The First Russian Education Fair in Latin America

Russian House in Chile

The Russian House in Chile continues its active efforts to promote Russian education among the citizens of the country. The editorial team of the HED magazine previously wrote about its role for Chilean applicants seeking to get a high-quality education and develop their career prospects in Russia.

As part of its activities, the Russian House in Santiago organizes various events aimed at familiarizing Chileans with educational opportunities in Russia. For example, Latin America held the first large-scale Russian education fair entitled "Russia: Education without Borders." This unique event brought together 30 top Russian universities and attracted more than 500 participants, including school students, applicants and representatives of Chilean educational institutions.

The guests met with the representatives of the universities in person, found out about their educational programs and special aspects of student life in Russia and asked about everything they wanted to know. In her speech, the Head of the Rossotrudnichestvo representative office in Chile Nina Milovidova emphasized the importance of friendly relations between Russia and Chile. Today these relations are maintained by the Russian House that creates opportunities to get a high-quality higher education.

**Every year the Russian Government
allocates almost 30,000 scholarships to
international students, providing them with
a great opportunity to use this program.**

One of the bright moments of the fair was a demonstration lesson in the format of standup show from the famous Russian linguist and TV host Dmitry Petrov, the author of the unique methodology of intensive language training.

SPACE GREETING

There was a surprise for all guests – they were greeted by the polar explorers from the Bellingsgausen Russian Antarctic Station and the Cosmonaut Training Center.

Anna Kikina, the only female cosmonaut in the Roscosmos team, met with the participants of the fair and emphasized the importance of studying the Russian language for future cosmonauts. "...I can safely say that Russian is a language spoken in space," she noted.

SANTIAGO MEMORANDUM: A STEP TOWARDS COOPERATION

The education fair included a working session organized by the Russian House in cooperation with the Center for Research and Development of the Faculty of Humanities of the University of Santiago, Chile represented by Dante Castillo. It brought together the representatives of state Russian and Chilean universities. During the meeting, the Santiago Memorandum was signed.

The main aim of the meeting was to unite academicians and researchers from the universities in both countries to share experience, collaborate and conclude cooperation agreements. For example, Higher School of Economics and the University of Santiago, Chile agreed to sign a cooperation agreement in the near future.

The fair "Russia: Education without Borders" has become not only a platform for acquainting oneself with study opportunities in Russia but also an important step towards strengthening relations between educational institutions in the two countries.

in Chile**

Towards Learning Russian

Russian House in the Central African Republic

In the Central African Republic, there has been a rapidly increasing interest in the Russian language and Russian culture. Getting a higher education in Russia has become a dream and a status symbol for many young people in CAR. So, a growing number of people want to study Russian – not only university students but also school students. The HED editorial team asked the Head of the Russian House in CAR Dimitri Sytyi about how the Russian language is promoted in CAR.

The Russian House in Bangui is a non-governmental organization established to promote the Russian language and culture in the entire territory of CAR. It maintains active cooperation with Rossotrudnichestvo and Russian universities. We get many requests from various educational institutions, government authorities and ministries for organization of teaching the Russian language. Consistent activities are conducted mainly in the capital of CAR, the city of Bangui, but the Russian House regularly organizes events in different regions of the country, including its most remote parts.

The scope of linguistic and cultural exchange:

- Around 500 people attend Russian language courses every month
- Cultural and educational events attract up to several thousand people.

RUSSIAN LANGUAGE FOR EVERYONE

Today, Russian language classes are conducted at the Russian House, at Bangui University as well as at two secondary schools and the orthodox parish school.

In CAR, everyone interested can take Russian language courses for free. When people have a low income, even small fee can become a great obstacle to getting education. Our aim is to make Russian language learning and acquaintance with Russian culture as accessible as possible.

The initial course lasts three months. During this period, students master basic grammar and learn to read and maintain a simple dialogue. There are around ten groups comprising 30-50 people.

We regularly hold a variety of educational events dedicated to the history and culture of Russia for everyone interested. The Russian House in Bangui has become an important venue for important city events. In the past month, it held CAR's first national sambo wrestling championship, the festival of slam – modern poetry, the city ping-pong tour, and the international online chess tournament for children and adolescents.

The children in CAR show a keen interest in theatrical performances based on famous Russian fairy tales – the country's only children's plays in the tradition of the Russian theater.

The Russian House in Bangui has special interest clubs where students can do handicraft, draw and paint, dance as well as play chess and table tennis. Classes are available for people of all ages and are absolutely free.

The Russian House in Bangui is an active cultural center that holds entertaining events.

All our events are consistently aimed at promoting Russian culture and language. These can be screenings of movies about the Second World War, celebration of Alexander Pushkin's birthday, intellectual games dedicated to the history and culture of Russia, or concerts where students sing famous Russian songs.

The Russian House is often visited by students of Bangui Sunday schools who come to participate in entertainment programs with games, contests and master classes on Russian folk crafts as well as attend Russian language classes. After such visits, many students gladly come back to the Russian House again.

The Russian House is a modern center for training and development seeking to provide students with the best conditions. Here we have everything we need for live streaming. In the future, the center plans to create a fully equipped computer classroom with internet access so that students can study innovative IT and participate in group online courses.

The Russian House in Bangui is the only center in CAR where you can study the Russian language. There has been an increasing interest in the language, especially among school and university students who dream of getting an education in Russia.

ACHIEVEMENTS AND PLANS OF THE RUSSIAN HOUSE

In 2024, the Russian House successfully held Russian language courses for CAR military officers and members of the High Council for Communications. The Ministry of Culture also submitted a similar request. As the number of students increases, we need more study materials, so each new textbook kit from Rossotrudnichestvo and Russian universities is a valuable acquisition for us. Moreover, we are grateful for the support from Russian teachers sent here by Rossotrudnichestvo and coming as part of partner programs with universities.

At the moment, the Russian House in Bangui employs three national teachers who constitute the main teaching staff and teach Russian at the Russian House and educational institutions in the city. We encourage our teachers to participate in online and offline advanced training activities conducted by Rossotrudnichestvo and other Russian education centers. For example, one of our teachers participated in the conference for RFL teachers in Senegal. At the moment, we offer online advanced training courses for national teachers of the Russian language in cooperation with St. Petersburg State University.

We plan to increase the number of Russian language teachers so that more people in CAR can study it. Here we count on the programs of Rossotrudnichestvo and grants for Russian universities teaching Russian as a foreign language. We also intend to start teaching Russian in different regions of CAR. Our aim is to make the Russian language accessible in all schools of the country so that every citizen of the Russian African Republic can speak Russian. That's an ambitious and long-term objective, but we are well on the way to achieving it.

RUSSIA IS A COUNTRY OF OPPORTUNITIES FOR INTERNATIONAL STUDENTS

Inga Anatolyevna Koryagina

- UNDP Expert for International Development
- Director for International Development of the Russian-African Club of Lomonosov Moscow State University
- Associate Professor at the Marketing Department of Plekhanov Russian University of Economics

At Russian educational institutions you can meet outstanding people and highly qualified specialists. They work for the benefit of their country and serve as a role model for young specialists and students. Their experience plays an important role in educational initiatives as well as international relations. In our interview, Inga Anatolyevna, Associate Professor at the Marketing Department of Plekhanov Russian University of Economics, will share her vision of the development of Russian-African relations and give some advice to international students who want to study in Russia.

? Inga Anatolyevna, could you tell us about your professional journey? How do your diverse experience and education influence your career?

