Here you can easily find many friends from various multicultural communities. And the friendly atmosphere and hospitable local people make this place really unforgettable.

Tambov is included in the official list of Russian cities with the most favorable living environment.

The cost of living in Tambov is affordable compared with other major Russian cities. Here you can live a comfortable life, without spending a lot of money. Accommodation and transport costs are especially low.

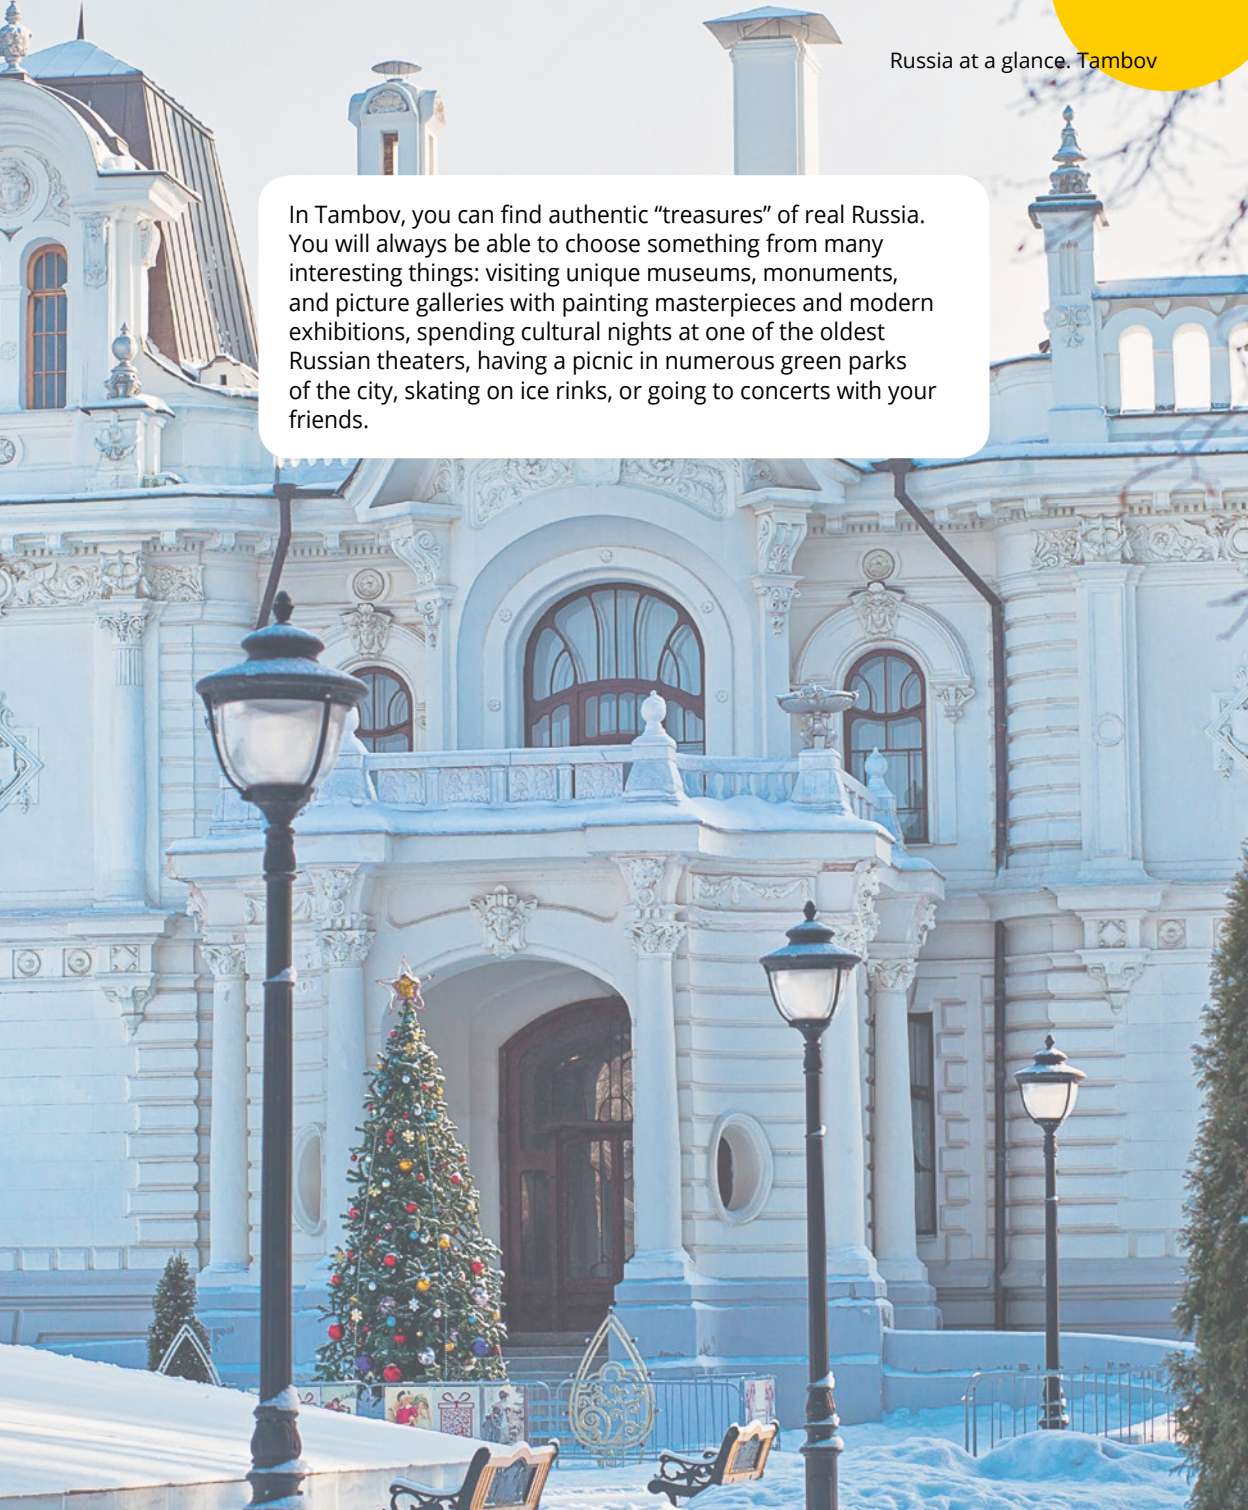

It is convenient to travel throughout Russia from Tambov: railways and highways connect it with a huge number of large and well-developed regions of the country. There is a regular flight connection with many Russian cities.

The average cost of living in Tambov is around \$385 per month, including housing rent and utilities, food and transport. Tambov is ranked among 7% of the world's cheapest cities.

Tambov is located in the most environmentally friendly region of Russia. According to the National Environmental Ranking of Russian regions, the Tambov Region has been the unchanging leader since 2011.

In Tambov, you can find authentic “treasures” of real Russia. You will always be able to choose something from many interesting things: visiting unique museums, monuments, and picture galleries with painting masterpieces and modern exhibitions, spending cultural nights at one of the oldest Russian theaters, having a picnic in numerous green parks of the city, skating on ice rinks, or going to concerts with your friends.

PREPARATORY DEPARTMENT

The preparatory course helps international applicants master Russian at B1-B2, adapt to life in Russia, get to know the city well, and make certain that they have made the right choice of the further study program at the university.

The language of instruction is Russian.

Duration – 1 year.

Study areas: Medicine and Biology, Humanities, Natural Sciences, Economics.

The online training course is also available.

ADAPTATION PROGRAM FOR INTERNATIONAL STUDENTS

The university has developed an international student adaptation program and has the Center for Social Adaptation and Cross-Cultural Communication.

The university staff members supervise new international students starting from the first days of their stay in Russia and familiarize them with the university, the city, dormitory rules, learning process management, and medical care provision procedure.

The university has a department that provides documentation and migration and visa support and consults international students on legal issues throughout the entire period of their study at the university.

The adaptation program of Derzhavin University helps international students become full members of the big international student community as quickly as possible.

 About the online course at the TSU Preparatory Department

 Center for Social Adaptation and Cross-Cultural Communication

ENTRANCE EXAMS

Entrance exams are held offline and online. Additional entrance exams (professional or creativity exams) are held offline only.

LIST OF DOCUMENTS:

1. Passport and its notarized translation.
2. Educational document (certificate) and its notarized translation.
3. Educational document recognition certificate (if necessary).

INFRASTRUCTURE

The campus of Derzhavin University comprises 11 dormitories conveniently located in relation to the educational buildings and socio-cultural and sports facilities.