My journey is really diverse, and I am proud of it. I started my career as a teacher of English language and History, which helped me understand the cultural characteristics of different countries. Then I deepened my knowledge of international relations, management and marketing and gained practical skills to work in business and international development. Working as an UNDP Expert and Director for International Development of the Russian-African Club of Lomonosov Moscow State University, I participated in initiatives strengthening cooperation between Russia and Africa. These roles allowed me to organize international projects and interact with people from different cultures.

I think that my experience helps me see the bigger picture and find solutions in difficult situations as well as create successful projects and establish long-term international relations.

? As Director for International Development of the Russian-African Club, could you tell us what its main mission is?

The Russian-African Club at MSU is seeking to develop cooperation between Russia and Africa, placing the emphasis on education, science, culture, and business to establish sustainable partnership relationships. As a director, I focus

on experience exchange initiatives, including forums of rectors of Russian and African universities, joint educational programs, and double degree courses.

Moreover, the club takes an active part in cultural projects such as art, cinema and fashion festivals, creation of the African Culture Museum, and the installation of a monument to Nelson Mandela in Moscow. We work with African expat communities to strengthen social relations.

Our aim is to create a space where young people, researchers and entrepreneurs will be able to cooperate, share their ideas, and implement joint projects.

? What prospects for the development of Russian-African relations can you see? How important is cooperation between Russian and African universities?

Today we can observe an increasing interest in strengthening partnership relationships based on equal rights and mutual benefit, especially in education and science. Inter-university cooperation is of strategic importance. Double degree programs, student and teacher exchange, and joint research form a new generation of specialists who are ready to respond to global challenges.

Innovations and technologies are also important. Africa has huge development potential, and Russia's experience in science can play a key role in power engineering, agriculture, medicine, and ecology.

Cultural interaction strengthens trust and mutual understanding. Festivals, exhibitions,

and music and art projects provide the basis for long-term dialogue. Expansion of inter-university cooperation is an investment in the future that allows us to join efforts to solve global tasks and provide conditions for sustainable development.

? What advice would you give to international students who want to study in Russia and build a career in international business?

First of all, **be open to new opportunities** and be actively engaged in the educational and professional process. Russia has unique educational traditions and cultural and economic relations. This offers many prospects for development.

Take full advantage of the opportunities offered by universities. Double degree programs, international projects and research initiatives will help you not only get a high-

quality education but also establish important professional contacts. Many students expand their career horizons by participating in international forums.

Be active and proactive. Participate in conferences, internships and international exchanges and come up with ideas. The Russian

academic community welcomes people who are ready to take responsibility.

Lastly, **develop your cross-cultural communication skills** as international business requires the ability to work with people from different cultures. Use available resources, and you will be able to build a successful career in international business.

Study the Russian language and culture. Even a basic knowledge of the Russian language and understanding cultural characteristics will give you a big edge and help you build relationships more quickly.

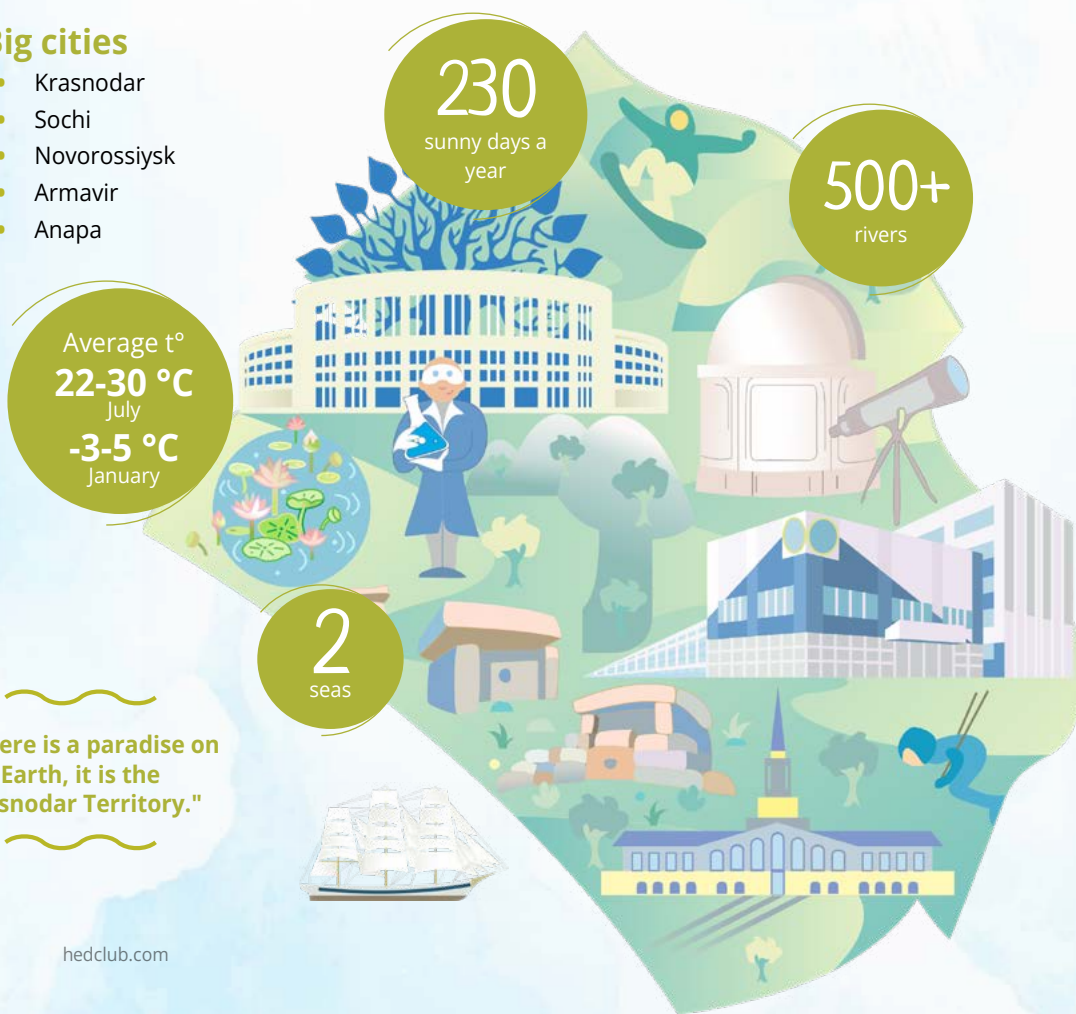

Krasnodar Territory

Pearl of the South of Russia

The Krasnodar Territory is a unique region of Russia that combines a rich history, a diverse culture, and fascinating natural landscapes. With its picturesque mountains, golden beaches of the Black Sea and unique historical monuments, this region attracts those who want not only to enjoy the beauty of the world around us but also to get a high-quality education. In this article, we will tell you about some tourist attractions in the region and interesting facts that make the Krasnodar Territory unique.

Big cities

- Krasnodar
- Sochi
- Novorossiysk
- Armavir
- Anapa

"If there is a paradise on Earth, it is the Krasnodar Territory."

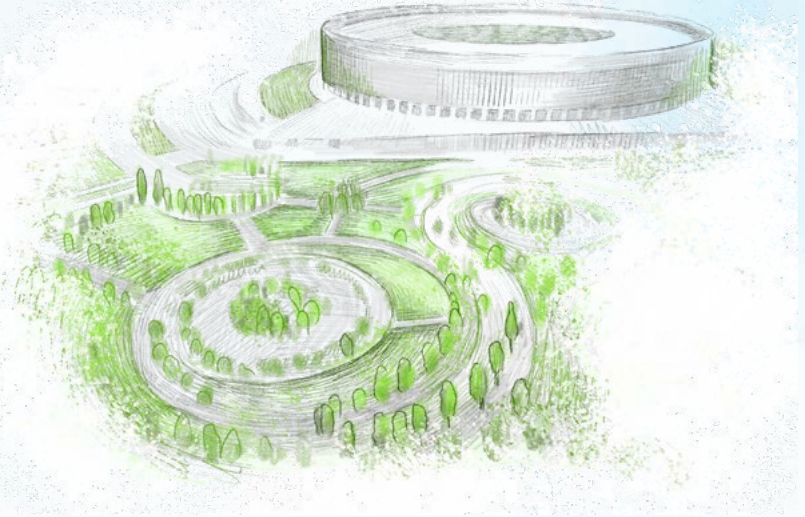

WELCOME TO KRASNODAR!