The university's well-developed infrastructure provides students with the opportunity not only to get a high-quality professional education but also to fulfill themselves and unleash their creative potential:

- 11 educational buildings
- scientific laboratories with state-of-the-art equipment
- engineering centers and a nanocenter
- the region's largest research library
- Doctor Profi university clinic
- training theater
- museum and exhibition center
- sports centers and playgrounds for various sports
- Galdym recreation camp

INTERNATIONAL MANAGEMENT AND MARKETING

Master's program

Duration – 2 years

The program trains managers whose professional ambitions are related to management of companies in all of their aspects, operating in a highly competitive environment, those who would like to build a career at an international corporation, solving production, commercial, financial, marketing, and personnel issues of international business management. The program not only gives theoretical knowledge but also provides practical training required to work successfully both at Russian and international companies.

The program graduates can be eligible for positions of:

- **Foreign economic activity managers** who are specialists who supervise and organize the company's economic interactions internationally.
- **Business analysts** are specialists who help companies identify problems based on the analysis of various data and find strategically optimal solutions and priorities for business process modernization at the company.
- **Marketing managers** are specialists who study the market segment, where the company is represented, analyze the needs of the target consumer audience, and participate in the development of strategies to enhance the company's competitiveness.
- **International managers** who are responsible for international projects of major companies and government entities, are in charge of sales or marketing departments, supervise foreign economic activity, and attract international investments.

DESIGN AND VISUAL ARTS

Bachelor's program

Duration – 4 year

While studying, students gain basic knowledge and skills in academic drawing, painting, composition and volume and space thinking, study art history, and make original works of art and art objects: painting, drawing, and design.

The program graduates can be eligible for positions of:

designer, artist, visualizer, decorator, illustrator, animation artist, art designer, computer artist, 3D graphics specialist, game designer, mobile application designer, web designer, UX designer, digital designer, designer of furniture or small architectural forms, landscape designer of land plots, city parks and picturesque areas of the urban environment, and building facades.

SCHOLARSHIPS

Only state-funded students get scholarships.

- state academic scholarship
- increased state academic scholarship

RUSSIAN AS A FOREIGN LANGUAGE

At TverSMU, Russian as a foreign language is taught both in mono- and multiethnic groups, taking into account the aspects of students' native language and mentality, including their ethnic and religious affiliation, socio-political order of their home country, cross-gender interaction standards, and cultural values and norms.

Classes are conducted in small groups by experienced teacher trainers who hold degrees of Candidates of Sciences and Doctors of Sciences.

- When studying Russian, students consolidate language skills they acquire (using business games and roleplays, case studies, etc.)
- The university organized the independent work system to study Russian every day
- Students use Russian as a foreign language study programs on online platforms

POPULAR STUDY PROGRAMS

GENERAL MEDICINE

A physician who diagnoses, treats and prevents diseases.

Mode of study: full-time

Language of instruction:

RU  / EN 

Duration: 6 years

Qualification: physician

Prospective position: district physician, preventive medicine physician, admitting physician

Junior students study fundamental medical sciences in depth. From the third to the sixth year of study, practical classes and lectures are given mainly at numerous clinical facilities – the regional clinical hospital, cardiologic and psychoneurologic dispensaries, and hospitals in the city of Tver.

PEDIATRICS

A pediatrician is a doctor who works with children of different age groups and is responsible for diagnosis, treatment and prevention of diseases. The profession of pediatrician is considered one of the most difficult, but at the same time the most interesting professions in medicine.

Mode of study: full-time

Language of instruction: RU 

Duration: 6 years

Qualification: pediatrician

Prospective position: pediatrician, preventive medicine physician, admitting physician

The faculty's clinical facilities are the regional perinatal center, the regional children's clinical hospital, and almost all children and adult healthcare organizations in Tver.

CLINICAL PSYCHOLOGY

A clinical psychologist at healthcare institutions is a specialist responsible for participation both in psychodiagnostic psychocorrectional activities and the treatment process in general.

Clinical psychologists work with different groups of people. They provide care to patients who have a psychological trauma, suffer from acquired or congenital diseases, and need social adaptation.

Mode of study: full-time

Language of instruction: RU 

Duration: 5.5 years

Qualification: clinical psychologist

Prospective position: medical psychologist

POPULAR STUDY PROGRAMS

DENTISTRY

A dentist is a doctor who identifies, treats and prevents stomatopathies.

Mode of study: full-time

Language of instruction: RU 🇷🇺

Duration: 5 years

Qualification: dentist

Prospective position: dentist

The TverSMU Faculty of Dentistry is one of the oldest in Russia. It is the successor of the famous Leningrad (now Saint Petersburg) Dental School of Ivan Pashutin.