The capital of the Krasnodar Territory, the city of Krasnodar, is a major economic and cultural center in the North Caucasus and the Southern Federal District, is located on the right bank of the Kuban River. Krasnodar is also called the capital of the South of Russia. It is located 1,300 km south of Moscow – approximately 1.5 hours by plane.

In Krasnodar, summers are hot and long (they last from May to September) and winters are moderately warm (they last approximately from the middle of January till the end of February).

Krasnodar is famous for its picturesque streets, green parks and cozy public gardens that create a cozy and quiet atmosphere. The city is buried in verdure, and its residents are proud of numerous avenues and gardens.

One of the most popular places is **Krasnodar Park**, which has become the true pearl of the city thanks to its modern design. The park infrastructure comprises cafés and restaurants, an amphitheater showing movies in summer, fountains, a skate park, water bodies with fish, mirror, musical and water mazes, and many other things.

Kuban educational institutions are open for international applicants from all over the world. The multinational atmosphere and communication with people from different cultures make studying in Krasnodar especially attractive.

The cultural life of Krasnodar is also eventful and diverse. Here you can go to various festivals, exhibitions and concerts that attract both local residents and guests of the city. This is a place where everyone can find something for themselves.

Krasnodar attracts not only tourists but also students who can get an education here in such fields as economics, engineering, medicine, humanities, physical culture and sports.

SKI RESORTS

In the Krasnodar Territory, you will find the warm Black Sea, sunny beaches, and magnificent ski resorts that attract winter sports enthusiasts from all over Russia and the world. In the foothills of the Caucasus Mountains, there are several popular ski resorts that offer excellent conditions for skiing, snowboarding, and other winter activities.

Krasnaya Polyana is the most famous ski resort in Russia that became popular after the 2014 Winter Olympics in Sochi. It has several ski areas, including Rosa Khutor and Gazprom. The resort offers pistes of different difficulty levels, which makes it an ideal place both for beginners and experienced skiers. Here you can ride a bike, a quad bike, a scooter, and a drag bike. Guests can also fly a balloon, a paraglance, or a helicopter.

Rosa Khutor is a ski resort with the longest network of pistes in Russia – they are 105 km long. There is enough entertainment to suit any taste here. You can taste local cuisine in cozy restaurants and enjoy evening walks around the resort.

The Gazprom Mountain Tourist Center is famous for its diverse pistes and modern ropeway lifts. At the center, you can fly a paraglance or a paratrike, ride a snowmobile, or try snowtubing. The center has a year-round waterpark with an outdoor swimming pool that offers a fascinating view of the mountains.

Tip: All the resorts are very big and have well-developed infrastructure. We recommend that you download the resort map to your phone to navigate more easily.

Fast facts!

- The region's main feature is **the diversity of its landscape**. Here you can find high mountains with extensive forests, glaciers, rivers flowing through mountain gorges, boundless steppes, and caves.
- **Novorossiysk Sea Port**, located in the Krasnodar Territory, is the largest port in Russia.

- **Sochi** is the longest city in Europe and Russia as well as the second longest in the world after Mexico. The city stretches for 148 km.

- In the entire Krasnodar Territory there are around **2,000 dolmens**. Dolmens are ancient structures used as burial chambers or as places of worship. They are classified as megaliths (large stone structures).

- The **Bolshoy Utrish** attraction is Russia's only open-air dolphinarium, located in the natural sea lagoon. The dolphins live and perform in the natural environment, and spectators watch the show from the platform on the shore.

- The **Lotus Valley** is a unique natural site in the Krasnodar Territory. This man-made attraction is a water garden dotted with Indian lotuses..

- The **Safari Park** in Krasnodar is the only private safari in Russia. The park with an area of 10 ha is inhabited by 250 animal and bird species. In the park, you can visit the pinnipeds theater and the dinosaur park.

- **The Krasnodar Territory residents** are famous for their hospitality and cordiality, which makes it a friendly place for guests from all over the world.

The Krasnodar Territory is marked on the HED map on the website of our magazine. Here you can find information about many tourist attractions and universities in the Russian regions.

Looking at this map, you can easily plan your acquaintance with Russia or choose a university by studying attractions, cultural sites, and educational opportunities.

READ CHEKHOV AND IMPROVE YOUR RUSSIAN

It is no secret that you need to use an integrated approach to achieve the best results in learning any language. It is not enough to learn the rules. You need to understand and feel deeply how these rules are used in the living language. Reading, listening, and speaking are of use here. How can reading Russian literature help? Let's look at the works by Russian classic Anton Chekhov.

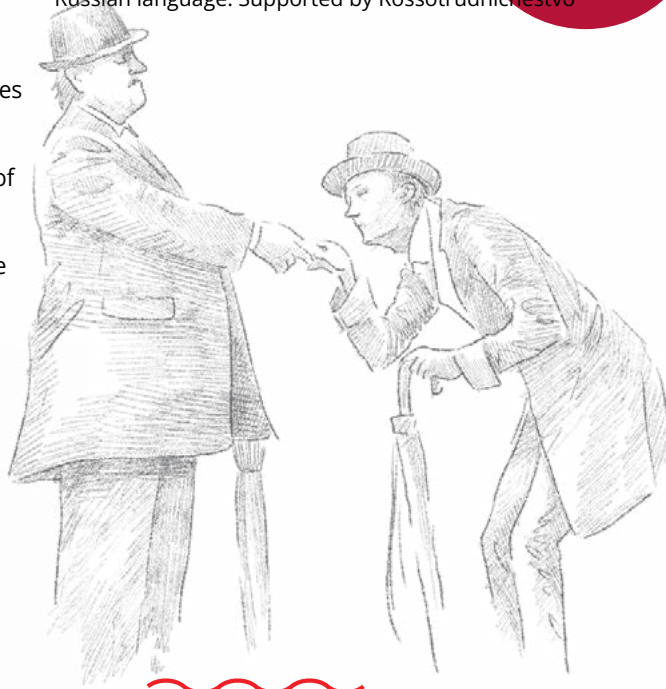

For reference:

Anton Chekhov (1860-1904) is one of the most popular and favorite Russian writers in Russia and worldwide. His works were translated into more than 100 languages. Chekhov's plays are included in the repertoire of the world's top theaters and are acted out willingly by chamber ensembles as well. Over 25 years, more than 500 short prose works, including short stories, short novels, and plays emerged from the pen of the master.

The characteristic feature of Chekhov's prose is that his characters are ordinary people, and the events he describes can be called commonplace with full confidence. Chekhov falls into the category of writers whose works are still relevant today. Absolutely ordinary people, you can easily associate yourself with, face the circumstances of ordinary life, allowing for the historical context. Chekhov's works are permeated with humanity characteristic of Russian literature in general, and that is partly why they touch the readers' hearts no matter what their first language is.

The clear language of Chekhov's works is understandable to students with any level of language proficiency: from elementary to advanced. While reading, you can conveniently study specific rules and language norms.

Chekhov's prose is suitable for independent study. In the texts of his short novels and stories you will find fascinating portraits of people, personality traits, observed in a masterly fashion, as well as a lot of subtle descriptions of nature and its states. And his short humorous stories, for example, ***Fat and Thin, A Horsey Name, A Malefactor, Joy***, can become a source of fun and a good mood.

Translation + original text + audio version + discussion of the work = full immersion in the Russian language and mentality.

Chekhov's works have been translated into many languages. And this can make it easier to understand the original text and work with it. You can add listening to reading by choosing an audio book or audio play.

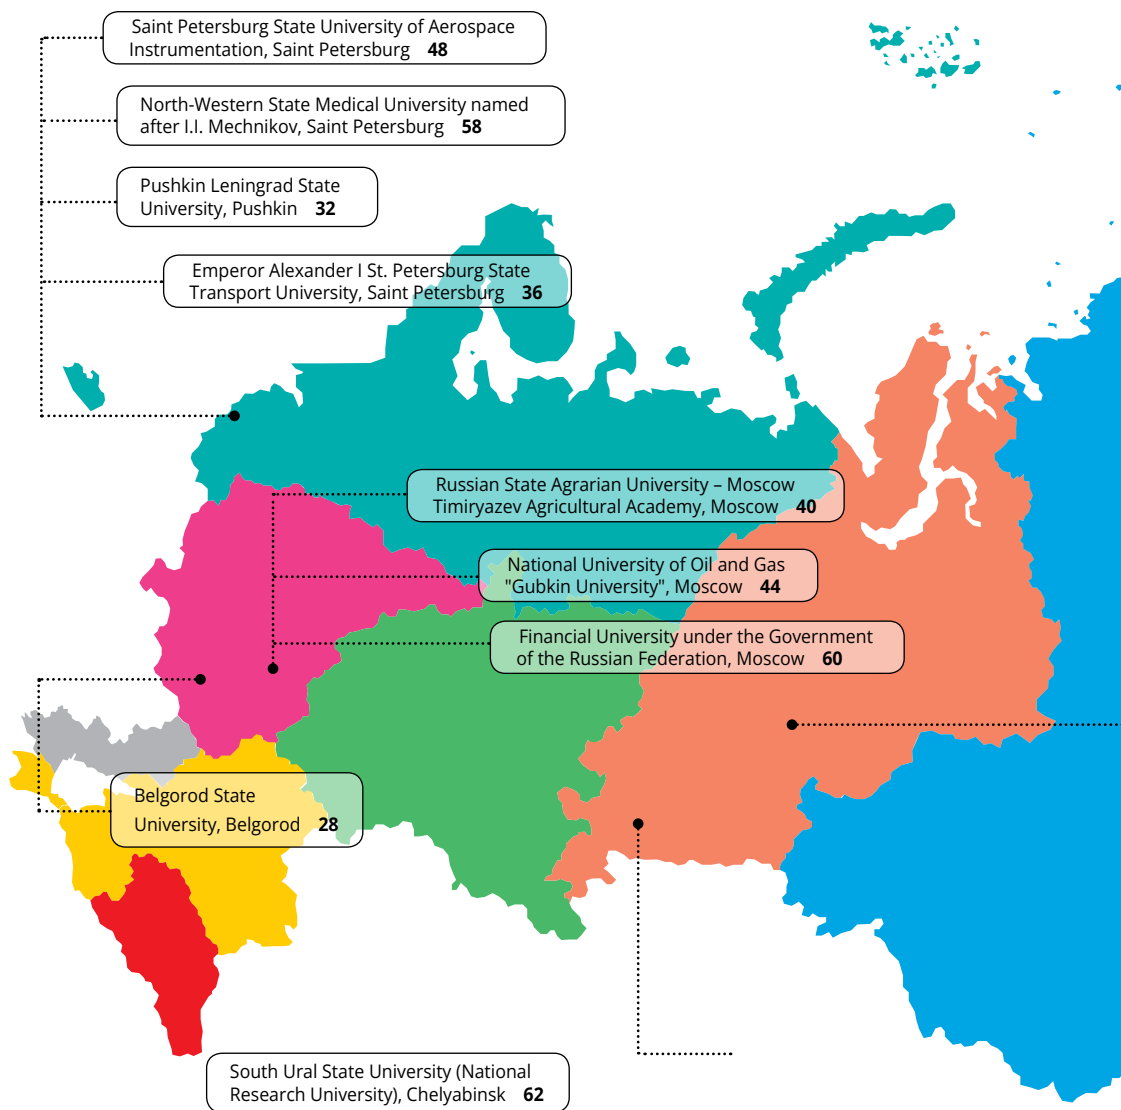

And the last thing. Some enthusiastic students often say that they want to read Chekhov in the original as much as Dostoevsky. And this is a really good objective. However, if your level of Russian language proficiency is A-B, you had better start with more understandable, simple and short works. Fortunately, you are spoiled for choice. And then you can even get to Demons by Dostoevsky or War and Peace by Tolstoy.

In our regular RFL column, we plan to tell you about other idioms and specific rules of the Russian language, complex issues, and exercises to consolidate pronunciation and language norms as well as about literature and music that can help learn the language.