Students are engaged in practical activities starting from the first years of study. The main clinical facility is the multidisciplinary university dental outpatient clinic fitted with state-of-the-art equipment.

PHARMACY

A pharmacist in charge is a pharmacy specialist whose activities are related to manufacturing, packaging, storage, transportation, state registration, certification, standardization and quality control, sale, advertising, use of drugs and destruction of drugs that have become unusable.

Mode of study: full-time

Language of instruction: RU 🇷🇺

Duration: 5 years

Qualification: pharmacist in charge

Prospective position: pharmacist in charge, pharmacy technician

The program includes hands-on simulation training at the multidisciplinary accreditation and simulation center and training pharmacy, industrial work placements at the facilities of the best pharmacy institutions in Tver, and experimental study of new drug products. Students participate in pharmaco-economic and microbiological studies.

The university organizes diverse extracurricular activities for students

STUDY

TuSU offers foreign nationals a wide range of educational programs, including those taught in English 🇬🇧.

Study areas:

- Engineering
- Technology
- Mining and Construction
- Computer Sciences
- IT
- Natural Sciences
- Economics
- Law
- Social Sciences and Humanities
- Medicine

The main language of instruction
at TuSU is Russian 🇷🇺.

**ENGLISH-TAUGHT
PROGRAMS** 🇬🇧

- General Medicine (Specialist's program)
- Economics (Bachelor's program)

ADMISSION

The number of commercial places for educational programs is not limited (except the General Medicine program).

You can study in a state-funded place (for free).

250 state-funded places for international students.

Programs of student exchange with partner universities in the "International Semester" format.

The application process for the academic year 2024/2025 starts on June 20.

RUSSIAN LANGUAGE AND PRE-UNIVERSITY TRAINING

The pre-university Russian language program is designed for international applicants who do not speak Russian.

The program is delivered in five study areas:

- Engineering
- Economics
- Humanities
- Natural Sciences
- Medicine and Biology

Mode of study: offline/online

Duration: 6-10 months

You can study Russian individually or in groups.

Russian is considered one of the most difficult languages to study. Grammar, spelling, punctuation, declensions, moods, and a great number of exceptions – all of this becomes really confusing for foreign nationals. However, taking a pre-university program at TuSU in small groups in an extremely international and friendly environment relieves primary stress, as a rule. Moreover, the program places emphasis on the development and consolidation of phonetic and communication skills.

After international students complete the pre-university Russian language program and are enrolled in the first year at TuSU, they get the opportunity to get legally employed while studying.

- Summer and winter schools in Russian and English
- International Summer School on the Russian Language, History and Culture
- English-Language Summer School for Young Researchers "Dive into Science!"

ARRIVAL AND ADAPTATION

TuISU traditionally holds a range of activities contributing to sociocultural adaptation of foreign nationals to the study and living environment in Russia.

Numerous conferences, exhibitions, festivals, and forums are dedicated to colorful national holidays, interaction between various cultures and creativity uniting the peoples of the world.

Social and adaptation work includes:

- meeting students at the airport and accompanying them to the university
- working with incoming international students, where the primary objective is to help students not to feel lonely in the large multicultural environment and not to withdraw into their shell
- psychological support
- working with foreign compatriot associations
- assistance in solving everyday problems as well as in receiving medical treatment

Tula is one of the oldest cities in Russia, the motherland of the great Russian writer Leo Tolstoy. It is a city with a rich historical, cultural and architectural heritage, "the third museum capital of Russia."

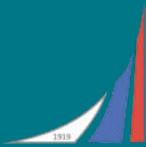

INFRASTRUCTURE

- 18 Educational Buildings
- TulaTECH Research and Education Center
- 8 Scientific Laboratories
- Environmental Monitoring Center
- Engineering Center of Composite Materials
- 14 Student Dormitories
- Fitness Centers, Stadiums, and Swimming Pools
- Kindergarten
- Medical Clinical Center
- Training and Health Center in a picturesque place on the Oka River

The university holds numerous conferences, exhibitions, festivals, forums dedicated to colorful national holidays, interaction between various cultures and creativity uniting the peoples of the world.

Such an eventful extracurricular program greatly facilitates foreign nationals' adaptation to the study and living environment in Russia and helps unleash their scientific and creative potential.

WE VALUE THE PAST, WE BUILD THE FUTURE!

Moscow, Russia

ARRIVAL AND STAY

Vnukovo is the only one of the three metropolitan air terminals which is located in the city. Domodedovo and Sheremetyevo are located in the Moscow Region.