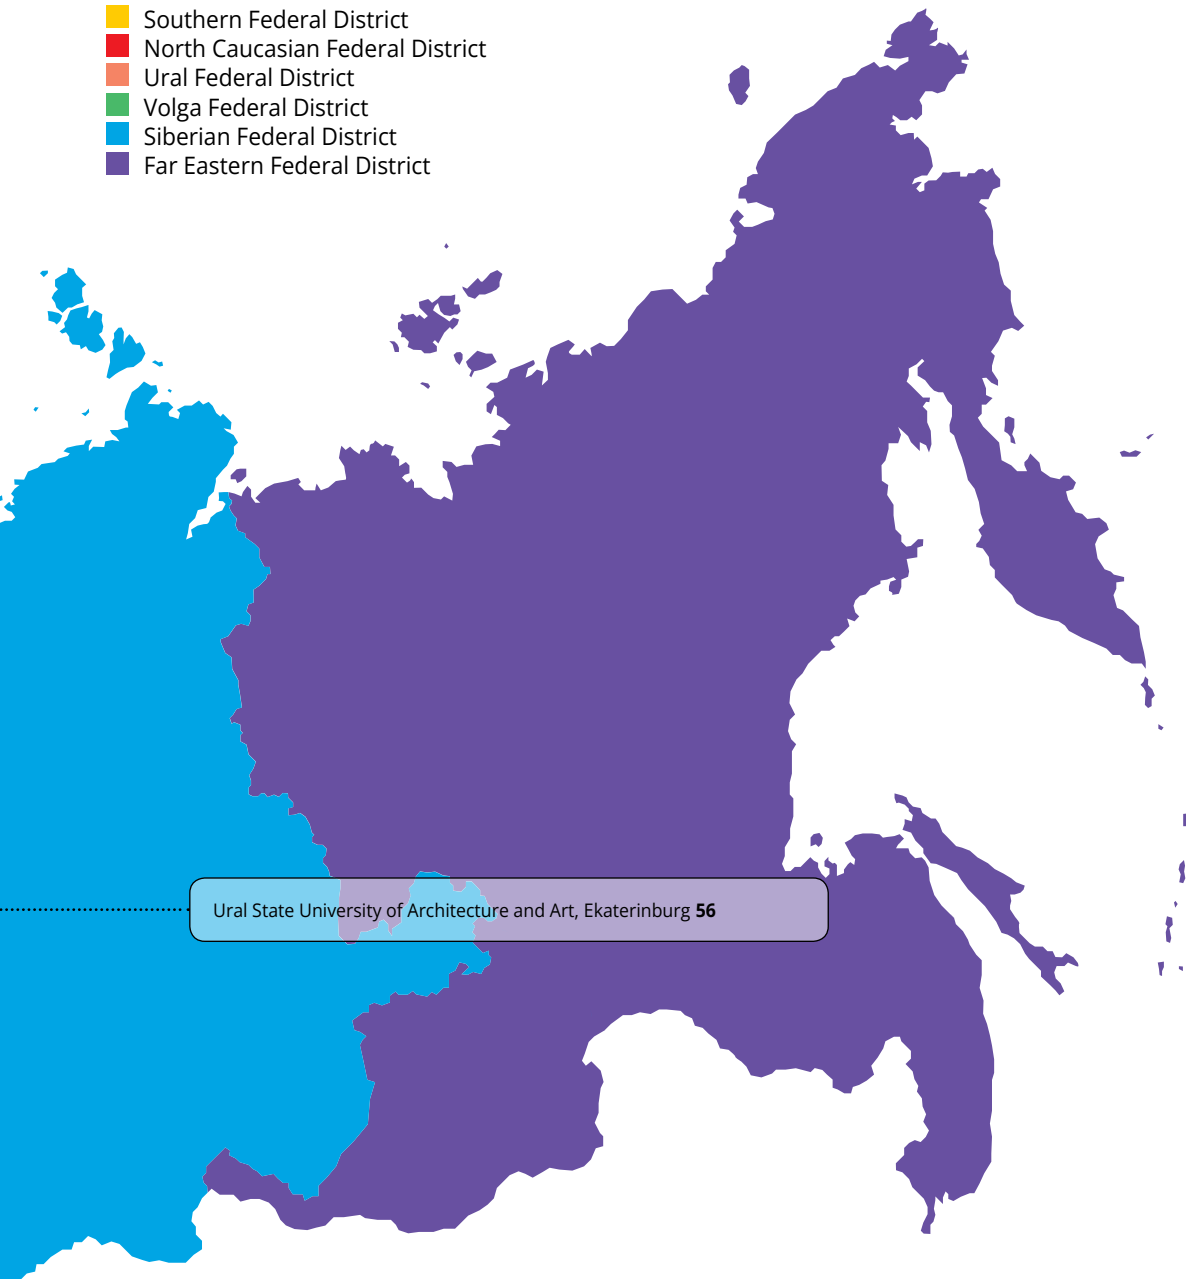

If you study Russian as a foreign language and come across some strange and/or incomprehensible linguistic phenomena, please contact us at dir@hedclub.com, and we will explain the problem in the simplest terms.

PREPARATORY DEPARTMENT

The department offers pre-university training for foreign citizens to pursue higher education programs such as Bachelor's, Specialist's, Master's, residency, and PhD programs.

Study areas:

1. Humanities (Russian language, Literature, History, Social Science)
2. Medicine and Biology (Russian language, Physics, Chemistry, Biology)
3. Natural Sciences (Russian language, Mathematics, Physics, Chemistry)
4. Engineering and Technology (Russian language, Mathematics, Physics, Informatics)
5. Economics (Russian language, Mathematics, Social Science, History)

STUDY OPTIONS

- intensive course – 6 months (January 12, 2025 – August 31, 2025)

Tuition fee – 130,000 RUB

- standard program – 1 year, including vacations (September 1, 2025 – August 31, 2026)

Tuition fee – 130,000 RUB

- advanced program – 1.5 years, including vacations (March 15, 2025 – August 31, 2027)

Tuition fee – 195,000 RUB

Training can be provided online.

Mobile electronic systems create an effect of presence in a classroom, which helps communicate interactively and conduct classroom and extracurricular activities. Moreover, there is a Russian language classroom at Agostinho Neto University in Angola.

SOCIO-CULTURAL ADAPTATION OF INTERNATIONAL STUDENTS

- Russian culture and history courses
- Master classes and video lectures
- Participation in the reconstruction of historical events
- Tours and virtual trips to historical sites in Russia

Extracurricular activities help students learn Russian better, enrich their vocabulary, and develop their communication skills.

Every year, with support from Rossotrudnichestvo, NRU “BelSU” holds the International Olympiad “It’s Time to Speak Russian!” that unites international students and applicants from more than 40 countries. The winners pursue the Master's program in Philology. Russian as a Foreign Language for free.

Oloyede Silvia Oluvaficayomi (Nigeria), the winner of the Olympiad for the B2 RFL learners

Russian language classes, events dedicated to the culture and history of Russia and our countries, the teachers' consultations on difficult topics or on questions that international students have, meetings at the Russian Speaking Club, discussions of movies at the club "In the World of Cinema", conversations at the literary salon "Among the Countries and Faces", the hotline of the International Information Center, and many other things at the university, help me study successfully, and, of course, win the Olympiad. I will continue to improve my Russian and develop both personally and professionally. For this purpose, we have favorable conditions and good teachers in Belgorod. The main thing is to be enthusiastic.

Ernani Prazeres (Angola), 2013 graduate

I read a lot about Russia, and its history struck me! When I came to Belgorod, I was worried about my ignorance of the language, but eight months later I could speak Russian well already! My teachers at the Preparatory Faculty and my Russian friends helped me with it. I still keep in touch with them on social media. At university, I not only studied and conducted research but also took an active part in the events held by the dormitory, the student association "Welcome to Russia!", and the African compatriot association. I was also the leader of the association. Belgorod University helped me not only get an education but also develop my leadership skills, which helped me in my life. Now I am a senior officer at the Department of Research and Competitive Behavior in the market of the Ministry of Finance of Angola and an entrepreneur.

Ngatse Muandzibi Pea Sorel (Congo). The second-year Master's student majoring in Philology. Russian as a Foreign Language

Since I came to the Preparatory Faculty, I've felt support and help from the teachers, staff, and senior students. I spend a lot of time studying Russian, but not only in the classroom. I read books, learn poems, and write compositions on different topics and essays based on movies, interesting people's interviews, and books. I go to museums and attend meetings with interesting speakers. My teachers help me when I don't understand some words or expressions. They check and correct my texts and comment on how it is better to say something in Russian. The university provides social support by allocating financial aid and helping with employment during vacations. At BelSU, other international students and I feel like a family and at home.

ENTRANCE EXAMS

When applying on a contract (fee-paying) basis, international applicants take **one entrance exam**:

- **Bachelor's programs** – Russian language test and interview. They may also submit the results of their Unified State Exam or Test of Russian as a Foreign Language.
- **Master's programs** – major subject test

Entrance exams are held online.

After students pass the entrance exam, they must conclude the educational services payment agreement and pay for the first semester until the end of August.

TIPS FOR INTERNATIONAL STUDENTS FROM THE ADMISSION OFFICE SPECIALISTS

- Feel free to write to and call the International Office if you have any questions
- After you submit your documents, follow the executive secretaries' comments in your Personal Account
- Connect to the exam on time

FACULTIES

- Faculty of Special Defectological Education
- Faculty of History and Sciences
- Faculty of Mathematics and Informatics
- Faculty of Psychology
- Faculty of Philosophy, Cultural Studies and Art
- Faculty of Foreign Languages
- Faculty of Economics
- Faculty of Natural Sciences, Geography and Tourism
- Faculty of Philology
- Faculty of Physical Culture
- Faculty of Law

Popular study programs among international students

- Law
- Linguistics
- Pedagogical Education (Russian language and Literature, Foreign language (English), Mathematics and Informatics, Physical Culture)
- Special (Defectological) Education
- Psychological and Pedagogical Education
- Design
- Tourism

INTERNSHIPS

While studying, students undertake numerous internships with an option to choose a traineeship institution. This provides them with the opportunity to gain work experience at various organizations while studying and to choose the one that suits their interests best.

Students get grants to implement their ideas on a regular basis:

- The grant was awarded to the project "Pushkin LSU Open Cup" aimed at improving the knowledge and skills of Saint Petersburg and Leningrad Region students in phygital sports and creating a platform to practice them.
- Students have developed an open youth space called LSUworking to support youth initiatives and unleash their creative potential.

Doors Open Days are held in November, January, February, March, and April.

COOPERATION WITH FOREIGN UNIVERSITIES

Every year the university concludes mutual cooperation agreements with foreign universities, which provides the opportunity to:

- participate in academic mobility programs
- share cultural experience with the representatives of foreign universities and colleges

The university has the Career Center that helps students and graduates in job search and with resume, cover letter and interview preparation.

SCHOLARSHIP

All state-funded students have the opportunity to get an increased scholarship (for academic excellence after the first academic semester) and a social scholarship (if there are any relevant circumstances and documents).

ADAPTATION

- ▶ **The International Office staff provides comprehensive support:**
 - information support at all stages of admission and studying at the university
 - on legitimate residency in the Russian Federation
 - on getting health insurance
 - dormitory accommodation support
- ▶ **International applicants, who want to improve their level of Russian language proficiency, can take Russian language courses after they are enrolled at LSU (if there are 10-12 people in a group).**
- ▶ **The International Office holds cultural meetings and events on a regular basis.**
- ▶ **The university organizes joint events with consulates, embassies, and compatriot associations.**

Emperor Alexander I St. Petersburg State Transport University is the first transport higher education institution in Russia.

The university offers a wide range of academic Bachelor's, Specialist's, Master's, and PhD programs.

Tuition fees per year

Bachelor's programs from 3,990 EUR

Specialist's programs from 3,990 EUR

Master's programs from 4,400 EUR

PhD programs from 5,250 EUR

Exhibition dedicated to the 40th anniversary of the Smena brigade

PGUPS is ranked in the top 10% of the Global Aggregate Ranking.

📍 Saint Petersburg, Russia

PRIORITY 2030

Aim: Top positions in the comprehensive provision of high-quality and competitive educational and research services for the transport and construction industries, training of next-generation engineering personnel, creation of innovations through knowledge sharing, and ensuring intellectual and technological sovereignty of the Russian Federation in extensive cooperation with partners.

Strategic projects

- Safe Ecosystem of Intelligent Transport Infrastructure
- New Technologies and Materials in Construction
- Heavy Haul is the Driver of Russia's Economy

STUDENT LIFE

- Work in student science clubs and research laboratories under the supervision of the university's leading researchers
- Increased scholarships for successful research, sports, cultural and social achievements
- Student research grant competition
- 7 types of volunteering
- 16 student brigades, 4 of which work all year round

INTERNATIONAL ASSOCIATIONS

Graduates include railway transport ministers, political figures, heads of major transport, construction and industrial enterprises, well-known scientists, and inventors.

FACULTIES

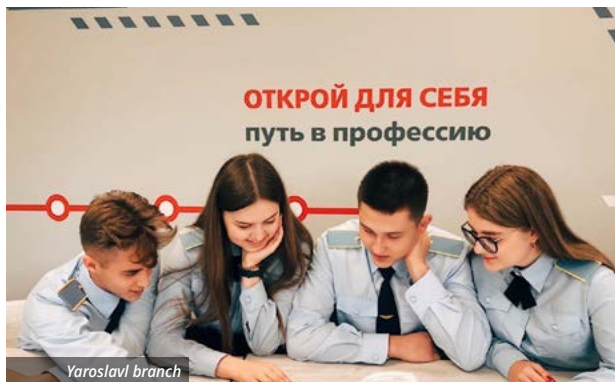

- Automation and Intelligent Technologies
- Transport Construction
- Railway Operation and Logistics
- Industrial and Civil Engineering
- Transport Systems and Power Engineering
- Economics and Management
- Part-Time Studies

- Civil Engineering and Technosphere Safety
- Industry and Power Engineering
- Transport and Logistics
- Economics and Management
- Information Technology

Transmashholding and PGUPS have concluded a cooperation agreement

Yaroslavl branch

STUDY ABROAD

Every year more than 150 students participate in the university's international mobility programs. The programs are delivered jointly with the universities in China, Kazakhstan, Uzbekistan, etc.

- 13 joint and network educational projects with the top foreign transport universities
- 95 foreign partner universities

PARTNERS

INTERNSHIPS AND EMPLOYMENT

PGUPS students implement real-life graduation projects by order of JSC Russian Railways, top transport, design and construction organizations. Graduation theses are aimed at solving current production issues.

PGUPS has a training polygon that allows students to undertake internships and gain experience while studying.

PGUPS specialists and graduates participated in the project to create high-speed railway transport in Russia and upgrade high-speed trains such as Lastochka (Swallow) and Sapsan (Peregrine Falcon) for Russian railways.

98.5 % graduate employment rate: a high percentage results from high-quality education and practical skills acquired while studying.

UNIVERSITY CAMPUS

The RSAU-MTAA campus is a large complex that consists of 14 dormitories located in the environmentally clean zone, with a well-developed infrastructure and transport.

The campus has everything you need for study and leisure. It is safe and comfortable. The dormitories accommodate international students and students from other cities, PhD students, doctoral students, and attendees.

RSAU-MTAA is one of the few universities in Moscow providing accommodation for all students that need a dormitory.

For temporary accommodation of parents and relatives coming to visit students, guest rooms are offered.

On the campus territory, you can find the following:

- 53 educational buildings
- 14 foodservice outlets
- a sports center, a stadium, and fitness center
- a field station with an area of 104 ha
- a botanical garden and a dendrological garden
- a historic park with a total area of 252 ha

International students on an internship

A tour around the university's oil and gas facilities

Self-instruction

OIL AND GAS ENGINEERING

Bachelor's programs

- Drilling of Oil and Gas Wells (full-time)
- Operation and Maintenance of Oil Production Facilities (full-time)
- Operation and Maintenance of Gas and Gas Condensate Production Facilities and Underground Storages (full-time, part-time)
- Construction and Repair of Gas and Oil Pipelines and Storage Facilities (full-time, part-time)
- Operation and Maintenance of Transport and Storage Facilities for Oil, Gas and Refined Products (full-time, part-time)

- ✓ Experimental work at the department laboratories
- ✓ Work on onshore and offshore drilling simulators

Career prospects

- Drilling supervisor, process engineer
- Manager
- Assistant driller, driller, well service operator, oil and gas production operator, operator of booster and cluster pump stations, water and oil pretreatment plants
- Production submanager at oil and gas companies
- Positions at design, engineering and research organizations

Most international students are sought after by oil and gas companies all over the world.

ARRIVAL

Visitors are taken from the airport to the city by

 **Aeroexpress trains** from 300-400 RUB

 **Taxi** - 1,000 RUB on average

Metro is the fastest and the most comfortable transport in the city. The fare is 60 RUB per trip.

It is easy to get to the university, so students arriving in Moscow are met at the university at the address: **65, Leninsky Prospekt, bld. 1, Moscow**. The Akademicheskaya metro station.

Upon arrival, foreign citizens receive comprehensive visa support, but they must get health insurance themselves.

All foreign students are accommodated in the university campus – the comfortable dormitories. Each room accommodates 2-3 persons. The accommodation fee is around 20,000 RUB per year.

The Week of National Cultures is an annual event aiming to improve the relationship between the university's ethnic groups. The program includes a photo show of the unique sights of various nations, a quest game, the Guess a Movie contest, an exhibition of national costumes, national cuisines, and a gala concert.