The Aeroport Metro Station, which is the nearest to the main building of the Financial University, is located on the Zamoskvoretskaya line in the northern part of the city, two stations from the circle line. The university building is located within walking distance of the metro station.

You can get from the airport to the university building:

- by taxi
- by aeroexpress train

All international students applying for state-funded places at the Financial University within the Russian Government quota are sure to get **accommodation in one of 9 dormitories** located within walking distance of the educational buildings.

Over 98% of graduates successfully find employment right after graduation.

The average monthly salary for recent graduates is 55,000 RUB.

THE FACULTIES COMPRISE

- 30 academic departments
- 10 academic and research centers
- 18 departments
- business incubator

ADAPTATION

The International Student and Teacher

Office is responsible for international student adaptation. For years, the university has been implementing the BUDDY program aimed at helping international students from the moment of their enrollment at the Financial University: the volunteers contact them and help them execute all the required documents and take out a medical insurance policy as well as meet them upon arrival by air.

☎ +7 499 553-12-18

✉ iso@fa.ru

The university actively implements the Country Leader program. The leaders of the countries help applicants adapt to the university and to life in Russia.

All students who get a state-funded place at the Financial University are sure to get accommodation in one of 9 dormitories located near the educational buildings.

PRE-UNIVERSITY TRAINING FACULTY

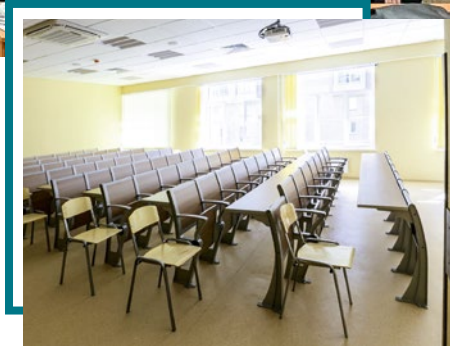

Every year more than 100 international students from 45 countries start studying the Russian language at the Financial University.

International applicants have a unique opportunity to learn Russian from scratch to any required level as well as pursue profession-oriented RFL programs.

TOP 5 PROGRAMS
chosen by international applicants

1. IT programs
2. Economics
3. Management
4. Law
5. State and Municipal Management

Program
ECONOMICS AND FINANCE
Faculty of Finance

- Organizations where international students can undertake their internships with subsequent employment: Kept, Moscow Exchange, VTB Bank, Alfa Bank, Ingosstrakh, Gazprom
- Teachers use innovative technologies such as interactive lectures, brainstorming, financial quests, creative group activities, case studies, panel discussions

Program
BACHELOR OF BUSINESS ADMINISTRATION (BBA)
Faculty "Higher School of Management"

- Graduates build a career at companies in the international market, at major Russian companies with international projects and companies which are leaders of their industries
- **Program majors:** Business and Entrepreneurship, Marketing Management

UNIVERSITY APPLICATION TIPS FROM TEACHERS FOR APPLICANTS

- Participate in the Olympiads held by the Financial University as prize-winning places allow you to get a tuition discount when applying for Bachelor's, Master's and PhD programs, and winners are sure to get a state-funded place at the university within the Russian Government quota
- Compile a portfolio showcasing your activities and achievements to join the Financial University. The current list of individual achievements is available on the university website

To join the Financial University, foreign citizens can take part in the Youth International Olympiad and in the Olympiad "**Mission Possible. You are a Financier by Vocation!**"

Registration for the Olympiad "Mission Possible. You are a Financier by Vocation!"

The Financial University is one of the universities of the Russian Federation having the right to **independently select students to fill state-funded places** within the Russian Government quota.

To join the Financial University, foreign citizens can take part in the Youth International Olympiad and win it or take part in the portfolio competition.

Portfolio competition

Registration for the Youth International Olympiad

“

Aidana Dushebaeva, Kyrgyzstan

The Olympiad allows students to enter the university directly and without a portfolio, which is very convenient.

I learned about this Olympiad thanks to my teachers who told me about the opportunity to get a state-funded place at the university. Our university allows us not only to gain a theoretical background of the chosen profession but also to find loyal friends and business partners, take part in a great number of scientific events and find a job in our degree field.

“

Đặng Duy Hoàng, Vietnam

Students winning the Olympiad may be enrolled at the university in a major relevant to the Olympiad subject, without entrance exams. I learned about the Olympiad on the Financial University website. It all went well. The Olympiad itself evoked only positive emotions in me.