CAMPUS

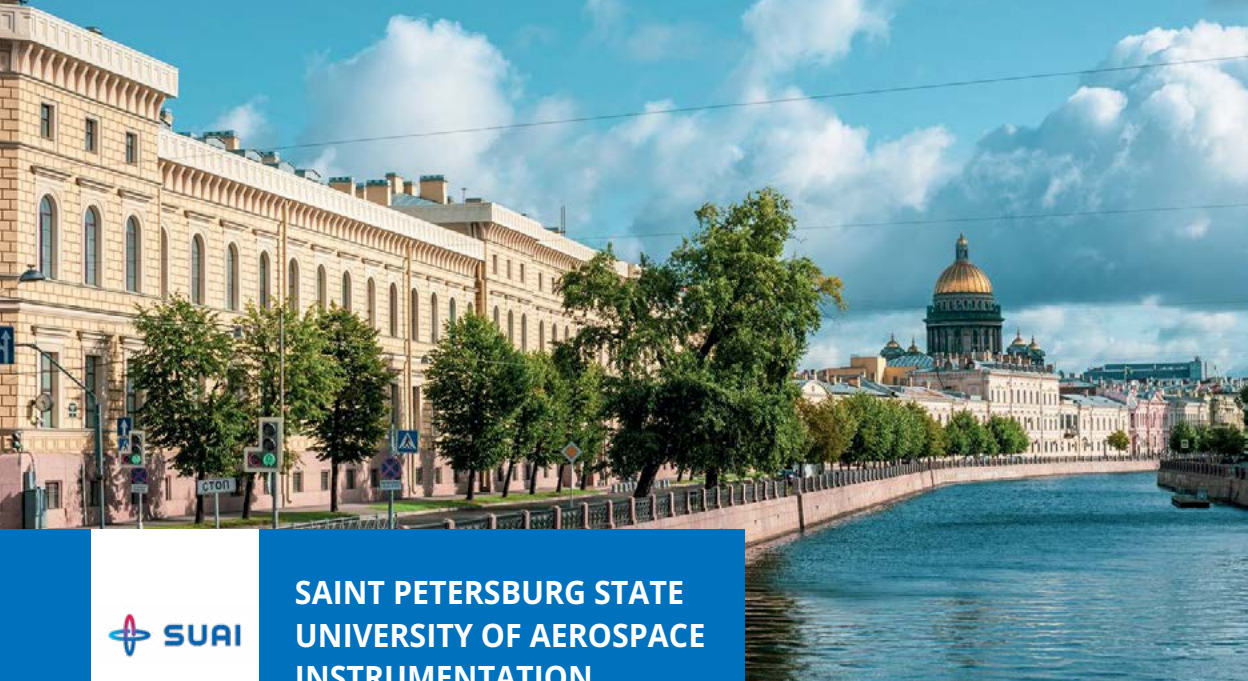

- 5 dormitory buildings, over 4,000 places
- A gym, a skiing center, a football field with workout areas, basketball and volleyball courts
- Dance, instrumental, drama studios, a chess club, a movie club, an art studio and a recording studio

INTERNATIONAL FRIENDSHIP CLUB

The social youth organization familiarizes students with the culture and creativity of various peoples in Russia and foreign countries. The Club works with 22 fellow countrymen associations established at the university. At the beginning of an academic year, they find "their" guys on the list of enrollees and help first-year students adapt to the university and Russia.

EMBEDDED DATA PROCESSING AND CONTROL SYSTEMS

Master's program in English

Two-year research

Exchange semester

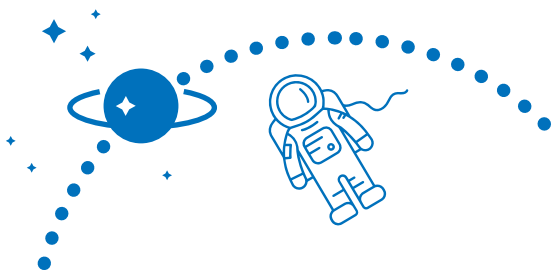

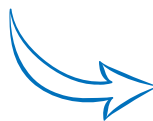

Summer internship

Embedded computer systems are a mass high-technology market of information and computer technologies, the most competitive area of cutting-edge R&D.

You can find embedded systems everywhere: from smartphones to cars, from aircraft and spacecraft to medical equipment, from smart house to intelligent transportation systems.

Students usually choose project themes in the following research areas:

- Communications protocols of airborne equipment
- System modeling and checking
- Embedded systems design
- Embedded systems software development
- Airborne equipment analysis and upgrade
- Video processing
- Heterogeneous computing

“

Liang Heshan, China

The friendly environment prevails between students in our university. The teachers are professionals in their field, they are responsible and attentive to us. The university has a student volunteer organization called SCOM, one of the tasks of which is to help foreign students to adapt, you can ask them any question: they will help with translation if something is not clear, they will give advice when problems arise; SCOM organizes interesting events to let us better know the city and Russian culture in whole. There are conversation clubs in different languages, in which you may not only get live communication and spoken language practice, but also learn something about the culture and mentality of other countries.

“

Chan Dyk Dai, Vietnam

SUAI is a good university. All teachers and staff members are always ready to be contacted. They always help us and explain the material in detail during classes. Lectures are interesting. We can thoroughly master subjects by studying theory and conducting research in state-of-the-art laboratories.

“

Ibrahim Caba, Côte d'Ivoire

Studying at Saint Petersburg State University of Aerospace Instrumentation was the best experience in my university life. I earned a Bachelor's degree in technical operation of aircraft electrical systems and attitude and heading reference systems.

After graduation from SUAI, I entered École nationale de l'aviation civile (Toulouse, France), the first aviation school in Europe. It's where I undertake a study placement to earn a degree in civil aviation engineering in the field of avionics.

SUAI gave me the skills and knowledge I needed to progress in the field of international aeronautics. The university teachers and administration get on very well with students. The university does its best to help students succeed!

I can recommend SUAI, and this major, in particular, to everyone who wants to build an aeronautics career.

GENERAL MEDICINE / GENERAL MEDICINE IN ENGLISH

Duration: 6 years

Languages of instruction:

 Russian /  English

Tuition fees per year:

348,000 RUB / 440,000 RUB

There are **state-funded and quota places** for the General Medicine program taught in Russian.

The General Medicine specialty graduates are prepared to complete the following tasks:

- working at medical and preventive institutions
- prevention and early detection of various diseases
- provision of elective and emergency care
- using clinical diagnosis and treatment algorithms
- research and teaching activities

The university consistently develops facilities for students to pursue residency and PhD programs.

Training is provided both at the university's clinical facilities and at major municipal polyclinics and in-patient clinics in Saint Petersburg with state-of-the-art equipment. Simulation training, scenario-based learning, and problem-based learning are widely used.

The university has a multicultural student community represented by more than 30 countries.

Graduates of the Faculty of General Medicine build their career at:

- medical and preventive institutions
- health and medical authorities
- research institutions

NWSMU named after I.I. Mechnikov on social media

SUMMER AND WINTER SCHOOLS ON MEDICINE

The format of short-term internships with lectures, practicals, and an entertainment program.

Topics:

- Gastroenterology, hepatology, nutrition science
- Ophthalmology
- Surgery
- Schools on general medicine
- Doctors' communication skills

DENTISTRY

Duration: 5 years

Languages of instruction:

 Russian

Tuition fees per year: 450,000 RUB

The program is mainly aimed at training highly qualified medical personnel in accordance with the greatest achievements in Russian and world science. They have advanced diagnostics and treatment technologies at their fingertips and are capable of working in the current economic environment and achieving significant results in public health protection.

Our graduates are top-notch dental specialists and successful people.

This unique Dentistry program places emphasis on honing practical phantom skills and preparing students for practical activities within international standards. Students master the program individually with professional tutors taking into account innovative dental technologies on state-of-the-art phantom and clinical equipment.

- provision of dental care on an outpatient basis and on a day-patient basis within international standards;
- participation in medical rehabilitation of patients with dental diseases;
- use of the main principles of dental care provision management at medical organizations and their subdivisions;
- teaching patients to carry out core health-promoting hygiene activities that help prevent dental diseases and improve their health.

The continuing professional retraining program "Translator in the Sphere of Professional Communication" offers the opportunity to get an additional qualification while studying.

PREPARATORY DEPARTMENT

The Preparatory Department offers two programs:

- University entrance preparation
- Russian for foreign postgraduate applicants

Duration:

November 1 - August 31

Registration for the course starts on July 3

Tuition fees: 195,000 - 200,000 RUB per year

“

LiLu, Master's student

USUAA is a wonderful university full of creativity and youthful zest. Highly qualified teachers not only explain learning content in a clear and understandable manner, but also take care of us and are very helpful. Studying at USUAA, you will gain a fascinating experience and get a great opportunity to work in creative industries.

Tip:

Before you take entrance exams, it is useful to familiarize yourselves with sample entrance works as well as attend foundation courses (offline or online) that will help you understand your level and improve your artistic skills. However, an admission decision will be made based on your results of entrance exams.

FOUNDATION COURSES

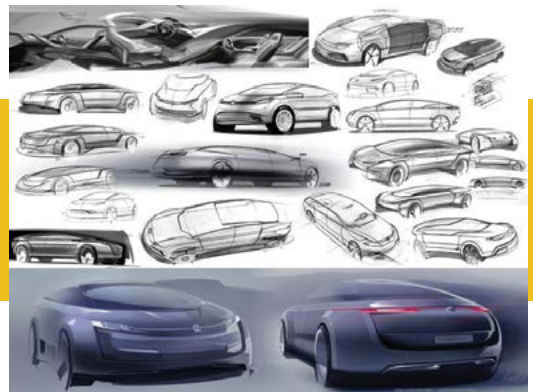

If you do not have sufficient artistic competence in drawing, composition, and painting, we offer you to enroll in our foundation courses that you can take online.

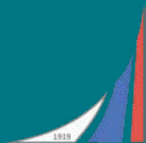

Core training course

Duration: 8 months (from October 1 till May 31 of the current academic year).

Individual format fee for each subject
6,600 RUB / 4 weeks
 (calculation month, 4 lessons).

Moscow, Russia

ARRIVAL AND STAY

Vnukovo is the only one of the three metropolitan air terminals which is located in the city. Domodedovo and Sheremetyevo are located in the Moscow Region.

The Aeroport Metro Station, which is the nearest to the main building of the Financial University, is located on the Zamoskvoretskaya line in the northern part of the city, two stations from the circle line. The university building is located within walking distance of the metro station.

You can get from the airport to the university building:

- by taxi
- by aeroexpress train

All international students applying for state-funded places at the Financial University within the Russian Government quota are sure to get **accommodation in one of 9 dormitories** located within walking distance of the educational buildings.

Over 98% of graduates successfully find employment right after graduation.

The average monthly salary for recent graduates is 55,000 RUB.

THE FACULTIES COMPRISE

- 52 academic departments
- 13 academic and research centers
- 18 laboratories
- business incubator
- business school of the Financial University (Institute)

ADAPTATION

The International Student and Teacher Office

is responsible for international student adaptation. For years, the university has been implementing the BUDDY program aimed at helping international students from the moment of their enrollment at the Financial University: the volunteers contact them and help them execute all the required documents and take out a medical insurance policy as well as meet them upon arrival by air.

☎ +7 499 553-12-18

✉ iso@fa.ru

The university actively implements the Country Leader program. The leaders of the countries help applicants adapt to the university and to life in Russia.

All students who get a state-funded place at the Financial University are sure to get accommodation in one of 9 dormitories located near the educational buildings.

PRE-UNIVERSITY TRAINING FACULTY

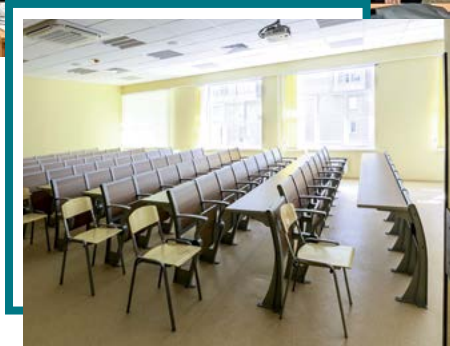

Every year more than 100 international students from 50 countries start studying the Russian language at the Financial University.

International applicants have a unique opportunity to learn Russian from scratch to any required level as well as pursue profession-oriented RFL programs.

TOP 5 PROGRAMS
chosen by international applicants

1. IT programs
2. Economics
3. Management
4. Law
5. State and Municipal Management

Program
ECONOMICS AND FINANCE
Faculty of Finance

- Organizations where international students can undertake their internships with subsequent employment: Kept, Moscow Exchange, VTB Bank, Alfa Bank, Ingosstrakh, Gazprom

- **Program majors:** Business and Entrepreneurship, Marketing Management

UNIVERSITY APPLICATION TIPS FROM TEACHERS FOR APPLICANTS

- Participate in the Olympiads held by the Financial University as prize-winning places allow you to get a tuition discount when applying for Bachelor's, Master's and PhD programs, and winners are sure to get a state-funded place at the university within the Russian Government quota
- Compile a portfolio showcasing your activities and achievements to join the Financial University. The current list of individual achievements is available on the university website

To join the Financial University, foreign citizens can take part in the Financial University Youth International Olympiad.

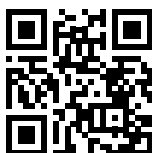

More information about the Youth International Olympiad

The Financial University is one of the universities of the Russian Federation having the right to **independently select students to fill state-funded places** within the Russian Government quota.

To join the Financial University, foreign citizens can take part in the Youth International Olympiad and win it or take part in the portfolio competition.

Registration for the Financial University Youth International Olympiad

Admission paths for foreign citizens

“

Aidana Dushebaeva, Kyrgyzstan

The Olympiad allows students to enter the university directly and without a portfolio, which is very convenient.

I learned about this Olympiad thanks to my teachers who told me about the opportunity to get a state-funded place at the university. Our university allows us not only to gain a theoretical background of the chosen profession but also to find loyal friends and business partners, take part in a great number of scientific events and find a job in our degree field.

“

Đặng Duy Hoàng, Vietnam

Students winning the Olympiad may be enrolled at the university in a major relevant to the Olympiad subject, without entrance exams. I learned about the Olympiad on the Financial University website. It all went well. The Olympiad itself evoked only positive emotions in me.

ADMISSION CAMPAIGN

2025-2026

FOR INTERNATIONAL STUDENTS AT RUSSIAN UNIVERSITIES

Get help from HED

Chat with Staff Members at Russian Universities

Ask your questions!

Dear applicants, the quota campaign has begun. Choosing the right university can be a challenging task. For help, please visit the website about higher education in Russia <https://hedclub.com/en/universities> that provides extensive information on Russian universities.

On the university pages, there is a special service **“Chat with Staff Members at Russian Universities.”** You have the opportunity to ask your questions about admission, academic programs, and other aspects of studying. You can write in your native language, which facilitates communication. The staff members at Russian universities are ready to provide you with all the information applicants are interested in.

Take the opportunity to get the answers to your questions and make an informed choice.
